Abstract: Under present regulations, an insured person can be found to be providing one-half support to a claimant if he or she makes regular contributions for support and the amount exceeds one-half of the claimant's ordinary living costs. The usual approach for determining one-half support is to compare the amount of the insured's contributions with the total income of the claimant.

The proposed regulations change would more accurately reflect that the claimant's total income for support purposes is always considered in the support determination. The change would more specifically address the situation where a claimant elects to invest or otherwise segregate his or her own income and claim one-half support from the insured person. This situation will most frequently arise in cases involving Government pension offset. There would be no significant costs/savings since the policy is already being interpreted in this manner.

Abstract: The proposed regulation will restore the intended meaning of 20 CFR 404.640(b)(2) which was inadvertently altered during a recodification. Abstract: These interim regulations describe a new type of Social Security Ruling which will be available to the public under the Freedom of Information Act and which will be applied at certain levels of the Social Security Administration's adjudicative process. The new Social Security Rulings--Acquiescence Series which reflect the agency's treatment of certain Courts of Appeals decisions, will apply only at the administrative law judge and Appeals Council levels. At these levels, we will apply Courts of Appeals holdings as interpreted in these new rulings to other cases involving the same issue (unless relitigation of the issue is decided upon).

These regulations will result in negligible program or administrative costs or savings.

568. ● OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; REDUCTION BECAUSE OF ENTITLEMENTS TO OTHER BENEFITS

Legal Authority: 42 USC 405; 42 USC 407; 42 USC 1302

CFR Citation: 20 CFR 404.407, (Revision); 20 CFR 404.612

Abstract: Section 202(k)(4) of the Social Security Act discusses simultaneous entitlement to retirement and disability insurance benefits (RIB/DIB) and provides that SSA will pay the higher benefit unless the claimant elects to be paid the lower. Section 223(a)(1) explains that an application for DIB may be filed by someone other than the number holder (NH) within 3 months after the month of the NH's death. Strict interpretation had been made of section 202(k)(4) so that no one other than the NH (or proper applicant on behalf of a living NH) could make the election described in section 202(k)(4). In section 404.612(d) of the CFR, the explanation of section 223(a)(1) is given. We have recently published new operating policy which explains that the same person who files an application pursuant to CFR section 404.612(d) may make the election described in CFR 404.407(c).

We are proposing to change CFR 404.407(c) to clarify that the person described in section 404.612(d) may make the election discussed in section 202(k)(4).

Additional Information: We considered changing the requirements in CFR 404.640 for withdrawing an application to enable the individual who filed a DIB application pursuant to CFR 404.612(d) to withdraw the application. However, the change would only apply to disability applications filed after the death of the NH and would not have affected RIB/DIB applications filed by NH's who die prior to making the election described in 404.407(c). The proposed change, therefore, will be more equitable. We foresee minimal costs from this change since the number of potentially affected beneficiaries is small and the period of time during which they will receive the higher family maximum amount (based on the RIB) will only be for the months during which the deceased NH is simultaneously entitled to DIB. Also, this cost will be offset by administrative savings since overpayments will not be created and have to be recovered in situations where NH's die prior to the DIB determination where RIB has been paid.

Legal Authority: 42 USC 418(q); 42 USC 418(r)

CFR Citation: 20 CFR 404.1281; 20 CFR 404.1286

Abstract: In these proposed regulations, we are revising our rules on agreeing to extensions of the periods during which we may assess a State for amounts due and in which a State may file its claim for refund of, or credit for, overpayments under its coverage agreement with the Secretary of Health and Human Services. (Coverage of Services performed by State and local governmental employees is by agreement under Section 218 of the Social Security Act (the Act). We will agree to extend or reextend the time limit for no more than 6 months at a time and, further, will enter into reextension agreements only if certain conditions are met. With these revisions of the rules, we believe we will be more closely complying with the intent of Section 218(q) and (r) of the Act. Costs are expected to be negligible.

CFR Citation: 20 CFR 404.1720; 20 CFR 410.686; 20 CFR 416.1520

Abstract: We propose to revise our regulation on review of attorney fee

determinations approved for services before the Social Security Administration (SSA) under titles II and XVI of the Social Security Act and under title IV of the Federal Mine Safety and Health Act. These revised rules, if adopted, will allow SSA on its own motion to review and revise attorney fee determinations which are clearly based on improper application of the law and regulations, or on an error of fact. This change extends authority to SSA for reopening fee determinations; an initiative by regulation which is now only applicable to an attorney or his/her client. The savings from this regulation are negligible.

Abstract: These proposed regulations add to our regulations procedures under which a Social Security component responsible for carrying out an administrative law judge hearing decision may recommend to the Appeals Council that the Appeals Council review the decision. Also, we are revising our regulations to make it clear that the Social Security Administration may reopen a final determination or decision on its own initiative. We are adding these rules to our regulations to make the public aware of these procedures and clarify any questionable issues.

The proposed changes will result in negligible program or administrative costs or savings.

Legal Authority: 42 USC 1302; PL 97-248; PL 96-123

CFR Citation: 45 CFR 205.42; 45 CFR 205.44

Abstract: These proposed rules amend the QC regulations under the AFDC program by introducing two primary changes. The first establishes a new performance-based threshold to determine whether or not States that failed to meet the statutory error standards can, in fact, be considered for a waiver. The revision replaces the provision at 45 CFR 205.42(g)(2)(v) regarding a timely developed and implemented corrective action plan, as well as the requirement at 45 CFR 205.44(g)(2)(iv) relating to a demonstrated error reduction from the last assessment period. The second, which generally pertains to those States which are eligible to be considered for a waiver by virtue of having met the threshold, establishes more definitive criteria to be used in determining whether waivers will be granted.

Abstract: Currently, medical support enforcement activities are pursued through cooperative agreements between the State IV-D agency and the State Medicaid agency. This regulation requires all State IV-D agencies to attempt to obtain minimal medical support information. This will result in increased use of available third party resources in the form of private medical insurance and in medical cost savings to State and Federal governments. State IV-D agencies are also required to petition to include medical support in new or modified orders for support, if employment-related medical insurance is or could become available to the absent parent.

CFR Citation: 42 CFR 2

Abstract: Federal law requires that certain alcohol and drug abuse patient records be kept confidential. A comprehensive rewrite of implementing regulations proposed in the NPRM simplifies and substantially shortens existing rules and proposes major substantive changes including: (1) Limiting applicability to specialized alcohol and drug abuse programs, (2) Requiring notice to patients of Federal confidentiality requirements, (3) Including a sample consent form, (4) Eliminating the impediment to a patient's access to her/his own records, (5) Eliminating most sections restricting disclosures based on patient consent, (6) Eliminating the prohibition on the entry of a court order authorizing disclosure of subjective information regarding a patient.

P.L. 98-24, the Alcohol and Drug Abuse Amendments of 1983, consolidates alcohol, drug abuse, and mental health authorities in Title V of the Public Health Service Act. Section 408 of the Drug Abuse Prevention, Treatment and Rehabilitation Act (21 U.S.C. 1175) is transferred to section 527 of the Public Health Service Act and is now codified at 42 U.S.C. 290ee-3. Section 333 of the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (42 U.S.C. 4582) is transferred to section 523 of the Public Health Service Act and is now codified at 42 U.S.C. 290dd-3.

595. OBLIGATED SERVICE FOR MENTAL HEALTH TRAINEESHIPS

Legal Authority: 42 USC 242a

CFR Citation: 42 CFR 64a

Abstract: This rule implements statutory service payback obligations of recipients of clinical traineeships in psychology, psychiatry, social work, or nursing. The NPRM would revise 42 CFR 64a to establish a uniform rate of interest for all individuals who receive clinical traineeships, clarify that funds owed to the government become a debt when the trainee fails to complete the obligation, require that training institutions conduct entrance and exit interviews with trainees to inform them of the seriousness of their service obligations, and provide guidelines for hardship deferrals. The option in existing regulations is to continue the potential for 50 different interest rates with disputes ensuing over what the maximum rate is within each jurisdiction. In addition the existing rule permits a 5-year interest-free period which the NPRM would reduce to 2 years. The NPRM will reduce costs to the government by reducing the interest-free period and by avoiding the expense of settling disputes concerning the correct interest rate for payback obligations.

596. PROJECT GRANTS FOR HEALTH PROGRAMS FOR REFUGEES

Legal Authority: 8 USC 1522(b) Section 412(b)(5) Immigration and Nationality Act; PL 96-212 Refugee Act of 1980; PL 97-363 Refugee Assistance Amendments of 1982

CFR Citation: 42 CFR 51e

Abstract: Regulations are required by Department policy for this project grant program administered by the Centers for Disease Control (CDC) under an intra-agency agreement with the Office of Refugee Resettlement (ORR). The project grants are awarded to State and local health agencies to assist them in providing initial health assessments to arriving refugees. These health assessments specifically address conditions of public health concerns, like tuberculosis, and also identify personal health problems that could impair the effective resettlement of the refugee. CDC has established the program requirements, guidelines, and standards for evaluation.

597. DISTRIBUTION OF REFERENCE BIOLOGICAL STANDARDS AND BIOLOGICAL PREPARATIONS

Significance: Regulatory Program

Legal Authority: 31 USC 9701 Independent Offices Appropriation Act of 1952; 42 USC 216 Sec 215, 58 Stat. 690, as amended; 42 USC 263 Sec 352 of the Public Health Service Act, as amended

CFR Citation: 42 CFR 7, (New)

Abstract: This proposal initiates a program that would impose a user charge upon a private agency which requests reference biological standards or biological preparations for their own comparative performance tests to cover the cost to the Centers for Disease Control (CDC) of developing and distributing the products. CDC is proposing to impose an average user charge of $24 per unit distributed. The cost will vary, depending upon the type of preparation requested. CDC is not proposing to impose a user charge for State and local health departments, the World Health Organization, or international governments because these materials are provided to those agencies for public health reasons and not for the benefit of the requesters.

598. SPECIFICATIONS FOR MEDICAL EXAMINATIONS OF UNDERGROUND COAL MINERS

Legal Authority: 30 USC 843 Federal Mine Safety and Health Act of 1977

CFR Citation: 42 CFR 37, (Revision)

Abstract: The National Institute for Occupational Safety and Health (NIOSH) administers an X-ray examination program for coal miners as mandated by the Federal Mine Safety and Health Act of 1977. The proposed amendment will provide additional specifications to enable X-ray readers in the Department's medical surveillance program for underground coal miners to interpret miners' chest X-rays more accurately to classify any existing or developing pneumoconiosis. The proposed changes are based on recommendations by NIOSH, the Mine Health Research Advisory Committee to NIOSH, and the American College or Radiology Task Force on Pneumoconiosis. The proposed rule will expand the specification for X-ray film size, specify film/screen combinations and speeds which can be used, and specify the method for obtaining a definitive interpretation of chest X-rays when two readers' interpretations do not agree.

599. ● IMPROVE STANDARDS FOR RESPIRATOR DEVICES

Significance: Regulatory Program

Legal Authority: 30 USC 801

CFR Citation: 30 CFR 11

Abstract: There are three major problems that the proposed regulatory action is intended to solve. First, the current regulatory provisions in 30 CFR 11 in some instances date back almost fifty years. As a result the provisions are not current with many of the extensive changes in respirator technology. Second, the current regulations do not provide for testing of respirators under either actual or simulated use conditions prior to certification. Third, the resources required to conduct routine respirator certification testing has made it difficult for NOISH to keep respirator performance standards current with advances in respirator technology and with new knowledge on respirator performance characteristics. Alternatives considered: (1) the Federal government could relinquish the field entirely to the private sector. (2) The Federal government could promulgate performance standards but not be involved in asuring compliance with those standards. (3) The Federal government could continue to be the certifier of respirators but have manufacturers conduct testing. (4) The Federal government could continue its present role of total operation of the respirator system. NIOSH (cont)

Abstract: This proposed rule would clarify or revise certain existing requirements concerning obligations of persons who sponsor clinical investigations involving a drug or medical device and extend those requirements to cover other products regulated by FDA. The rule is intended to provide greater protection of the rights and safety of subjects involved in clinical investigations and to help assure the quality and integrity of the data filed with FDA under the Federal Food, Drug, and Cosmetic Act and the Public Health Service Act.

Significance: Regulatory Program

Legal Authority: 21 USC 321 Federal Food, Drug, and Cosmetic Act; 21 USC 348 Federal Food, Drug, and Cosmetic Act; 21 USC 371(a) Federal Food, Drug, and Cosmetic Act; 21 USC 376 Federal Food, Drug, and Cosmetic Act

CFR Citation: 21 CFR Chapter 1

Abstract: This proposed rule would establish a new policy for assessing the safety of food and color additives containing minute levels of carcinogenic impurities. The proposal would clarify the definition of an "additive" to apply the Delaney Clause only when the additive as a whole has been shown to cause cancer, and would use risk assessment procedures as one of the tools for determining the safety of an additive under the general safety clause of section 409 of the Federal Food, Drug, and Cosmetic Act.

CFR Citation: 21 CFR 606

Abstract: FDA is responsible for issuing regulatory standards for blood and blood components to ensure the continued safety, purity, and potency of such products. Since 1975, CGMP regulations have been in effect that provide standards for facilities,

personnel, and manufacturing procedures for blood and blood components. In accordance with the Regulatory Flexibility Act, FDA has conducted a retrospective review of its CGMP regulations for blood and blood components, to determine how the regulations may be revised to relieve regulatory burdens and increase flexibility without adversely affecting the public health. Part of the retrospective review of the CGMP will be completed through FDA's implementation of an efficacy review of blood and blood derivatives which responds to recommendations of a Committee of scientific experts--the Panel on Review of Blood and Blood Derivatives. To complete the remainder of the retrospective review program regarding the CGMP, FDA will issue a proposed rule to revise the CGMP regulations.

CFR Citation: 21 CFR 312

Abstract: This proposed rule would revise extensively the IND rules to improve the efficiency of FDA's operations and to update and clarify its internal policies in reviewing and expediting applications for new drugs. These revisions are believed necessary to improve the efficiency of the drug review process. The result would be greater assurance that safe and effective new drugs are approved as promptly as possible. The undertaking reflects FDA's commitment to refine and improve the entire IND/NDA process. The IND/NDA rules were scheduled for retrospective review announced by FDA in its July 2, 1982 notice (47 FR 29004) establishing priorities for reviewing the agency's existing rules under the Regulatory Flexibility Act and Executive Order 12291. This item was previously listed in the agenda as New Drug Approval Process: Revision of IND/NDA Rules (RIN 0905-AA00).

CFR Citation: 21 CFR 201

Abstract: The agency is assessing various options to determine the most responsible and feasible course to protect sulfite-allergic people, while ensuring that drug products remain stable, effective, and safe. The agency will monitor the drug industry's program of voluntary ingredient disclosure on labeling to determine if susceptible individuals have adequate information to avoid sulfites. For prescription drugs containing sulfites, the agency is considering requiring, through rulemaking, a warning statement to health professionals, about sulfites.

CFR Citation: 21 CFR 330

Abstract: The agency's exclusivity policy of limiting over-the-counter (OTC) drug monograph labeling terminology to specific words and phrases has been the subject of comment throughout the OTC drug review process. This proposed rule would modify that exclusivity policy as it relates to indications for use and would prescribe the placement of monograph terminology in the labeling of OTC drug products. The modified exclusivity policy would permit manufacturers to use other truthful and

nonmisleading statements relating to indications for use.

Abstract: Comments received in response to a 1982 proposal affirming that the food uses of certain sulfiting agents were generally recognized as safe (GRAS), the findings and conclusions of the Federation of American Societies for Experimental Biology, and adverse reactions reports (including some reports of deaths), have lead to a reexamination of the GRAS status of sulfiting agents. Sulfiting agents (sulfur dioxide, sodium sulfite, sodium and potassium bisulfites, and sodium and potassium metabisulfites) are chemical preservatives that are extensively used in foods. The agency published a proposed rule to clarify the circumstances under which the presence of sulfiting agents must be declared on the label of packaged foods. The agency is also considering what its options are with regard to the GRAS status of (1) sulfiting agents on fruits and vegetables served or sold raw, (2) sulfiting agents used on potatoes, and (3) other food uses of sulfiting agents.

620. ADVERSE DRUG EXPERIENCE REPORTING REQUIREMENTS FOR MARKETED PRESCRIPTION DRUGS WITHOUT APPROVED NEW DRUG OR ABBREVIATED NEW DRUG APPLICATIONS

Significance: Regulatory Program

Legal Authority: 21 USC 351 Federal Food, Drug, and Cosmetic Act; 21 USC 352 Federal Food, Drug, and Cosmetic Act; 21 USC 355 Federal Food, Drug, and Cosmetic Act; 21 USC 371 Federal Food, Drug, and Cosmetic Act; 21 USC 374 Federal Food, Drug, and Cosmetic Act; 42 USC 262 Public Health Service Act

CFR Citation: 21 CFR 211; 21 CFR 310; 21 CFR 600

Abstract: This proposed rule would require manufacturers, packers, and distributors of marketed prescription drug products that are not the subject of approved new drug or abbreviated new drug applications to report to the agency whenever the manufacturer, packer, or distributor receives information about any serious and unexpected adverse event associated with the use of one of its marketed drug products. The agency is taking this action based on recent events whereby serious adverse reactions, which were associated with an intravenous drug product (that was not the subject of an approved new drug or abbreviated new drug application and that is no longer being marketed), were not reported to the agency by the manufacturer, packer, or distributor. Under the agency's current regulations, neither the manufacturer, packer, nor distributor of such a product is expressly obligated to report serious safety problems to the agency. A separate proposed rule for biological products would require reports of adverse experiences associated with the use of licensed biological products.

621. ● PROPOSED RULE TO IMPLEMENT THE ORPHAN DRUG ACT AMENDMENTS TO THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

Significance: Regulatory Program

Legal Authority: PL 97-414 Orphan Drug Act

CFR Citation: Not yet determined

Abstract: The Orphan Drug Act is intended to provide incentives for drug companies to invest in the development of drugs for rare diseases or conditions. Certain incentives are necessary because "orphan drugs" are unlikely to be profitable. The agency is required to carry out provisions of the Orphan Drug Act, e.g., by designating a drug as an orphan drug, by providing protocol assistance, and by granting seven years of exclusive approval status. The proposed rule would establish procedures whereby drug sponsors can take advantage of the incentives to encourage development of orphan drugs. While several provisions of the Orphan Drug Act call for promulgation of regulations, the agency is considering the extent to which regulations will be needed to provide the framework and guidance for implementing a program of incentives to drug sponsors and manufacturers.

622. ● PROPOSED USER CHARGE; NEW DRUG APPLICATIONS, ABBREVIATED NEW DRUG APPLICATIONS, AND ANTIBIOTIC APPLICATIONS REVIEW

Significance: Regulatory Program

Legal Authority: 21 USC 351 Federal Food, Drug, and Cosmetic Act; 21 USC 352 Federal Food, Drug, and Cosmetic Act; 21 USC 353 Federal Food, Drug, and Cosmetic Act; 21 USC 355 Federal Food, Drug, and Cosmetic Act; 21 USC 356 Federal Food, Drug, and Cosmetic Act; 21 USC 357 Federal Food, Drug, and Cosmetic Act; 21 USC 371 Federal Food, Drug, and Cosmetic Act; 31 USC 9701 Independent Offices Appropriation Act

CFR Citation: 21 CFR 314

Abstract: The proposed rule would initiate a program that would require drug manufacturers (as beneficiaries of special services that the agency provides) to bear the costs that the agency incurs in reviewing and approving new drug and antibiotic applications, abbreviated new drug applications, and certain supplemental applications. The agency would set fees for different types of applications. The benefit accruing to an applicant under the agency's new drug and antibiotic application review and approval activity is that the applicant may lawfully market its new drug or antibiotic upon gaining agency approval. Review by the agency also benefits applicants by helping ensure that they will market only safe and effective drug products. This, in turn, enhances public confidence in applicant's drug products.

Significance: Regulatory Program

Legal Authority: 21 USC 371 Federal Food, Drug, and Cosmetic Act; 21 USC 376(b), (c), & (d) Federal Food, Drug, and Cosmetic Act; 21 USC 376 note Federal Food, Drug, and Cosmetic Act

CFR Citation: 21 CFR 81.1; 21 CFR 81.27

Abstract: The final rule will amend the color additives regulations to provide new closing dates for the use of nine provisionally listed color additives (FD&C Red No. 3 and its likes, FD&C Yellow No. 6, D&C Red No. 8, D&C Red No. 9, D&C Red No. 19, D&C Red No. 33, D&C Red No. 36, D&C Red No. 37, and D&C Orange No. 17) beyond September 3, 1985. A second final rule will permanently list the provisionally listed uses of FD&C Yellow No. 5. The purpose for postponing the closing dates is to permit the uninterrupted use of these color additives while FDA receives and evaluates additional scientific data that is required by the final rule.

624. ● CLINICAL TESTING FOR NEW DRUGS

Significance: Regulatory Program

Legal Authority: 21 USC 355 Federal Food, Drug, and Cosmetic Act

CFR Citation: Not yet determined

Abstract: The development of a new drug and obtaining an approved marketing application is a major undertaking and may cost the applicant millions of dollars. Accordingly, it is important that applicants understand what clinical testing must be conducted to obtain final approval of a new drug.

Despite substantial guidance already available to applicants about the clinical testing necessary to meet the statutory standard, important questions about clinical studies inevitably will arise during the drug development process. The agency is exploring various options of providing additional guidance that would be intended to reduce the time and financial costs associated with clinical studies of questionable import. Alternatives include allowing the private sector to continue to rely primarily on their own expertise; providing guidance on a case-by-case basis, for example, during conferences between the agency and drug sponsors before the final states of clinical testing; and developing additional broad guidance in the form of a general guideline.

Significance: Regulatory Program

Legal Authority: 42 USC 216 Public Health Service Act; 42 USC 262 Public Health Service Act

Abstract: The Food and Drug Administration is proposing to require that each unit of blood and blood components be tested and found nonreactive by a licensed serologic test for antibody to human T-lymphotropic virus type III (HTLV-III). HTLV-III is believed to be the causative agent of acquired immunodeficiency syndrome (AIDS). If blood tests positive to the test for antibody to HTLV-III, the blood should not be used. Requiring the test on each unit of blood and blood components should decrease the risk of transmitting AIDS by transfusion or parenteral administration of blood and blood components.

626. ● IMPLEMENTATION OF TITLE I OF THE "DRUG PRICE COMPETITION AND PATENT TERM RESTORATION ACT OF 1984" (TITLE I)

Significance: Regulatory Program

Legal Authority: PL 98-417, (Title I)

CFR Citation: Not yet determined

Abstract: Until the passage of Title I of the "Drug Price Competition and Patent Term Restoration Act of 1984," abbreviated new drug application (ANDA) procedures were only available for generic products equivalent to pioneer drugs approved before 1962. Title I opened up the ANDA policy to generic copies of products approved after 1962. This rulemaking is intended to establish clear and uniform procedures for the review and timely approval of ANDAs. This should assist the generic drug industry by ending considerable confusion about the procedures governing review of ANDAs. In turn, with the availability of lower-cost generic products, it is estimated that consumers may save millions of dollars. The statute calls for promulgation of implementing regulations, however, the agency also expects to develop guidelines and other policy statements to assist in developing approvable applications.

627. ● EXTENSION OF PATENTS ON REGULATED PRODUCTS (TITLE II OF THE "DRUG PRICE COMPETITION AND PATENT TERM RESTORATION ACT OF 1984")

Significance: Regulatory Program

Legal Authority: PL 98-417, (Title II)

CFR Citation: Not yet determined

Abstract: Congress passed the "Drug Price Competition and Patent Term Restoration Act of 1984" to compensate research-intensive firms for the loss of patent term due to required testing and government review of premarketing applications for drugs, devices, and food additives. The new legislation imposes an administrative burden on the agency to help determine whether a patent is eligible for extension, to assess the length of premarket testing and review, to determine whether applicants acted with due diligence and to conduct informal hearings. While the statute requires regulations for implementation of the "due diligence" provisions, the agency is considering other alternatives, such as informal guidance or formal guidelines, for implementing other statutory requirements.

CFR Citation: 21 CFR 514.1; 21 CFR 514.2; 21 CFR 514.3; 21 CFR 514.11

Abstract: This proposed rule would permit applicants to file abbreviated new animal drug applications (ANADAs) for products identical to approved post-1962 drugs and to omit certain reports that are required in full NADAs to show safety and effectiveness of the product. It would apply only to certain drug products specified by FDA. Significance: Regulatory Program

Legal Authority: PL 94-295 Medical Device Amendments of 1976

Abstract: Various groups have criticized the provisions of the amendments and/or the Agency's implementation of them. Agency task forces were established to analyze and to explore/develop alternatives or solutions respecting premarket notification, premarket approval, clinical investigations, reclassification, current good manufacturing practice, education, definitions, small business impact, and the repair, replacement, or refund provisions of the amendments and the Agency's regulations thereunder. The task forces have preliminarily identified aspects of the criticisms that are amenable to solution by the Federal government, e.g., revision of existing Agency regulations and initiation of legislative changes. Other solutions may be amenable to cooperative efforts between the Federal government and society as a whole--e.g., education of device users; specific alternatives have not yet been identified. Regulatory priorities/options will be established during the development of any rulemaking activity that the Agency may initiate in response to the task forces' findings and recommendations.

Abstract: This NPRM sets forth provisions under which the Secretary may deny Federal payment under Title XVIII (Medicare) and Title XIX (Medicaid), for expenses related to capital expenditures (1) which the Designated Planning Agency (DPA) has found to be inconsistent with established standards, criteria or plans developed under the Public Health Service (PHS) Act; or (2) for which the DPA was not provided notice as required.

This is a new NPRM which replaces a previous NPRM published August 10, 1983 and is being issued to: (1) incorporate statutory changes made since promulgation of the original regulations; (2) incorporate existing

policy into regulations; and (3) ensure the efficient and effective implementation of Section 1122 of the Social Security Act without incorporating provisions of Title XV of the PHS Act.

Legal Authority: 42 USC 701 to 709

CFR Citation: 42 CFR 51a; 42 CFR 51d; 42 CFR 51f

Abstract: The Omnibus Budget Reconciliation Act of 1981 (Pub. L. 97-35) revised Title V of the Social Security Act to establish the Maternal and Child Health Service Block Grant. In the block grant there is a Federal Set-Aside Program which provides for the retention of 10 to 15 percent of the appropriation in each fiscal year for continuation of certain categorical programs (special projects of regional and national significance, maternal and child health research and training, genetic disease testing, counseling and information and hemophilia diagnostic and treatment centers). A Final Rule, published on June 25, 1982, made regulations for the previous programs applicable to the set-aside authority until regulations specifically designed for the set-aside could be developed.

641. PROGRAM GRANTS FOR MIGRANT HEALTH SERVICES

Legal Authority: 42 USC 216; 42 USC 254(b)

CFR Citation: 42 CFR 56

Abstract: A notice of proposed rulemaking (NPRM) was published in the Federal Register on December 19, 1980 to revise the existing regulations to incorporate provisions of Pub. L. 95-626, the Health Services Amendments of 1978. Because of administrative changes and new policy direction, a new NPRM will be developed to place greater emphasis on and to facilitate State participation in this program. The new NPRM would also simplify the regulation and incorporate the provisions of Pub. L. 95-626. These regulations will simplify application requirements for States, give certain priorities to awards to States, and will offer alternatives for States to meet requirements which have tended to be barriers to States.

Additional Information: SMALL BUSINESSES CONT: This regulation will increase opportunities for States to become grantees under this program. Not every State will choose to implement this approach and it is anticipated that many who do will implement it in co-application with existing grantees. Therefore, it is expected that this regulation will not have a significant impact on a substantial number of small entities as defined by the Regulatory Flexibility Act.

642. PROJECT GRANTS AND LOANS FOR HOME HEALTH SERVICES AND TRAINING

Legal Authority: 42 USC 255

CFR Citation: 42 CFR 51e

Abstract: Title III of the Public Health Service Act was amended by section 6 of the Orphan Drug Act of 1983 (P.L. 97-414). The effect of the amendment authorizes a new program of grants and loans to support home health services. Specifically, it authorizes grants to nonprofit agencies and loans to proprietary agencies to establish and operate home health programs. It also authorizes grants and contracts for training paraprofessionals to provide home health services, with special consideration given to trainees 50 years of age or older. The amendment requires five separate reports to Congress and requires the Secretary to develop and carry out demonstration projects regarding patients at risk of institutionalization and alternative reimbursement methodologies. The program is expected to impact in cost savings through better methods of identifying patients at risk and decreasing the length and frequency of hospital stays.

Legal Authority: 42 USC 216; 42 USC 300Y to 300Y11

CFR Citation: 42 CFR 51; 45 CFR 74; 45 CFR 96

Abstract: Section 1932 of the Public Health Service Act was amended by section 8 of the Orphan Drug Act of 1983 (P.L. 97-414). The effect of the amendment requires the Secretary to promulgate separate regulations for the Primary Care Block Grant taking into consideration the distinctive features of the program such as: the program consists principally of community health centers; the States have the option of assuming responsibility for the program; the States have to make a substantial financial contribution; if a State opts for the block, it agrees to continue to provide a statutory range of services; new centers could only be established in medically underserved areas; and procedural safeguards protecting existing centers.

644. INDIAN HEALTH SERVICE, 42 CFR PART 36 SUBPART I, CONTRACTS UNDER THE INDIAN SELF-DETERMINATION ACT: AMENDMENTS

Legal Authority: 25 USC 450G

CFR Citation: 42 CFR 36, Subpart I

Abstract: This is a revision to implement a policy to charge interest and penalties on delinquent debts. This is in compliance with Department of the Treasury's guidelines pertaining to debt collection activities and the joint regulations issued on April 17, 1981, by the Attorney General and the Comptroller General and is consistent with the Debt Collection Act of 1982 (P.L. 97-365). This will require a change to the Department's Indian Health Service (IHS) P.L. 93-638 regulations to include a new contract/grant clause.

Legal Authority: 42 USC 216; 42 USC 300r; 42 USC 300s; 42 USC 300s-6

CFR Citation: 42 CFR 124, Subpart F

Abstract: The existing regulations at 42 CFR Part 124, Subpart F establish specific requirements that recipients of Federal assistance under Title VI or Title XVI of the PHS Act made assurances that they will make available in the facility constructed, modernized or converted with that assistance, a reasonable volume of services to persons unable to pay for services. Significance: Regulatory Program

Legal Authority: 42 USC 216; 42 USC 300r; 42 USC 300s; 42 USC 300s-6

CFR Citation: 42 CFR 124

Abstract: The existing regulations at 42 CFR Part 124 Subpart F establish specific requirements that recipients of Federal assistance under Title VI or Title XVI of the PHS Act made assurances that they will make available in the facility constructed, modernized or converted with that assistance, a reasonable volume of services to persons unable to pay for services. Many public hospitals provide significant amounts of free or low-cost health services to the poor, or are prohibited from charging for services. Currently, these facilities are required to implement administrative procedures that are either unnecessary or anomalous. The proposed changes will alleviate the administrative burden on these facilities.

Significance: Regulatory Program

Legal Authority: 25 USC 13 (Synder Act); 42 USC 2001 to 2004 (Transfer Act)

CFR Citation: 42 CFR 36, Subparts A, B & C

Abstract: The Indian Health Service (IHS) and the Health Resources and Services Administration (HRSA) have been reviewing potential approaches for strengthening the management and allocation of IHS resources to most effectivelyserve program beneficiaries. The eligibility criteria for IHS program beneficiaries represent a primary focus of the review, particularly in view of recent trends among service recipients. For example, more people with a claim of Indian descent are using IHS services than ever before even though alternative medical care is available. This situation has arisen from greater awareness of possible eligibility, the availability of improved care, greater acceptance of the program by Indian people, and increased costs of medical care outside of IHS. The various special programs established by Congress to provide health services to the Indian people are a direct outgrowth of treaties and the resulting Federal trust relationship. Thus, any changes in these programs require Federal regulatory action. The NPRM will address such matters as tribal affiliation, residency requirements, and blood quantum.

CFR Citation: 42 CFR 4; 42 CFR 59a; 42 CFR 63; 42 CFR 64

Abstract: All of the regulations are being substantially clarified and reduced in size by eliminating out of date or otherwise available information. The regulations at 42 CFR Part 4 pertain to the access of facilities and library collections. Those at 42 CFR Part 59a deal with NLM extramural programs. Part 59a is being amended to remove the requirement that photocopies of biomedical material be provided without charge to users. The regulations at 42 CFR Part 63 deal with both NIH and NLM traineeships. Part 63 is proposed to be deleted because NIH no longer has general traineeship authority and the sole remaining NLM program is unfunded. The regulations at 42 CFR Part 64 govern the training grants of NIH and NLM.

Legal Authority: 42 USC 241; 42 USC 2891-1

CFR Citation: 42 CFR 52; 42 CFR 61; 42 CFR 66; 48 CFR 3, Appendix A

Abstract: Recipients of Public Health Service research and research training funds do not presently have sufficient guidance regarding their responsibility to investigate and report possible misconduct in PHS-funded research or research training. While many institutions have voluntarily established procedures for dealing with misconduct in science, they are not required to do so and in many recent instances the lack of defined procedures has delayed or compromised awardees' investigations. Institutional policies regarding reports to funding agencies vary considerably. The proposed regulation will define the point at which funding agencies are notified and will require awardees to develop procedures for dealing with misconduct in science. Legislation proposed in the 98th Congress would have required Departmental approval of institutional procedures but PHS prefers a less directive approach allowing awardees to develop appropriate procedures.

Abstract: These regulations would implement sections 930(n) and (p) of the Omnibus Reconciliation Act of 1980. The regulations would require home health agencies participating in Medicare to meet conditions, including bonding or establishment of escrow accounts to ensure the financial security of the Medicare program. It would exclude from Medicare reimbursement any costs incurred by an HHA in connection with bonding or establishing an escrow account and any interest payments made by an HHA that are charged on amounts borrowed to repay Medicare overpayments. The intent of these additional requirements is to assure the availability of funds to repay overpayments, and thereby ensure the financial security of the Medicare program.

Abstract: These rules confirm interim final rules published on October 26, 1982 (47 FR 47388) with changes that make it possible for certain additional physicians to certify need for home health services and to establish and review a plan of treatment for those services. The changes are responsive to public comments and also serve to implement section 2336 of Pub. L. 98-369. The rules also make clarifying changes with respect to timing and procedures for certification for home health services and outpatient physical therapy and speech pathology services.

Abstract: This regulation would implement changes with respect to Medicaid eligibility groups and coverage criteria made by the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) and the Deficit Reduction Act of 1984 (PL 98-369). Most of these changes affect the provisions of September 30, 1981 regulations concerning Medicaid eligibility for the medically needy, published as a result of the Omnibus Budget Reconciliation Act of 1981. The regulations would also respond to public comments received on the September 30 regulations. Because of changes required by TEFRA and in order to respond to comments, an NPRM will be published rather than a final regulation.

Legal Authority: 42 USC 1302; 42 USC 1396d

CFR Citation: 42 CFR 435.1009

Abstract: This regulation would amend Medicaid regulations on intermediate care facility services for the mentally retarded persons with related conditions by revising the current

definition of "persons with related conditions." This definition is presently tied to the definition of developmental disability in the Developmental Disabilities Assistance and Bill of Rights Act (DDABRA). This regulation establishes a Medicaid definition of conditions related to mental retardation that would meet the specific needs of the Medicaid program and would be independent of the definition of developmental disability in the DDABRA.

Abstract: This regulation would eliminate application of the lesser of costs or charges aggregation method for determining payment for services furnished under Part A or Part B of Medicare effective with cost reporting periods beginning on or after October 1, 1984 (section 2308(a) of P.L. 98-369). We would eliminate the accumulation and carryover of unreimbursed costs to subsequent cost reporting periods effective with cost reporting periods beginning on or after October 1, 1985. We would revise the nominal charge provisions for providers that furnish services either free of charge or at a nominal charge in accordance with section 2308(b) of P.L. 98-369. CFR Citation: 42 CFR 405.195; 42 CFR 405.196; 42 CFR 405.332; 42 CFR 405.334

Abstract: This final rule revises the way HCFA applies limitation of liability for certain noncovered furnished services. In order to reduce HCFA's payments for noncovered services, the decision to make or deny payment for noncovered inpatient hospital services will now be made after an analysis of the circumstances, without the use of a presumption as to whether the hospital did not know or could not be expected to know that furnished services were noncovered. In addition, this final rule implements section 145 of PL 97-248, which provides that a provider, practitioner, or supplier is deemed to have knowledge that payment cannot be made for noncovered furnished services if the entity had previously been notified by HCFA that a pattern of inappropriate utilization had occurred but has continued the practice after having a reasonable opportunity to correct the inappropriate utilization.

Legal Authority: 42 USC 1302; PL 98-369, Sec 2363 and 2368

CFR Citation: 42 CFR 440; 42 CFR 441; 42 CFR 456

Abstract: These rules would implement Sections 2363 and 2368 of the Deficit Reduction Act of 1984. The rules would make the requirements for physician certification and development of a plan of care (formerly utilization control requirements) State plan requirements. States would no longer be required to make the quarterly showings of compliance for those requirements or for utilization review. A quarterly demonstration to the Secretary of a satisfactory utilization control program would be limited to inspections of care in participating mental hospitals, skilled nursing facilities and intermediate care facilities, including intermediate care facilities for the mentally retarded. The purpose is to focus the quarterly showing (and the risk of a utilization control penalty) on inspection of care, the procedure that is most likely to ensure quality of care, by providing incentives for improvement of inadequate facilities.

692. HOSPICE "CORE" SERVICES; NURSING

Legal Authority: PL 98-369, Sec 2343

CFR Citation: 42 CFR 418.80; 42 CFR 418.83

Abstract: This regulation would implement provisions of PL 98-369, the Medicare and Medicaid Budget Reconciliation Amendments of 1984, relating to hospices contracting for "core services." PL 97-248, the Tax Equity and Fiscal Responsibility Act of 1982, authorized time limited Medicare Part A coverage for hospice services. The law specifies that a hospice must routinely provide the following "core services" directly: nursing care, medical social services, physician's services, and counseling services. This regulation would permit the Secretary to waive the nursing care "core services" requirement for hospices which are located in rural areas, which were in operation on or before January 1, 1983, and which have demonstrated a good faith effort to hire their own nurses.

695. PAYMENT FOR SERVICES OF PHYSICIANS IN TEACHING SETTINGS, AND REASONABLE COMPENSATION EQUIVALENT LIMITS FOR SERVICES FURNISHED BY PHYSICIANS TO PROVIDERS

Abstract: These regulations would implement provisions of P.L. 96-499 and P.L. 98-369. This legislation deals with certain problems that have arisen in the Medicare program with respect to payment for physicians who practice in the teaching setting. Specifically addressed by Congress is the problem distinguishing between the services a physician furnishes to individual patients as a teaching provider and services furnished to the provider, as well as the method of reimbursement for these services. This proposed rule sets forth the conditions under which physicians in teaching settings would be reimbursed on a reasonable cost basis or, alternatively, on a reasonable charge basis. It also describes the methods used to determine the customary charges for the services of those physicians. This rule would also delete a regulatory requirement that we publish reasonable compensation equivalent (RCE) limits for services furnished by physicians to providers annually. Updating these limits annually is no longer necessary due to recent Medicare program changes.

Significance: Agency Priority

Legal Authority: 42 USC 1302

CFR Citation: 42 CFR 435.135

Abstract: This revision to Medicaid rules provide that a State, in determining categorically needy financial eligibility for an individual who would still be eligible for benefits under SSI but for receipt of a section 215(i) cost of living increase after April 1977, must treat that individual as if he or she were still receiving SSI benefits. Section 215(i) cost of living increases are made to persons who receive monthly Social Security cash benefits. (This regulation is being developed pursuant to a court order.)

Section 2314 of P.L. 98-369 imposes new limitations on the valuation of assets acquired as the result of changes in ownership occurring on or after July 18, 1984. Abstract: Under current regulations, States are allowed to rebut their quarterly projected error rate with more recent MEQC data. However, this rebuttal process underestimates the true error rate. Therefore, we are considering a revision of the regulations to eliminate the rebuttal process. Further, amendments that we are proposing would clarify the basic operating MEQC program functions and modify other MEQC program elements. We also plan to revise the criteria under which States may make good faith waiver requests. Waiver requests submitted after final regulations are in place will be reviewed under the new criteria regardless of the error rate period for which the waiver is being requested. Waivers will not be permitted for periods for which waivers were requested under prior waiver criteria.

Significance: Regulatory Program

Legal Authority: 42 USC 1395u(b)(3)

CFR Citation: 42 CFR 405.509; 42 CFR 405.511

Abstract: The reasonable-charge method used to determine reimbursement for Part B services has been criticized as an inherently inflationary system because actual charges, which have continued to increase steadily over time, affect each subsequent year's reasonable charges. This proposed rule would establish an additional charge factor to be considered in determining reasonable charges for nonphysician services, supplies, and equipment that are reimbursed on a reasonable charge basis. This new factor would represent the reasonable charge from the preceding fee screen year plus an inflation adjustment factor. For fee screen years beginning on or after October 1, 1986, the inflation adjustment factor would be the annual change in the level of the consumer price index for urban consumers for the 12-month period ending on March 31. For the fee screen year beginning on October 1, 1985, the inflation adjustment factor would be zero.

CFR Citation: 42 CFR 405.1201 to 405.1230; 42 CFR 484; 42 CFR 485

Abstract: The sophistication of HHA service delivery has increased since 1973, the year of the last major HHA regulatory revisions. We are unsure whether current Federal requirements will ensure that HHAs are capable of furnishing quality services to program beneficiaries and that these HHAs will continue to remain as viable providers of health care. Therefore, proposed amendments would upgrade and strengthen selected home health agency requirements for this purpose.

Significance: Regulatory Program

Legal Authority: 42 USC 1396(b)(i)(1); 42 USC 1396a(a)(30)

CFR Citation: 45 CFR 19.1 to 19.6; 42 CFR 447.331 to 334

Abstract: A proposed rule is being developed which would revise the method for setting limits on Federal matching payments under Medicaid for drugs. Current reimbursement for prescription drugs is limited to the lowest of (1) the estimated acquisition cost plus a reasonable dispensing fee, (2) the usual and customary charge for the prescription, or (3) for certain drugs available from multiple sources, the maximum allowable cost plus a reasonable dispensing fee. The regulations have been reviewed to determine their effects.

Significance: Regulatory Program

Legal Authority: 42 USC 1302; 42 USC 1395rr(c)

CFR Citation: 42 CFR 405.2100 to 405.2171

Abstract: This proposal would revise regulations pertaining to the existing End Stage Renal Disease (ESRD) network organizations and expand the number of organizations eligible to be network organizations. These entities are designed to promote high quality care and efficient use of resources associated with kidney dialysis and transplantation services. Experience over the past few years, and the enactment of other legislation, has proven that the role of the councils can be adequately assumed by other organizations and that the current arrangement is not the most cost effective.

Significance: Regulatory Program

Legal Authority: 42 USC 1395x(v)(1); 42 USC 1395yy

CFR Citation: 42 CFR 405.452(a)

Abstract: An NPRM was published to amend the method we use to determine reasonable cost reimbursement for the costs of malpractice insurance incurred by hospitals and skilled nursing facilities (SNFs). We proposed to retain the claim-paid formula whereby a hospital or SNF would be reimbursed according to the ratio of its malpractice claims paid to all patients. A hospital or SNF with no malpractice claims-paid experience would be reimbursed on an amount equal to a national ratio of malpractice claims paid to Medicare patients compared to malpractice claims paid to all patients. In addition, we proposed to update the national ratio used to determine the amount payable to hospitals with no loss experience. After an analysis of public comments, a final rule will be developed.

Legal Authority: PL 98-369, Sec 2361; PL 98-369, Sec 2362

CFR Citation: 42 CFR 435.3; 42 CFR 435.115; 42 CFR 435.116; 42 CFR 435.117; 42 CFR 435.301; 42 CFR 436.2; 42 CFR 436.114; 42 CFR 436.120; 42 CFR 436.122

Abstract: These regulations would conform the Medicaid regulations to statutory changes made by the Deficit Reduction Act of 1984 by adding two mandatory eligibility groups of individuals: qualified pregnant women and children under age 5 and certain newborn children. States have been advised previously that the statute is self-implementing. Additionally, a manual instruction containing procedures for States to implement these requirements was issued to States. However, these regulations are necessary to conform the Medicaid regulations to statutory changes.

Abstract: This final rule responds to comments received on a final rule with comment period published January 10, 1985 (50 FR 1314). That rule authorized Medicare reimbursement for health services to eligible health maintenance organizations and competitive medical plans on a prospective basis for those entities that have a risk contract or on a reasonable cost basis for those that have a cost contract. The items open to comment were: (1) services by clinical psychologists in risk organizations, (2) direct payments to skilled nursing facilities, and (3) the establishment of benefit stabilization funds.

719. ● DETERMINATION OF REASONABLE CHARGES FOR PHYSICIAN AND OTHER MEDICAL SERVICES

Legal Authority: 42 USC 1395u; PL 98-369, Sec 2306

CFR Citation: 42 CFR 405.501; 42 CFR 405.504; 42 CFR 405.551

Abstract: Section 2306(b) of the Deficit Reduction Act provided that the customary and prevailing charge levels that are used to determine the Part B reasonable charge of physicians and suppliers are to be updated on October 1 instead of July 1 of each year. In addition, the updates are to be computed on the basis of charges made by physicians and other suppliers for services during the period April 1 to March 31, instead of during the calendar year period preceding the update. This rule would revise Medicare rules regarding updating of the reasonable charge levels. Accordingly, it also announces that the annual economic index that would have been used to determine the amount of any increase to prevailing charges for physicians' services between July 1983 July 1, 1984, is superseded because of provisions in section 2306 of the Deficit Reduction Act, which provided for a freeze on the prevailing charge update for July 1984.

Abstract: This proposed rule would revise regulations to reflect recent statutory provisions regarding HCFA's right to bring an action directly against certain third parties or to join or intervene in an action against a third party. It would also place certain requirements on hospitals regarding the identification and billing of potential Medicare secondary payor cases. Additionally, it would include requirements regarding timely refunds to Medicare when collections have been made from another insurer. The proposal would also clarify rules for Medicare payment for services furnished to an end-stage renal disease (ESRD) patient who is also covered under an employer group health plan. And, it would update policies pertaining to Medicare payment for services covered under a workers' compensation law or plan.

CFR Citation: 42 CFR 405.231(r); 42 CFR 405.232(b), (c); 42 CFR 405.310(e), (k)

Abstract: This proposed rule would implement section 2323 of P.L. 98-369 which provides Medicare coverage for hepatitis B vaccine for those individuals who are eligible for Medicare and at high or intermediate risk of contracting hepatitis B. It would implement section 2324 of P.L. 98-369 that provides coverage for the self-administration of hemophilia clotting factors and the items necessary for their administration to Medicare eligibles. The proposed rule would solicit public comments on our definition of those individuals who are at high or intermediate risk of contracting hepatitis B. The proposal would also clarify Medicare coverage of certain x-ray services.

723. ● REASONABLE CHARGE LIMITATIONS

Significance: Agency Priority

Legal Authority: 42 USC 1395u(b)(3)

CFR Citation: 42 CFR 405.502

Abstract: The standard method of determining the reasonable charge for a Part B service can, in some instances, result in payments that may not be reasonable. In order to ensure that Medicare payments are reasonable, special reasonable charge limits must be adopted. This proposed regulation would state the circumstances under which HCFA would consider establishing special reasonable charge payment limits for services reimbursed under Par B of the Medicare program, as well as the procedures it would follow in establishing them.

724. ● PROCESSING OF CLAIMS BY ELECTRONIC MEANS AS A CONDITION OF QUALIFICATION FOR THE PERIODIC INTERIM PAYMENT METHOD OF REIMBURSEMENT

Legal Authority: 42 USC 1395g

CFR Citation: 42 CFR 405.454

Abstract: The PIP method is an administrative device to reduce paperwork and alleviate cash flow problems experienced by providers. It permits payment of predetermined, standard amounts for furnished services that are not based on individual patient bills. Many providers currently on PIP continue to submit claims in hard-copy because there is no incentive to submit bills through electronic means. This proposed rule would require that providers submit claims for Medicare payment electronically to qualify for periodic interim payments. This requirement would increase the accuracy and efficiency of Medicare claims processing. The proposed rule would result in a significant reduction in administrative costs.

Significance: Agency Priority

Legal Authority: 42 USC 1302

CFR Citation: 42 CFR 405; 42 CFR 442

Abstract: The Court of Appeals for the Tenth Circuit ruled that the Secretary of HHS has a duty to establish an enforcement system which will adequately inform her, on a continuing basis, whether nursing homes receiving Federal Medicaid funds are actually providing high quality medical care. The primary proposal under consideration is nationwide implementation of the Patient Care and Services (PaCS) survey process. The PaCS survey would: provide continuing information on whether nursing homes are providing quality care; and, would be used as an enforcement mechanism to terminate participation of those facilities that do not maintain high quality care. This change would be implemented through the rulemaking process.

Department of Housing and Urban Development

Semiannual Regulatory Agenda

HUD

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

24 CFR Subtitles A and B

[Docket No. N-85-1547]

Semiannual Agenda of Regulations

AGENCY: Department of Housing and Urban Development.

ACTION: Semiannual agenda, under Executive Order 12291 and the Regulatory Flexibility Act, of regulations expected to be issued and under review.

SUMMARY: In accordance with section 5 of Executive Order 12291, "Federal Regulation," the Department is publishing its Agenda of proposed regulations already issued or expected to be issued, and of currently effective rules that are under review. Also, under section 602 of the Regulatory Flexibility Act, the Department has prepared a regulatory flexibility agenda of regulations expected to be proposed or promulgated which are likely to have a significant economic impact on a substantial number of small entities. As permitted by Executive Order 12291 and the Regulatory Flexibility Act, the two agendas are combined for publication.

FOR FURTHER INFORMATION CONTACT: Grady J. Norris, Assistant General Counsel for Regulations, Department of Housing and Urban Development, Room 10278, 451 7th Street, S.W., Washington, D.C. 20410, (202) 755-7055. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Executive Order 12291, "Federal Regulation," issued on February 17, 1981 (46 FR 13193), requires each agency to publish semiannually an agenda of regulations that the agency has issued or expects to issue and of currently effective regulations that are under agency review.

The Regulatory Flexibility Act, 5 U.S.C. 601-612, requires each agency to publish semiannually a regulatory flexibility agenda of rules expected to be proposed or promulgated which are likely to have a significant economic impact on a substantial number of "small entities," meaning small businesses, small organizations, or small governmental jurisdictions.

Executive Order 12291 and section 605 of the Regulatory Flexibility Act each permit incorporation of the agenda it requires with any other prescribed agenda. Accordingly, the agenda set out below combines the information required by the Executive Order and by the Regulatory Flexibility Act. In addition, the Agenda contains certain information not required by either the Executive Order or by the Act which the Department considers useful, both better to inform the public and to enhance the Department's own inventory control over its body of regulations.

For purposes of Executive Order 12291, "regulation" or "rule" is defined as "an agency statement of general applicability and future effect designed to implement, interpret, or prescribe law or policy or describing the procedure or practice requirements of an agency," subject to certain exceptions. The Agenda published below concentrates upon regulatory material contained, or expected to be contained, in the Code of Federal Regulations (CFR) (or incorporated therein by reference) following publication in the **Federal Register**. As appropriate, however, issuances in the nature of general statements of policy may be published in the **Federal Register** but not for codification in the CFR.

The Department also is subject to certain requirements involving congressional review of rulemaking actions, including publication of an agenda. Section 7(o) of the Department of Housing and Urban Development Act (42 U.S.C. 3535(o)) requires that the Secretary transmit to the congressional committees having jurisdictional oversight (the Senate Committee on Banking, Housing and Urban Affairs and the House Committee on Banking, Finance and Urban Affairs) a semiannual agenda of all rules or regulations which are under development or review by the Department. A rule appearing on the agenda cannot be published for comment before or during the first 15 calendar days of continuous session of Congress after transmittal of the agenda. If, within such period, either Committee notifies the Secretary that it intends to review any rule or regulation or portion thereof which appears on the agenda, the Secretary must submit to both Committees a copy of the rule or regulation, in the form it is intended to be proposed, at least 15 calendar days of continuous session before it is published for comment. The Semiannual Agenda appearing hereinafter is the agenda transmitted to the Committees in compliance with the foregoing requirement.

The agenda items are divided first by program office. Within each program office, the agenda items are divided into three groups: (i) Current and projected rulemakings, (ii) reviews of existing regulations, and (iii) completed or withdrawn regulations and completed reviews. Within each grouping, rules are listed in chronological order by the Part number of the CFR affected. Where a rule affects multiple parts of the CFR, the rule is listed by the first affected Part number. Rules which are designated "priority" include all regulations designated for priority development or review by the Department, all regulations that are "major rules" under section 1(b) of Executive Order 12291, and all regulations designated as significant in the Administration's Regulatory Program.

Under Executive Order 12291, a "major rule" means "any regulation that is likely to result in: (1) An annual effect on the economy of $100 million or more; (2) a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets."

Items listed in this Agenda are from the following Offices within the Department: Office of the Secretary; Office of Housing; Office of Public and Indian Housing; Office of Community Planning and Development; Office of Fair Housing and Equal Opportunity; Office of Administration; Government National Mortgage Association; and Office of the Inspector General.

DATED: August 27, 1985.

Stuart C. Sloame,

Acting Deputy General Counsel.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT (HUD) — Current and Projected Rulemakings

Office of the Secretary (HUDSEC)

748. ● STANDARDS OF CONDUCT (S-5-85; FR-2146)

Legal Authority: EO 11222; 18 USC 201 to 209

CFR Citation: 24 CFR 00

Abstract: This rule would revise and improve the Department's Standards of Conduct regulation. It would clarify the current rule and eliminate redundant and outdated material. In addition, it would conform the current rule to subsequently enacted statutes.

749. PROCEDURE FOR FLOODPLAIN MANAGEMENT AND THE PROTECTION OF WETLANDS. IMPLEMENTATION OF EXECUTIVE ORDERS 11988 AND 11990 (S-7-84; FR-865)

Significance: Regulatory Program

Legal Authority: EO 11988; EO 11990; 42 USC 3535(d)

CFR Citation: 24 CFR 55, (New)

Abstract: This regulation sets forth the policy, procedure and responsibilities of the Department of Housing and Urban

Development to implement and enforce Executive Order 11988, Floodplain Management, and Executive Order 11990, the Protection of Wetlands. This regulation replaces a general statement of Departmental policy (44 FR 47623; August 14, 1979) implementing these Executive Orders to specific HUD-assisted projects and through certain review procedures.

750. IMPLEMENTATION OF THE INTEREST PROVISIONS OF THE DEBT COLLECTION ACT OF 1982 (S-9-84; FR-2022)

Legal Authority: 42 USC 3535 (d); 31 USC 3711; 31 USC 3717

CFR Citation: 24 CFR 17; 24 CFR 200; 24 CFR 201; 24 CFR 203; 24 CFR 207; 24 CFR 202; 24 CFR 220; 24 CFR 232; 24 CFR 241; 24 CFR 250; 24 CFR 255

Abstract: This rule implements increased charges for late payments made to the government by debtors. Regulatory changes include the imposition of interest at a minimum Annual rate of interest on the outstanding debt which is equal to the average investment rate of the Treasury tax and loan accounts as determined by the Secretary of the Treasury; assessment of penalty charges of up to six percent for payments over 90 days late; and charges for the administrative costs of processing the late payment. The Department must issue a demand letter to the debtor which indicates when the payment is due and the date used to calculate the interest and penalty charges.

754. PROTECTION OF HUMAN SUBJECTS IN RESEARCH (S-6-83; FR-1807)

Legal Authority: Executive Order to be issued

CFR Citation: 24 CFR 46

Abstract: On response to a Presidential Commission, an Interagency Task Force on the Protection of Human Subjects in Research has proposed that all Federal agencies adopt a common policy and uniform regulations for the protection of human subjects in research.

HUD has agreed to adopt the policy and to issue a regulation based on a model previously promulgated by the Department of Health and Human Services on this subject, and as embodied in the planned Executive Order.

Timetable:

Action	Date	FR Cite
NPRM	00/00/00	

Small Entity: No

Additional Information: Compliance costs for HUD's adoption of the model regulation will be minimal, because almost all research conducted by HUD falls within categories exempted from the requirements of the model regulation. The infrequent projects that may not be exempt (perhaps one every two years) have in the past been proposed by organizations already subject to the Department of Health and Human Services regulation, and thus would not have any incremental compliance costs for the organization, other than the actual project requirements.

Costs would be slight.

Affected Sectors: Profit and Non-profit Research Organizations.

Levels of Government Affected: only HUD itself.

The Executive Order will be published for public comment and then promulgated with changes, if any, resulting from the public comment. Once the order is promulgated, agencies adopting the policy verbatim may move directly to the publishing of a final rule without a public comment process. HUD expects to follow this procedure.

755. DEPARTMENTAL POLICIES, RESPONSIBILITIES, AND PROCEDURES FOR PROTECTION AND ENHANCEMENT OF ENVIRONMENTAL QUALITY (S-4-85)

Legal Authority: 42 USC 4321; PL 95-557

CFR Citation: 24 CFR 50

Abstract: This amendment to 24 CFR Part 50 will establish regulatory procedures for determining exemptions from environmental review. The existing rule will be updated to reflect current policy with respect to the environmental review of 203(b) subdivisions and subdivisions approved by other agencies. This amendment will also address other clarifications that may seem necessary.

756. POLICIES FOR THE REQUIREMENT TO MAINTAIN FLOOD INSURANCE: IMPLEMENTATION OF SECTIONS 102(A) AND 202(A) OF THE FLOOD DISASTER PROTECTION ACT (S-3-85)

Significance: Agency Priority

Legal Authority: PL 93-234

CFR Citation: 24 CFR 56, (New)

Abstract: This regulation specifies how HUD will conduct its programs so as to comply with Sections 102(a) and 202(a) of the Flood Disaster Protection Act of 1973 relating to the requirement to maintain flood insurance. The rule is designed to provide improved policy guidance in response to HUD Secretary's directive, OMB Circular No. A-123, and inquiries from HUD field offices and program users.

757. ENVIRONMENTAL REVIEW PROCEDURES - RENTAL REHABILITATION AND HOUSING DEVELOPMENT GRANT PROGRAM (S-6-84; FR-1965)

Legal Authority: 42 USC 1437o(i); 42 USC 5304(f)

CFR Citation: 24 CFR 58

Abstract: Implements Section 17(i) of the Housing and Urban-Rural Recovery Act of 1983 which makes the award and use of resources under the Housing Development Grant and Rental Rehabilitation Programs subject to the statutory provisions governing environmental review that apply to the Community Development Grant Programs. The rule also implements Section 17(i) by creating a special procedure for considering program effects on property that is included, or eligible to be included, on the National Register of Historic Places.

758. SECONDARY MARKET OPERATIONS OF THE FEDERAL NATIONAL MORTGAGE ASSOCIATION (FNMA) (S-3-81)

Legal Authority: 12 USC 1723a; 42 USC 3535(d)

CFR Citation: 24 CFR 81.41(b); 24 CFR 81.45(b)

Abstract: This rule would amend the definition of "FNMA security" at 24 CFR 81.41(b) to delete the exclusionary parenthetical and repeal the provision in 24 CFR 81.45(b) which allows FNMA debentures in book-entry form only.

759. REVIEW OF APPLICATIONS FOR HOUSING ASSISTANCE AND ALLOCATION HOUSING ASSISTANCE FUNDS (S-10-84; FR-1896)

Significance: Regulatory Program

Legal Authority: 42 USC 1439

CFR Citation: 24 CFR 791

Abstract: The rule revises HUD's regulations for the allocation of housing assistance funds to conform with statutory changes made by the Housing and Urban-Rural Recovery Act of 1983. It contains a more explicit description of the allocation formula; specifies that the formula is applicable only to funds the first time they are available for reservation; deletes specific requirements on allocating funds in accordance with approved Housing Assistance Plans; and eliminates the requirements for local consultation in the allocation process.

Legal Authority: 42 USC 3535(d)

CFR Citation: Not yet determined

Abstract: The Department is considering amending its regulations on the role of the Office of Small and Disadvantaged Business Utilization (OSDBU) in the procurement process. The 1978 Amendments to the Small Business Act of 1958 identify responsibilities of the OSDBU to establish goals for the participation by small business concerns and small business concerns controlled by socially and economically disadvantaged individuals in HUD procurement.

762. ● SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM - HOUSING VOUCHERS (H-42-85)

Legal Authority: 42 USC 3535(d)

CFR Citation: Not yet determined

Abstract: The Department has proposed legislation to make the Housing Vouchers Demonstration Program a permanent housing assistance payment program. If such legislation is adopted, the Department will publish a rule consistent with the Housing Voucher notice of Funding Availability published as May 8, 1985. The Housing Voucher Program would become a major vehicle for future funding of assistance payments under section 8 of the U.S. Housing Act of 1937. Housing Vouchers are cost-effective and provide a wider choice of housing to the assisted family.

Significance: Regulatory Program

Legal Authority: 42 USC 4801

CFR Citation: 24 CFR 35

Abstract: Would develop regulations consistent with the Lead-Based Paint Poisoning Prevention Act. Alternatives to address the problem are being developed at this time. The potential cost is estimated to exceed $100 million per year. This action would benefit children susceptible to lead-based paint poisoning and would avoid cost of medical treatment and reduce the occurrence of mental retardation traced to lead-base paint.

Abstract: This rule would implement HUD's responsibilities under the Flood Disaster Protection Act of 1973. It would add a new Part 56 to specify HUD's responsibilities to require that flood insurance be obtained for eligible properties. This part would then be cross-referenced in the rules governing programs involving mortgage insurance and housing assistance grants.

Legal Authority: 12 USC 1701

CFR Citation: 24 CFR 200.925; 24 CFR 203.43f

Abstract: Would insure financing of properties with manufactured homes under Title II of the National Housing Act, as a means to broaden affordable home ownership opportunities. To qualify for such financing, the manufactured homes, foundations and sites must meet prescribed standards to insure adequate security for HUD-insured mortgages. By such action homeowners can expect reduced housing cost without sacrificing housing quality or durability.

Legal Authority: 12 USC 1709

CFR Citation: 24 CFR 203.43c; 24 CFR 203.437

Abstract: Would relax some restrictions which have unnecessarily inhibited activity under the program. The rule would delete the requirement that corporations waive the right of first refusal and it would eliminate the limitation of the mortgage term on an individual share to the term remaining on the blanket mortgage. The 1983 statute extends the availability of mortgage insurance in existing conventionally financed cooperatives provided construction has been completed one year. The statute removed the requirement that the cooperative have an insured blanket mortgage.

Legal Authority: 12 USC 1715b; 42 USC 3535(d)

CFR Citation: 24 CFR 203.42(a)

Abstract: This proposed rule would amend 24 CFR 203.42(a). The current rule prohibits the insuring of a mortgage on property on which there is a dwelling to be rented by a mortgagor, if

the property is part of, or contiguous to, a subdivision or group of similar properties and if the mortgagor has a financial interest in eight or more of the contiguous properties. This rulemaking would modify this rental property mortgage restriction, thereby enabling investors to more freely apply for FHA mortgage insurance to purchase one-to-four family rental units.

Significance: Regulatory Program

Legal Authority: 12 USC 1715z

CFR Citation: 24 CFR 203; 24 CFR 221; 24 CFR 234

792. RETENTION PERIOD FOR MORTGAGEE SINGLE FAMILY CLAIM RECORDS (H-81-84)

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 203

Abstract: Under the new Single Family Claims System, the mortgagee is not required to provide documentation to support the fiscal data reported or entered on the new claim form. Instead, the mortgagee will be randomly audited; at which time, the mortgagee is expected to produce all the supporting receipts, payment ledger records, etc.

We plan to change the regulations to specify the retention period and file contents for records supporting single family claim payments and mortgage reviews.

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 203

Abstract: Due to the costs of processing single family to both HUD and the mortgagee, we propose a regulation change which will set a limit of $50 or less on the amount of refund HUD will expect from the mortgagee; and the amount of claim the mortgagee will file with HUD.

794. PENALTY FOR LACK OF DOCUMENTATION (H-80-84)

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 203

Abstract: The new single family process provides for "random audits" of mortgagees' records which file S/F claims with HUD for insurance benefits. During the audit, the mortgagee will be required to provide specific supporting documentation. When the mortgagee cannot produce the required documentation, HUD will penalize the mortgagee for the amount not supported plus the current interest rate on that unsupported amount from the date of payment.

795. USE OF COMMITMENT CORRESPONDENTS IN CONNECTION WITH FHA MORTGAGE INSURANCE (H-60-84;FR-1954)

Significance: Regulatory Program

Legal Authority: 12 USC 1709(a)

CFR Citation: 24 CFR 200; 24 CFR 203

Abstract: This proposed rule would create a new category of approved program participants to be known as commitment correspondents in the FHA single family mortgage insurance programs. Commitment correspondents would be authorized, on behalf of approved mortgagees, to accept and process FHA loan applications, obtain commitments from HUD, and assign these commitments to approved mortgagees.

Legal Authority: 12 USC 1709; 12 USC 1715b

CFR Citation: 24 CFR 203.33

Abstract: To be more consistent with the underwriting practices of conventional mortgage lenders, this rule would substitute gross income for net income for purposes of HUD's determinations on the adequacy and stability of a mortgagor's income for FHA mortgage insurance. Significance: Agency Priority

Legal Authority: 12 USC 1713; 12 USC 1715e

CFR Citation: 24 CFR 207; 24 CFR 213

Abstract: The rule will permit unsubsidized multifamily rental housing projects with Secretary-held mortgages to be converted to cooperatives by subordinating the Secretary-held mortgage to a new first mortgage. The rule would benefit tenants by giving them the opportunity for cooperative homeownership at a lower cost. The government would benefit by sharing half of the equity appreciation received by the project owner in selling the project to a Cooperative.

Abstract: This rule will make the cited sections consistent with Section 221 which already contains this provision. The prepayment limitation to the mortgage insurance regulations was added due to the increased use of tax-exempt bonds as a financing mechanism. Bond purchases typically demand a ten-year period during which the bonds cannot be called except in extraordinary circumstances such as an FHA insurance claim.

Legal Authority: 12 USC 1713; 43 USC 3535(d)

CFR Citation: 24 CFR 207.261

Abstract: The proposed rule would amend 24 CFR 207.261 to permit a mortgagee to sell or syndicate the entire or any portion of its beneficial interest in an insured multifamily mortgage or pool of multifamily mortgages without prior HUD consent if certain conditions are met. These conditions would maintain the rights, benefits, and obligations of all parties potentially affected by an assignment of insured mortgages.

Significance: Agency Priority

Legal Authority: PL 98-181

CFR Citation: 24 CFR 207; 24 CFR 220; 24 CFR 221

Abstract: This proposed rule would implement a recent statutory amendment granting the Secretary discretion to regulate rents, among other things, in unsubsidized multifamily projects with mortgages insured pursuant to section 207 of the National Housing Act after 11/30/83. Before this amendment, the statute mandated that the Secretary regulate rents in those projects. Prepayment will not be approved unless project is no longer needed for lower income housing, tenants have been given notice and opportunity to comment, and a relocation assistance plan has been put in place. Similar restrictions will apply to termination of insurance. Legal Authority: 12 USC 1715z-7; 12 USC 1715n; 42 USC 3535(d)

CFR Citation: 24 CFR 242

Abstract: Hospitals have been eligible for mortgage insurance under Section 242 of the National Housing Act since 1968. If appropriate regulations are published, hospitals previously insured under Section 242 could refinance their mortgages up to the original amount of the mortgage provided there was no increase in the debt service. This provision would be of particular assistance to hospitals which were insured at a high interest rate and could reduce their debt service by refinancing at a lower rate.

Abstract: Implements the Housing Development Grant Program established by Section 301 of the Housing and Urban-Rural Recovery Act of 1983. Under this Program, the Secretary is authorized to make grants to cities and urban counties and to States acting on behalf of units of general local government to support new construction or substantial rehabilitation of residential rental housing. At least 20 percent of the units in a project assisted under this Program must be leased to, or made available for occupancy by, lower income families for a period of 20 years. The rent for these units cannot exceed 30 percent of the adjusted income of a family at 50 percent of area median income. Assisted projects must be located within eligible areas, special purpose areas or neighborhood preservation areas.

860. REAL ESTATE SETTLEMENT PROCEDURES ACT -- CONTROLLED BUSINESS PROVISIONS AND MISCELLANEOUS CHANGES (H-45-84; FR-1942)

Significance: Regulatory Program

Legal Authority: 12 USC 2601

CFR Citation: 24 CFR 3500

Abstract: The rule will implement statutory amendments established by Section 461 of the Housing and Urban Rural Recovery Act of 1983 (Pub.L.98-181). The amendments address a problem identified as "controlled business" and the manner in which Section 8 of the Real Estate Settlement Procedures Act (12 USC 2607), the kickback prohibition of RESPA is to be applied to such arrangements. No alternatives are being considered because of the statutory mandate. The potential costs cannot be accurately projected but are believed to be incidental. The rule will also contain other miscellaneous changes to clarify and update the existing rule.

ACTIONS THAT STARTED AND ENDED BETWEEN ISSUES OF THE UNIFIED AGENDA

906. ● DELAYED IMPLEMENTATION OF INCOME DEFINITIONS FOR THE SECTION 8 HOUSING ASSISTANCE PAYMENTS RENT SUPPLEMENT AND SECTION 236 PROGRAMS (H-36-85; FR-2083)

Legal Authority: 42 USC 1437a; 12 USC 1715z-1; 12 USC 1701s; 42 USC 1437c; 42 USC 1437f; 42 USC 1437n

CFR Citation: 24 CFR 813; 24 CFR 236; 24 CFR 215

Abstract: This rule delayed the date on which new definitions of Annual Income and Adjusted Income must be used for applicants and tenants in these programs from October 1, 1984 to August 1, 1985 because earlier implementation was impracticable. It required a tenant to be given the benefit of the new definitions back to October 1, 1984, if they produce a benefit for the tenant.

Significance: Agency Priority

Legal Authority: 42 USC 4321; PL 95-557

CFR Citation: 24 CFR 50

Abstract: This final rule will replace an interim rule published on December 15, 1982 (47 FR 56266). The rule provides policies and procedures for HUD consideration of environmental factors in decision-making under HUD programs (except the Community Development Block Grant Program). The rule implements the National Environmental Policy Act (NEPA) and several specific environmental laws and authorities. The rule reflects a number of elements of the December 1982 interim rule to reduce the regulatory burden and procedural details resulting from two years of field experience. Changes have also been made to reflect field office reorganization and requirements mandated by the passage of the Housing and Urban-Rural Recovery Act of 1983.

Significance: Agency Priority

Legal Authority: 42 USC 5301; PL 97-35; 42 USC 4321; 42 USC 1437

CFR Citation: 24 CFR 58

Abstract: The final rule provides policies and procedures by which assisted communities and participating states discharge Federal environmental review responsibilities. The final rule also streamlines and reduces the environmental requirements. Such actions include: (1) an expanded listing of block grant activities and projects exempt or categorically excluded from the NEPA requirements; (2) the definitive list of related statutes and authorities that must be observed by grant recipients for the release of block grant funds as required by the HUD legislation; and (3) the further provisions needed to conform with and implement innovative measures of the HUD Amendments of 1981 such as the new state-administered block grant program for small cities and the assumption of the environmental oversight responsibilities by such states.

910. ● SECTION 312 REHABILITATION LOAN PROGRAM: RELOCATION/DISPLACEMENT (CPD-4-85)

Legal Authority: 42 USC 1425b

CFR Citation: 24 CFR 510.52

Abstract: The rule will revise the relocation/displacement requirements at 24 CFR 510.52 of the Section 312 Rehabilitation Loan Program that are applicable when a tenant is displaced by Section 312 rehabilitation. The current rule (effective May 12, 1980) requires that relocation assistance be provided to tenants at levels similar to those provided under HUD regulations at 24 CFR Part 42 which implement the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Uniform Act), as modified by Section 510.52. On May 28, 1985 (50 FR 8990), the Department proposed a comprehensive revision of its Uniform Act regulations. When a final Uniform Act rule is effective, the current rule at 24 CFR 510.52 will be obsolete. The Department is proposing to adopt under the Section 312 program relocation requirements similar to those to be established under the Community Development Block Grant Program to protect persons displaced by activities that are not subject to the Uniform Act. The proposed changes would simplify the current requirements under other HUD-assisted activities not subject to the Uniform Act.

Significance: Regulatory Program

Legal Authority: 42 USC 1437o; 42 USC 3535(d)

CFR Citation: 24 CFR 511

Abstract: This rule implements the Rental Rehabilitation Program authorized by section 17 of the U.S. Housing Act of 1937. The regulation (1) sets out a variety of program and other requirements to be met by grantees, State recipients and others that use or benefit from rental rehabilitation grants amounts, (2) enumerates the requirements for participating in the Rental Rehabilitation Program, (3) sets forth the formula by which allocations of rental rehabilitation grant amounts will be made to eligible grantees, (4) explains the rental housing assistance available for tenants, (5) enumerates administrative requirements for the Program, and (6) explains how HUD will review program performance.

Significance: Regulatory Program

Legal Authority: PL 98-181

CFR Citation: 24 CFR 511.32

Abstract: This rule sets forth the performance adjustment standards for the Rental Rehabilitation Program. Beginning with Fiscal Year 1987, the Secretary of HUD may adjust the allocation for a city, urban county, consortia, or State administering a rental rehabilitation program by up to 15 percent above or below the amount of its annual allocation based on an annual review of performance in carrying out the performance adjustment standards established in HUD legislation enacted in 1983 and this rule.

Legal Authority: 42 USC 5301; 42 USC 3535 (d)

CFR Citation: 24 CFR 571.702 (b); 24 CFR 571.302(a)

Abstract: This rule would amend the corrective and remedial action to be taken against grant recipients who fail to perform properly. One of the actions to be taken is to require recipients to reimburse their program account of Letter of Credit in any amounts improperly expended. This amendment would allow the recipient to make such reimbursement through an in-kind contribution if sufficient cash is not available. In addition, it would allow alternative, non-cash transfer remedies to prevent a recurrence of the previous problems.

932. ● BOOK-ENTRY SECURITIES OF GNMA (GNMA-2-85)

Significance: Agency Priority

Legal Authority: 12 USC 1701

CFR Citation: 24 CFR 203

Abstract: The regulation will provide for utilization of a book-entry system to govern the issuance and custody of GNMA securities. The system allows for maintenance of records by an Agent Bank and utilization of wire transfers. Further, the book-entry system will curtail loss, theft and repeated pledging of GNMA securities.

933. ● MORTGAGE-BACKED SECURITIES - REVISION TO DATE FOR FIRST MONTHLY PAYMENT TO PRINCIPAL AND INTEREST (GNMA-1-85; FR-2135)

Legal Authority: 12 USC 1719

CFR Citation: 24 CFR 0390

Abstract: This rule would make a technical change in 24 CFR 390.7 to accommodate the new automated system for handling the issuance of commitments to guarantee mortgage-backed securities. The current rule requires that mortgages in a pool of mortgages backing the issuance of guaranteed securities have a date for the first scheduled monthly payment of principal and interest, or date of purchase from an Association that is no more than twelve months before the date of issuance of the GNMA commitment. This rule would revise this requirement to provide that the date for the first scheduled monthly payment of principal and interest could be no more than 24 months before the issue date of the securities.

Significance: Regulatory Program

Legal Authority: 42 USC 1437; 42 USC 3535(d)

CFR Citation: 24 CFR 990

Abstract: This rule establishes new conditions under which a Public Housing Agency may use a Projected Occupancy Percentage of less than 97% in computing its per-unit Operating Income Level under the Performance Funding System. A PHA that is defined as a low occupancy PHA is required to have a HUD-approved Comprehensive Plan which sets out strategies for increasing its occupancy rate to 97%. A low occupancy PHA with such a Plan may use its yearly, PHA-wide occupancy goal, rather than 97% to compute its Operating Income Level. A PHA with a high occupancy rate (equal to or greater than 97%) may use 97% as its Projected Occupancy Percentage in computing its per-unit Operating Income Level. These changes enable a PHA to maximize its total income by reducing its vacancies.

Semiannual Agenda of Rules Scheduled for Review or Development

AGENCY: Department of the Interior.

ACTION: Semiannual agenda of rules scheduled for review or development.

SUMMARY: This notice provides the semiannual agenda of rules scheduled for review or development between October 1985 and April 1986. A semiannual agenda is required by the Regulatory Flexibility Act and Executive Order 12291.

ADDRESS: Unless otherwise indicated, all Agency Contacts are located at the Department of the Interior, 18th and C Streets, N.W., Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT: All comments and inquiries with regard to these rules should be directed to the appropriate Agency Contact. General comments or inquiries relating to the agenda should be directed to the Division of Directives and Regulatory Management, Office of Information Resources Management, Department of the Interior, at the address above or on 202-343-6191.

SUPPLEMENTARY INFORMATION: With this publication the Department satisfies the requirement of Executive Order 12291 that the Department publish in April and October of each year an agenda of rules that have been issued or are expected to be issued, and currently effective rules that are scheduled for review. Simultaneously the Department meets the requirement of the Regulatory Flexibility Act that an agenda be published in April and October of each year identifying rules which will have significant economic effects on a substantial number of small entities; those rules which will have such effects are specifically identified in the agenda. This incorporation of agendas is expressly allowed by Executive Order 12291.

DATED: August 23, 1985.

Joseph E. Doddridge, Jr.,

Deputy Assistant Secretary of the Interior.

1005. NORTHWEST STEELHEAD AND SALMON CONSERVATION AND ENHANCEMENT GRANTS

Legal Authority: 16 USC 3301 to 3325; PL 96-561

CFR Citation: Not yet determined

Abstract: The Secretary of the Interior is authorized under PL 96-561 to establish a program to provide grants for projects for the enhancement of the salmon and steelhead resources of the Washington and Columbia River conservation areas. The Act authorizes $84,000,000 for salmon and steelhead enhancement in the two conservation areas. Comprehensive enhancement plans for the Washington and Columbia River conservation areas must be developed and agreed to by the States of Washington and Oregon and the treaty tribes, and approved by the Secretary before grants can be provided. Rules will be promulgated to administer the grant program.

1009. IMPORTATION, EXPORTATION, AND TRANSPORTATION OF WILDLIFE

Legal Authority: 16 USC 3376(a)(2)

CFR Citation: 50 CFR 14

Abstract: The Service would amend the requirements for marking and labeling containers or packages containing fish or wildlife in a joint rulemaking with the Department of Commerce. The Lacey Act Amendments of 1981 make it unlawful to import, export, or transport in interstate commerce any containers or packages containing fish or wildlife that are not marked or labeled in accordance with regulations jointly issued by the Secretaries of the Interior and of Commerce. Such regulations will be in accordance with existing commercial practices.

1010. ENDANGERED AND THREATENED WILDLIFE AND PLANTS

Legal Authority: 16 USC 1531 to 1543

CFR Citation: 50 CFR 17

Abstract: Regulations will be developed which would list, reclassify, or delist, as appropriate, certain species of fish, wildlife, and plants under the Endangered Species Act, and where prudent, would identify critical habitat for endangered and threatened species. Such actions are taken upon determination that species are endangered, threatened, or neither and are based solely on the biological information available to the Department.

1017. ● ENDANGERED AND THREATENED WILDLIFE AND PLANTS

Legal Authority: 16 USC 1531 to 1543

CFR Citation: 50 CFR 17

Abstract: Regulations will be developed which would list, reclassify, or delist, as appropriate, certain species of fish, wildlife and plants under the Endangered Species Act, and where prudent would identify critical habitat for endangered and threatened species. Such actions are taken upon determination that species are endangered, threatened, or neither and are based solely on the biological information available to the Department.

1018. MARINE MAMMALS

Legal Authority: 16 USC 1382(a)

CFR Citation: 50 CFR 18

Abstract: The Service will propose rules that would require the marking, tagging, or otherwise identifying of raw parts of certain lawfully taken marine mammals, including those taken by Alaska Natives for purposes of subsistence or the creation and selling of authentic native articles of handicrafts and clothing. Except for scientific research purposes, the rules would also prohibit exportation of raw parts of these marine mammals from Alaska and the sale of such parts, other than those that are edible, to persons other than resident Alaska Natives. These rules are necessary for management purposes.

Originally scheduled: April 1985. E.O. 12291: These rules are major because of the economic values associated with migratory game bird hunting; however, the need to obtain and consider the latest population data for these migratory birds requires that the regulatory schedule be shortened. The regulatory impact analysis, as required by E.O. 12291, and the small entity flexibility analysis, as required by 5 U.S.C. 601 et seq., have been combined into one analysis as provided for by both authorities. Significance: Regulatory Program

Legal Authority: 16 USC 701 to 718

CFR Citation: 50 CFR 20

Abstract: The Service, in coordination with the States, identifies areas of migratory bird hunting where the use of conventional lead shotshells results in lead poisoning of such birds and other wildlife. Legal Authority: 16 USC 668(dd) National Wildlife Refuge System Admin Act

CFR Citation: 50 CFR 29.32, (Revision)

Abstract: Existing regulations will be revised to provide more comprehensive guidance on the procedures to be followed by persons conducting mineral exploration and/or development on National Wildlife Refuge System (NWRS) lands where the mineral rights are vested in other parties. Such operations were conducted on 47 NWRS units in 11 states during 1984. The purpose of the new rule will be to protect NWRS resources to the maximum extent possible without infringing upon the rights of the subsurface owners. Similar regulations of the National Park Service (36 CFR 9.30) and the Forest Service (36 CFR 251.15) will be considered in developing the NWRS regulations.

COMPLETED RULEMAKINGS

1034. GENERAL PROVISIONS: DEFINITIONS

Legal Authority: 16 USC 704; 16 USC 712

CFR Citation: 50 CFR 10, Subpart B

Abstract: The list of migratory birds found at 50 CFR 10.13 would be amended by adding formerly unprotected species which are covered by the convention concluded with the Union of Soviet Socialist Republics for conservation of migratory birds and their environment. Also, the laughing gull, which was inadvertently omitted when the list was last revised, would be restored. Several species of birds belonging to groups protected under conventions concluded with Canada and Mexico have recently been found in the United States and would also be added to the list. The Mexican duck, which is no longer found in the United States, would be deleted from the list; Mexican-like ducks which are found in the Southwestern United States would continue to be protected as hybrids of the mallard, a migratory bird.

1039. ENDANGERED AND THREATENED WILDLIFE AND PLANTS

Legal Authority: 16 USC 1531 to 1543

CFR Citation: 50 CFR 17

Abstract: 50 CFR 17.21(g), Captive-bred Wildlife, provides regulatory relief for activities that enhance the propagation or survival of living, captive-bred, exotic species listed as endangered and born in the U.S. There is also a provision by which certain specifically situated native species may be eligible. The Service recognizes that a number of native species that do not presently qualify for the benefits of this regulation are specifically situated such that their continued survival would be enhanced by being qualified; therefore, the Service will propose to establish criteria by which species are to be so qualified.

1040. CRITERIA FOR DETERMINATIONS OF ADVERSE IMPACT UNDER SECTION 165(D)(2)(C)(II) AND (III) OF THE CLEAN AIR ACT

Significance: Regulatory Program

Legal Authority: 42 USC 7475(d)

CFR Citation: Not yet determined

Abstract: Under the Clean Air Act, the Department of the Interior, as Federal Land Manager, has the affirmative responsibility to protect the air quality related values of its class 1 areas and to consider whether proposed new major sources of air pollution will have an adverse impact on these values. The Department has developed and applied "working" criteria for making adverse impact determinations in several cases since 1982. Both industry and environmental groups have commented on the "working" criteria and requested further rulemaking action on the criteria. In response to these requests, this rulemaking action would solicit public input on the working definitions as well as related technical and legal issues.

The Notice of Intent will ask several questions. The answers to these questions will be useful in determining alternatives and potential costs and benefits.

1046. ZION NATIONAL PARK: TRUCKING

Legal Authority: 16 USC 3

CFR Citation: 36 CFR 7

Abstract: The Service is proposing to review existing trucking regulations for Zion National Park. These rules will adjust times, conditions and costs for truck convoys on the Zion-Mt. Carmel tunnel road to accommodate the safe use of park roads by visitors and to recover the costs of convoy services. The alternative to this rule is to leave existing provisions in place with no cost recovery and continuing public safety problems.

1086. CONCESSIONER CHILD LABOR

Legal Authority: 16 USC 3

CFR Citation: 36 CFR 8.4

Abstract: It is proposed to amend 36 CFR by deleting Section 8.4, Child Labor, which prohibits a person under 16 years of age to be employed by a concessioner. This action will allow National Park Service concessioners to employ minors in accordance with Federal or State labor laws applicable in the state of employment. This action is without cost to any party but will benefit children and concessioners by permitting concessioners to employ children between the ages of 14 and 16. It will benefit parents working for a concessioner by enabling the concessioner to employ their children under the age of 16 who otherwise may be unemployed or would need to be transported to a place of working outside a national park area, sometimes a considerable distance. The only other alternatives are to delete only the first sentence of Subsection 8.4 or leave the current regulation as is.

1087. MANAGEMENT OF MINING CLAIM ACTIVITIES

Legal Authority: 16 USC 1901 et seq Mining In The Parks Act of 1976; 16 USC 1 et seq NPS Organic Act; 30 USC 21 et seq Mining Law of 1872

CFR Citation: 36 CFR 9, Subpart A

Abstract: As mandated by the "Mining In The Parks Act of 1976", the NPS promulgated its existing regulations to assure that operations on valid mining claims within units of the National Park System are conducted so as to prevent or minimize damage to park resources. The experience gained by the application of these regulations over the past six years indicates that certain adjustments are now necessary to clarify and simplify the existing regulatory language and to improve the management of mineral resources within NPS units. Specifically, several sections of the current regulations either have proven difficult to interpret or pertain to a surface disturbance

moratorium that expired in 1980 thus rendering them obsolete.

1088. ● MINERALS MANAGEMENT NONFEDERAL OIL AND GAS RIGHTS

Significance: Agency Priority

Legal Authority: 16 USC 1 et seq; 31 USC 9701; 5 USC 301

CFR Citation: 36 CFR 9B

Abstract: Several sections of the regulations were ambiguously written which has caused confusion in interpreting the existing regulations during site specific implementation. NPS wants to make technical revisions to clarify requirements for both applicants and the NPS, such as: updating terms for consistency with existing policies and practices; setting bond limits consistent with existing reclamation costs; allowing NPS to collect administrative fees for issuing permits consistent with cost reimbursement requirements of Congressional and Executive direction; clarifying compliance issues associated with different access conditions; and, allowing for the submission of information pertinent to phased and complete operational scenarios.

These are technical revisions to the regulations governing non-federal oil and gas activities within affected units of the National Park System. The existing authorities are 16 U.S.C. 1, et seq. and 31 U.S.C. 9701, 5 U.S.C. 301; and enabling legislation of the affected units.

1094. IDENTIFICATION OF INTEGRAL VISTAS ASSOCIATED WITH FEDERAL CLASS I AREAS

Significance: Agency Priority

Legal Authority: 42 USC 7491; 16 USC 1 et seq National Park Service Organic Act

CFR Citation: 36 CFR 16, (New)

Abstract: This rule will provide guidelines for identification of integral vistas and a list of integral vistas associated with 43 of the 48 National Park Service mandatory class I areas where visibility is an important value. The alternatives under consideration include (a) no action and (b) proposal of revised list of integral vistas. Upon completion, the RIA will discuss costs and benefits of the rule. Cost-benefit analysis is difficult, however, and speculative at best, since the rule merely identifies the integral vistas, but commits the decision on whether and how much to protect any particular vista to the permitting authority (usually the state, otherwise EPA). In other words, once an integral vista is properly and timely identified, the permitting authority must balance its protection against costs of compliance, the time necessary for compliance, the energy and nonair quality environmental impacts of compliance, and the remaining useful life of any existing source, subject to such requirements.

1097. ● NATIONAL CAPITAL PARKS REGULATIONS; LAFAYETTE PARK; STRUCTURE PROHIBITIONS; SIGN LIMITATIONS

Significance: Agency Priority

Legal Authority: 16 USC 3

CFR Citation: 36 CFR 50.19

Abstract: The rule would prohibit structures, with certain exceptions, and limit the number and size of signs placed or set down in Lafayette Park. The rule is being promulgated in response to citizen complaints concerning the continually worsening visual blight in the Park, and in response to safety and resource protection concerns. Large numbers of signs and structures now present in Lafayette Park have contributed to the steady deterioration of this historic and well manicured "garden park". In addition to the visual blight created by these objects, substantive damage to the Park results from the placement and support of large signs and structures. Finally, poorly constructed signs and structures create constant safety hazards in the Park. Many less restrictive alternatives were considered but found to be inadequate to meet the substantial government interests present here. The rule should have minimal potential costs, the only costs anticipated being possible increased law enforcement costs. The benefits to Lafayette Park and the public are substantial in that increased aesthetic quality, safety and resource protection benefit all citizens.

1099. ● NATIONAL NATURAL LANDMARKS

Legal Authority: Historic Sites Act of 1935

CFR Citation: 36 CFR 62.5

Abstract: Revision to the National Natural Landmarks Program national significance criteria is proposed to clarify the language and sharpen the definition. Revised criteria will better enable the National Park Service to make precise decisions about additions to the National Registry of Natural Landmarks, as well as better communicate the concept of national significance to the public. The alternative to this proposed action is to leave the present regulation 36 CFR 62.5 as it is. There are no perceived costs associated with this proposed rule revision.

1100. DETERMINATION OF ELIGIBILITY FOR INCLUSION IN THE NATIONAL REGISTER OF HISTORIC PLACES

Legal Authority: 16 USC 470 et seq

CFR Citation: 36 CFR 63

Abstract: This rule incorporates certain revisions responding to the National Historic Preservation Act Amendments of 1980. In addition to responding to the new law, these changes update and revise in other minor respects the procedures for determining the eligibility of properties for the National Register. This rule will be consolidated with 36 CFR Part 60. Proposed rule (36 CFR Part 1204) was published May 23, 1980 (45 FR 34909).

1102. CURATION OF FEDERALLY-OWNED ARCHEOLOGICAL COLLECTIONS

Legal Authority: 16 USC 470a; 16 USC 470dd

CFR Citation: 36 CFR 79

Abstract: This rule fulfills the Secretary of the Interior's responsibility to issue regulations on the disposition, exchange and curation of federally-owned prehistoric and historic archeological artifacts and associated records recovered under the Antiquities Act of 1906, the Reservoir Salvage Act of 1960 (as amended by the Archeological and Historic Preservation Act of 1974), the National Historic Preservation Act of 1966 (as amended) and the Archaeological Resources Protection Act of 1979. The regulation will describe Federal agency responsibilities to preserve federally-owned archeological collections and provide guidance for Federal agencies to select appropriate repositories and to ensure that appropriate Indian tribes or individuals are notified concerning the disposition of materials recovered from Indian lands.

Legal Authority: PL 88-578; 16 USC 2501; PL 95-625

CFR Citation: 43 CFR 59; 43 CFR 72

Abstract: The purpose of this regulation is to incorporate program requirements pertaining to the conversion of assisted recreation sites and facilities to non-public recreation uses, and to incorporate requirements regarding residency status of users of assisted sites into the Code of Federal Regulations. This proposal contains only those policies and procedures which are already operative and will not have an impact on the current operation and administration of both programs. Although not included in this publication, recipients of L&WCF and UPARR assistance should be aware that existing laws, regulations and program policy regarding post-completion compliance with Title VI of the Civil Rights Act of 1964, and Section 504 of the Rehabilitation Act of 1973 remain requirements of these programs and will continue to be fully enforced. All post-completion compliance requirements of both programs will remain in force regardless of the program's funding and authorization status at any given point.

CFR Citation: 48 CFR 1489; 48 CFR 1452.289; 48 CFR 1453.2; 48 CFR 1453.3

Abstract: The proposed regulation would establish Bureau-specific solicitation provisions, contract clauses and prescriptions for their use. These are necessary to supplement and implement the Federal Acquisition Regulation and the Department of the Interior Acquisition Regulation. This will provide standard contractual language for provisions and clauses not otherwise available in the Federal or Interior regulations that are needed by our operational contracting activities. This action should result in cost savings as this development and standardization will relieve the individual contracting activities of the responsibility of developing their own.

1115. APPEALS FROM ADMINISTRATIVE ACTIONS

Legal Authority: 5 USC 301; 25 USC 2; 25 USC 9

CFR Citation: 25 CFR 2

Abstract: The present administrative appeal regulations are ambiguous and misleading. It is difficult to tell what issues may be appealed and to whom the appeal should be sent. Most deadlines are uncertain. Those that are certain are often unrealistic. It is also unclear when a final decision will be rendered by the Interior Board of Indian Appeals and when it will be rendered by the Assistant Secretary for Indian Affairs. Alternatives will be developed by reviewing the existing appeal regulations of other agencies. Consideration will be given to specifying which types of appeals go to the Assistant Secretary and which to the Board. The alternative of providing for the Assistant Secretary to make a case-by-case decision whether or not to refer the matter to the Board will also be considered. The primary benefit should be reduced frustration for both appellants and the BIA officials who handle the appeals. The greatest cost may be that both appellants and BIA officials may have to comply with more specified procedures and meet more deadlines in order for the system to work.

Abstract: Public Law 97-394 requires the Bureau of Indian Affairs to impose a rateable reduction in General Assistance (GA) grant payments to eligible Indian clientele. When implemented, the rateable reduction will vary among states in that it will be identical in amount to the reductions established by states in the Administration of their respective Aid to Families with Dependent Children programs. In the past, the Bureau has made GA grant payments at the full need levels established by the states. The effect of applying a rateable reduction will be reduced program costs.

Additional Information: In May 1982, the District Court for the District of Arizona invalidated the regulations and ordered the Bureau to publish new

regulations. The Bureau published interim regulations on Hopi Partitioned Funds on September 8, 1982. During the past year several negotiating meetings have been held with the Navajo Tribe to obtain concurrence to include Navajo Partitioned Land in the regulations. The Navajo Tribe wants separate regulations and the Bureau has drafted new regulations for Navajo Partitioned Lands.

CFR Citation: 25 CFR 170

Abstract: With the Surface Transportation Assistance Act of 1982, Indian reservation road construction is funded from the Highway Trust Fund with authorizations for Fiscal Years 1983, 1984, 1985 and 1986. Other provisions include a requirement for proper maintenance of roads, applications of the "Buy Indian" and Indian Self Determination Acts, and joint program management by the Secretaries of Interior and Transportation. These changes in the law make changes in regulations imperative. The no-action alternative would leave program managers with outdated guidelines. Cost of the action will be minimal and it imposes no burden on the public. Benefits will be a better ordered road construction and maintenance program on Indian reservations, greater management efficiency, and clarity of procedures for federal managers, legislators and tribal officials. CFR Citation: 25 CFR 244

Abstract: The interim rule will provide regulations governing hunting of big and small game on the Wind River Indian Reservation in Wyoming, to conserve, protect and increase the currently depleted populations. No alternative actions for addressing the problem are being considered. The program will be confined to a localized area, and economic effects will be relatively insignificant. Benefits will be conservation of existing populations through reduced hunting mortality. Costs for personnel and equipment to enforce the regulations are estimated at $235,000 for the first year and $200,000 annually thereafter, to be derived by reallocation of existing funding.

Legal Authority: 5 USC 301; 25 USC 2; 25 USC 9

CFR Citation: 25 CFR 249

Abstract: This rule is an annual amendment covering the treaty Indian fishery in waters subject to the Fraser River Convention. Regulations provided by the rule assure fulfillment of obligations to treaty tribes and to Canada. The alternative of no regulation would leave the treaty Indian fishery unregulated, and was not considered. The rule is beneficial in that it will allow for the implementation of treaty guaranteed rights in a manner consistent with U.S. obligations to Canada. The rule will not result in a

major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions.

1163. CONTRACTS UNDER INDIAN SELF-DETERMINATION AND EDUCATION ASSISTANCE ACT

Significance: Regulatory Program

Legal Authority: 25 USC 450; 41 USC 501

CFR Citation: 25 CFR 271

Abstract: A proposed rule, published in 47 FR 40326 on September 13, 1982, changed regulations to provide assistance to tribes from contracts to grants or cooperative agreement and for other purposes. The public comments to the proposed rule were overwhelmingly unfavorable. Consequently, the Bureau intends to publish a reproposed rule to (1) strengthen administrative controls over contracts, (2) eliminate obsolete and unnecessary requirements, and (3) to clarify or simplify the regulatory provisions.

1185. OPERATION OF U.S.M.S. "NORTH STAR" BETWEEN SEATTLE, WASHINGTON AND STATIONS OF THE BUREAU OF INDIAN AFFAIRS AND OTHER GOVERNMENT AGENCIES, ALASKA

Legal Authority: 5 USC 301

CFR Citation: 25 CFR 142

Abstract: The review of this rule was originally assigned an "End Review Date" of October 1984. During the 1985 Shipping Season, which extends from April through October 1985, the BIA will be conducting a test of the Department of Defense Coolbarge system. During that period, all Bureau-sponsored cargo will be shipped via Coolbarge and the USMS "Northstar" will be temporarily removed from service. If the test proves to be successful, then, the Northstar Operation (the use of the Bureau-held ship) will be permanently discontinued in favor of Coolbarge. After completing the test evaluation, decisions will be made regarding Northstar vs. Coolbarge. After the policy decisions are made, the regulation will be deleted or revised as appropriate to reflect and describe the new concept of Operation. The estimated completion date should be changed to October 1986.

1208. LICENSED INDIAN TRADERS

Legal Authority: 25 USC 2; 25 USC 9; 5 USC 301

CFR Citation: 25 CFR 140

Abstract: On April 25, 1980, the Bureau published a proposed rule that would have amended the regulations governing Indian traders on most Indian reservations. That proposal would have restricted application of the regulations to businesses located in isolated communities where there is an absence of competition. Most comments received were strongly opposed to the proposal and supportive of diligent enforcement of the trader regulations on all Indian reservations. In response to those comments, the Bureau has proposed to modernize the trading regulations by adopting as its regulations the consumer protection statutes of the state where the business is located. This Part has been redesignated from 25 CFR Part 251. This part is also scheduled for review.

1214. SUSPENSION AND DEBARMENT AS ADDITIONAL PENALTY

Significance: Regulatory Program

Legal Authority: 30 USC 181 et seq

CFR Citation: Not yet determined

Abstract: The Minerals Leasing Act and Federal Oil and Gas Royalty Management Act authorize assessing significant penalties for the failure to pay royalties. These penalties include financial penalties, criminal sanctions, and the authority to revoke leases. Although debarring authority is not explicitly granted, we believe we have that authority. It is needed because the other remedies may not be effective. The process approval is complicated and time consuming. There may be little incentive for a company to comply at the outset. Debarment would provide that incentive. The alternative considered is operating only under the present penalty regulations at 30 CFR 241.

1216. DEVELOPMENT AND PRODUCTION OPERATIONS FOR NONENERGY MINERALS ON THE OUTER CONTINENTAL SHELF

Significance: Regulatory Program

Legal Authority: 43 USC 1334

CFR Citation: Not yet determined

Abstract: Proposes the desirability of new regulations to govern Production and Development Operations on the Outer Continental Shelf (OCS) for minerals other than oil, gas, and sulphur under the authority of the OCS Lands Act; and requests comments and recommendations from interested parties. Alternative is to specify requirements in a lease document. Promulgation of regulation is not expected to result in costs significantly more than those incurred through the unregulated use of good commercial practices. The regulation will require that hard mineral operations are conducted in a manner that will ensure safety and protection of the environment.

1217. ● NONDISCRIMINATION IN EMPLOYMENT IN THE OUTER CONTINENTAL SHELF

Significance: Agency Priority

Legal Authority: 43 USC 1863; 43 USC 1331 et seq; 42 USC 2000d to 2000e

CFR Citation: Not yet determined

Abstract: There are no provisions in current Minerals Management Service regulations which provide a mechanism for remedy of unlawful discrimination in Outer Continental Shelf (OCS) employment. Rules would be developed to provide a process whereby persons who believed they had been denied employment because of unlawful discrimination would have a forum. These rules would implement the purposes of section 604 of the OCS Lands Act Amendment of 1978. Alternatives considered are no action, issuance of a policy statement and no rules, and proposal of extensive affirmative action rules similar to those rescinded in the past. Very few complaints are expected to arise as there has been no evidence of discrimination to date. Therefore, costs are expected to be minimal. Benefits would be the assurance that the requirements of section 604 are being fully carried out.

1225. ● NOTICE TO LESSEES NO. 5 (NTL-5) VALUATION OF NATURAL GAS PRODUCED FROM ONSHORE FEDERAL AND INDIAN LEASES

Legal Authority: 30 USC 181 et seq

CFR Citation: 30 CFR 206.13

Abstract: Notice to Lessees No. 5 (NTL-5) requires payment of royalty on gas based on the higher of market price or the Federal Energy Regulatory Commission (FERC) ceiling price. This requirement is not appropriate in times of market "softness" when demand is low and market prices are universally lower than the FERC ceiling price. This proposal would allow royalty to be paid on the market price when it is lower than the FERC ceiling price. The alternative is no action which would result in the adverse effect of litigation by the industry against the Minerals Management Service.

Significance: Regulatory Program

Legal Authority: 30 USC 1701 et seq

CFR Citation: 30 CFR 218

Abstract: The regulation will limit accounting adjustments to 180 days after month of production by lessee. At present, accounting adjustments are made years later for very small amounts. There is a need to reduce the accounting entries to the account, which will generate a cost benefit. The potential costs and benefits of this action have not been determined. Legal Authority: 31 USC 952; 96 Stat 1749 et seq

Abstract: This proposed rule would conform the Minerals Management Service Royalty Management regulations on non-payment and late payment of royalties, fees, and other assessments to the requirements of the Debt Collection Act of 1982 (DCA). This would be accomplished by requiring the payment of charges to cover the costs of processing and handling delinquent payments. The alternative to this action would be no action. 1235. ● EIGHT-YEAR PRIMARY TERMS FOR LEASES IN 400 TO 900 METERS OF WATER

Significance: Agency Priority

Legal Authority: 43 USC 1337(b)(2)

CFR Citation: 30 CFR 250.34-1; 30 CFR 256.37

Abstract: The amendment would provide 8-year primary terms for leases in water depths of 400 to 900 meters with a requirement to commence an exploratory well within the first 5 years of the term. The longer term is to provide the time needed to explore, develop, and produce in deeper water. Current rules provide a 5-year term with an automatic suspension of operations to carry out the activities set out in an approved development and production plan. The rule applies to the Gulf of Mexico only. Alternatives considered include extending the automatic suspension provisions to all OCS, granting lease terms between 5 and 10 years at various water depths from 300 to 900 meters, or leaving the rules as is. The industry is expected to realize increased profit from marginal leases and the government should receive higher bids because the risk of losing the lease is decreased.

1236. ● ACCIDENTS, FIRES, AND MALFUNCTIONS FACT-FINDINGS PROCEEDINGS

Legal Authority: 43 USC 1331 et seq

CFR Citation: 30 CFR 250.45(c), (new)

Abstract: Proposes to establish procedures to obtain testimony from witnesses or persons who have knowledge of serious accidents, fires, blowouts, or spills that occurred during oil and gas and sulphur operations in the Outer Continental Shelf. The testimony would help accident investigation panels to determine the cause or probable cause of an accident under investigation. The procedures would facilitate meetings of investigatory panels and would reduce legal challenges to future Minerals Management Service fact-finding investigations. The alternative would be not to have procedures. The proposed rule is procedural in nature; therefore, it does not imply cost.

1237. AIR QUALITY

Significance: Regulatory Program

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250.57

Abstract: Amendments to the DOI Air Quality regulation for oil and gas operations will be proposed for Outer Continental Shelf areas adjacent to California. The changes would provide additional safeguards for those pollutants which could be critical to air quality in the region. A determination of potential costs and benefits cannot be made until responses to the Advance Notice of Proposed Rulemaking are analyzed.

1238. PROSPECTING FOR NONENERGY MINERALS ON THE OUTER CONTINENTAL SHELF

Significance: Regulatory Program

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 257, or a new part to be determined

Abstract: Proposes the desirability of new regulations to govern exploration on the Outer Continental Shelf (OCS) for minerals other than oil, gas, and sulphur under the authority of the OCS Lands Act; and requests comments and recommendations from interested parties. Alternative is to specify requirements in a permitting document rather than in regulations. Promulgation of regulations is not expected to result in costs significantly more than those incurred through the unregulated use of good commercial practices. The rules will require that hard mineral operations will be conducted in a manner which will ensure safety and protection of the environment.

Legal Authority: 43 USC 1331; 43 USC 1352

CFR Citation: 30 CFR 251.13(b), (Revision)

Abstract: Regulation revisions will be needed to implement certain provisions concerning reimbursement which are expected to be included in the 1986 appropriations bill for MMS. It is anticipated that the bill will stipulate that permittees engaged in geological and geophysical exploration on the Outer Continental Shelf (OCS) be treated the same as lessees with respect to reimbursement for processed geophysical data provided by permittees to the MMS. If the appropriations bill does not contain the language requiring this change in reimbursement requirements for permittees, this item may be withdrawn from the agenda.

1240. ● AREA ADJACENT TO A STATE

Legal Authority: 43 USC 1352

CFR Citation: 30 CFR 252.2(e)

Abstract: Amendment would revise the definition of area adjacent to a State. Current regulations give the definition

as that portion of the OCS within a planning area if such planning area is bordered by that State. Under current rules New York and Rhode Island are not considered adjacent to the North Atlantic planning area but are adjacent to the Mid-Atlantic planning area. The amendment would deem both states adjacent to both planning areas for the purpose of inspecting proprietary information. Alternatives include leaving the current rule as is or deeming the states adjacent the North Atlantic planning area and not the Mid-Atlantic.

1242. ISSUANCE OF LEASES FOR NONENERGY MINERALS ON THE OUTER CONTINENTAL SHELF

Significance: Regulatory Program

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 256 or new part to be determined

Abstract: Proposes the desirability of new regulations to govern lease issuance on the Outer Continental Shelf (OCS) for minerals other than oil, gas, and sulphur under the authority of the OCS Lands Act; and requests comments and recommendations from interested parties. Alternative is to not have leasing requirements in regulations. Promulgation of regulation for leasing of hard mineral resources is not expected to add to the cost to industry. CFR Citation: 30 CFR 290

Abstract: Revisions to 30 CFR 290 are needed to assure that the administrative appeals procedures are compatible with the newly adopted civil penalty regulations of 30 CFR 241, are in accord with current organizational configurations, and contain new provisions concerning filing dates and the submission of confidential information. Persons exercising administrative appeals rights would be required to identify information that they claim is exempt from public disclosure and to provide second copies of appeals documents. The procedural revisions should increase efficiencies in processing appeals and reduce risks of inadvertent disclosure of private information. The maximum estimated total cost of the proposed revisions is not expected to exceed $5,000 per year for all affected persons.

CFR Citation: 30 CFR 218; 25 CFR 211; 25 CFR 212

Abstract: The Minerals Management Service is considering direct payment of minerals royalties to Tribes or allottees. Annually, about $175 million is distributed to approximately 20,000 individual allottees and Tribes. The payments are sent by the payor to MMS and from MMS to the Bureau of Indian Affairs for distribution. The present system increases the risk of making late or wrong payment and is extremely expensive and inefficient to administer. Also, accountability is

difficult to establish under the present system.

1245. SUSPENSION OF OPERATIONS FOR LEASES IN WATER DEPTHS OF 400 TO 900 METERS

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250.12

Abstract: Amends the regulations to require the granting of an automatic suspension of operations to permit time to carry out the activities described in an approved development and production plan for leases in the Alaska, Atlantic, and Pacific OCS Regions in water depths of 400 to 900 meters (the amendment has already been made for the Gulf of Mexico OCS Region). It is expected to cut costs and increase Federal revenues by eliminating some of the uncertainties of operating in deeper water. Alternatives considered include maintaining the current policy of discretionary suspensions and granting longer primary terms in deeper water.

1253. NONDISCRIMINATION IN OUTER CONTINENTAL SHELF CONTRACTING

Legal Authority: 43 USC 1863

CFR Citation: 30 CFR 270

Abstract: The proposed rule would prohibit unlawful discrimination in contracting activities conducted in support of oil and gas exploration, development, and production on the Outer Continental Shelf (OCS). The rules would also provide a process whereby persons who believed they had been denied a contract because of unlawful discrimination would have a forum. Violators would be subject to the same penalties that are available for other OCS rule violations. These proposed rules would implement the purposes of section 604 of the OCS Lands Act Amendments of 1978. Alternatives considered span from the issuance of a policy statement and no rules to a proposal of extensive affirmative action rules similar to those rescinded in the past. Very few complaints are expected to arise as there has been no evidence of discrimination to date. Therefore, the costs are expected to be minimal.

Current and Projected Rulemakings

1255. ● SUBCHAPTER A - GENERAL, APPLICABILITY

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 700.11

Abstract: The lack of review procedures for operations meeting the two-acre exemption under the Surface Mining Control and Reclamation Act has led to difficulty in enforcing this provision of the Statute. Therefore, OSM is proposing that a notice be required of operators wishing to obtain a two-acre exemption. This rule would result in benefits to small operators and regulatory authorities in clarifying those operations clearly meeting the exemption criteria and they would be treated as such. No additional costs to the environment would occur because operations could not commence within a specified time of notice, for regulatory authority review.

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 701.5; 30 CFR 816.106(b); 30 CFR 817.106(b)

Abstract: This regulation addresses the result of a joint motion approved by the District Court for the District of Columbia on December 3, 1984. The final regulation will remove the definition of adverse physical impact; remove the limitations imposed by 30 CFR 816.106(b) and 817.106(b); and require that all reasonably available spoil in the immediate vicinity of the remining operation be used to backfill the highwall to the maximum extent technically practicable. In view of the joint motion this is the only alternative being considered. There will be little if any potential costs because of the very limited application of this rule. Therefore, benefits which will result will also be very limited. The proposed rule asks for public comment on this very issue.

Abstract: This proposed rule would comply with a ruling by the District Court for the District of Columbia which stated that the definition of farming and agricultural activities were not equal as it related to Alluvial Valley Floors as defined in OSM's regulations. The Court ordered that the definition be repromulgated in a manner consistent with Congressional intent. CFR Citation: 30 CFR 701.5

Abstract: The proposed rule will amend the definition of the term support facilities as a result of the District Court for the District of Columbia's opinion of July 6, 1984. The proposed regulation would bring additional support facilities under the Permanent Program Regulations of the Surface Mining Control and Reclamation Act and amend the definition of support facility to connote a functional relationship with a regulated facility. This proposed rule would impose only minor costs to the coal industry since relatively few operations will be affected.

Abstract: The proposed rule would clarify the applicability of the prohibitions in section 522(e)(4) and (5) of the Surface Mining Control and Reclamation Act of surface impacts of underground mining. The issue of the relationship between section 522(e) and mining related subsidence will be addressed in the proposed rulemaking. The rulemaking will seek to clarify whether OSM's rules have the effect of prohibiting underground mining operations related to the features and facilities within the distance limitations enumerated in sections 522(e)(4) and (5) of the Act. The proposed rulemaking will address the issue of what is a "Surface Impact" incident to an underground mine.

Additional Information: The Office of Surface Mining has determined that the proposed rulemaking constitutes a major Federal action requiring an EISto meet the requirements of the National Environmental Policy Act. OSM has also made the determination that the proposed rule may be significant within the meaning of E.O. 12291. Precise cost/price impacts cannot be determined prior to further development of the regulation, but such costs are anticipated to be significant in terms of E.O. 12291 and the Regulatory Flexibility Act. Therefore, a Preliminary Regulatory Impact Analysis and Small

Entity Flexibility Analysis are being prepared.

1262. ● PERMANENT PROGRAM PERFORMANCE STANDARDS DEFINITIONS, PREVIOUSLY MINED AREAS

Significance: Agency Priority

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 701.5

Abstract: This rulemaking action is in response to a Court Order by the U.S. District Court for the District of Columbia In re; Permanent Surface Mining Regulation Litigation II, July 15, 1985. The proposed regulation would amend the definition of previously mined area to include only those lands mined prior to May 3, 1978, and not reclaimed to the standards of the Act. This rule may lead to a reduction of environmental benefits since there will be less incentive for remining and reclamation of mines abandoned after May 3, 1978. Otherwise, there are no significant increase or decrease in costs.

1263. EXEMPTION FOR COAL EXTRACTION INCIDENTAL TO THE EXTRACTION OF OTHER MINERALS

Legal Authority: 30 USC 1201

CFR Citation: 30 CFR 702

Abstract: The Surface Mining Act exempts mining operations that extract other minerals where coal does not exceed 16 2/3 percent of tonnage of minerals removed for sale. Evidence of abuse of this exemption has been given to Congress by legitimate operators. Coal mine operators are using the exemption to avoid compliance with the Surface Mining Act's environmental protection performance standards. Proposed regulations would require operations claiming exemption to apply for exemption and report on their operations. The costs of compliance for these operations is undetermined. Benefits would be to the public in terms of protection of health, safety, and environment from detrimental effects of mining. Legitimate noncoal operators would be able to compete fairly with those operations now using the exemption to undersell their legitimate competitors.

1264. RESTRICTION ON FINANCIAL INTERESTS OF STATE EMPLOYEES

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 705.5

Abstract: This rule will address whether the Office of Surface Mining should retain the exemption for members of multiple interest boards in the definition of the term "employee" in 30 CFR 705.5 for purposes of determining restrictions on financial interests of State regulatory authority employees. In the event the exemption is retained, the Office of Surface Mining would propose to define multiple interest boards qualifying for the exemption.

1265. EXEMPTION FOR COAL EXTRACTION INCIDENTAL TO GOVERNMENT FINANCED CONSTRUCTION

Legal Authority: 30 USC 1202; 30 USC 1211; 30 USC 1278

CFR Citation: 30 CFR 707

Abstract: The current limiting language in 30 CFR Part 707 can have at least three adverse results for the Abandoned Mine Lands (AML) Program. The inability to remove incidental amounts of coal encountered during reclamation activities can result in: 1) the loss of a valuable energy resource, 2) a no-cost subsidy of a future mining operation, and 3) a windfall profit to the mineral owner. In addition, the Federal and State governments are unable to reduce the costs of their AML projects. Participation in the incidental recovery of coal and resulting reduction in reclamation costs would allow the Federal and State AML programs to accomplish more reclamation at a substantial saving. To correct these deficiencies and to allow greater flexibility for the AML Program to remove incidental amounts of coal encountered during AML-financed reclamation activities, the clarification and expansion of the scope of Part 707 is being proposed.

1266. ● REQUIREMENTS FOR COAL EXPLORATION--PERMIT REQUIREMENTS FOR EXPLORATION REMOVING MORE THAN 250 TONS OF COAL

Significance: Agency Priority

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 772.11; 30 CFR 772.12

Abstract: The proposed rule would comply with a court order of the District Court for the District of Columbia which remanded OSM reporting requirements for surface coal exploration. The proposed rule would revise existing requirements to include the filing of a notice by all individuals or operators planning coal exploration, and specify the information required on applications for coal exploration. The obligation to report is a standing requirement of existing regulations. This rule would expand the requirement to report. Because affected States already have the expanded requirement in place, no additional costs or benefits are expected to be associated with the rule.

Significance: Regulatory Program

Legal Authority: 30 USC 1201

CFR Citation: 30 CFR 723; 30 CFR 724; 30 CFR 845; 30 CFR 846, (New)

Abstract: The proposed rule will improve the implementation of Section 518(f) of the Surface Mining Control and Reclamation Act by clarifying the meaning of "knowing and willful" and defining the manner in which a daily penalty will be assessed for a continuing violation. Corporate officials associated with a permittee in violation of the Act will be identified and assessed individual civil penalties in addition to any penalties imposed on the Corporate entity.

1274. CRITERIA FOR DESIGNATING AREAS AS UNSUITABLE FOR SURFACE COAL MINING OPERATIONS

Significance: Regulatory Program

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 762.5

Abstract: The objection to the definitions of the terms "fragile lands" and "historic lands" in 762.5 is their requirement that damage from proposed mining to historic and other values must be irreparable or permanent before lands can be classified as fragile or historic and therefore, eligible for consideration as being unsuitable for mining. The court order requires only a finding of significant damage, in accordance with Section 522(a)(3)(b) of the Act. In as much as the required wording "significant damage" is used in 762.11(b)(2) in the fragile-or-historic-lands criterion for designating lands as unsuitable, rather than using the wording of the two definitions, the proposed rule change would remove the degree-of-damage requirement from the definitions and thereby remove the wording objected to. In addition, the two terms would be combined into the one term "fragile or historic lands" that is used in the Act and also in 762.11(b)(2). The cost and benefits would remain unchanged because a finding of only significant damage and the combined term are already in place in 762.11(b)(2).

Abstract: The existing rules pertaining to the requirements for permit and permit processing, Permit applications and civil penalties are to be amended. Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 773

Abstract: This regulation is intended to clarify existing requirements concerning protection of historic properties which may be affected by surface coal mining and reclamation operations. This rule would clarify that States with regulatory programs approved by the Secretary of the Interior have authority to require specific actions to assist the Secretary of the Interior comply with section 106 of the National Historic Preservation Act. Since this is a clarification of existing requirements, no change in costs are expected. Benefits will be seen in more clarity in regulations.

1278. UNDERGROUND MINING PERMIT APPLICATIONS MINIMUM REQUIREMENTS FOR RECLAMATION AND OPERATION PLAN SUBSIDENCE CONTROL PLAN

Significance: Regulatory Program

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 784.20

Abstract: In remanding Section 817.21(c)(2) for further comment following the Permanent Surface Mining Regulation Litigation II, the court also found that the 1979 rule requiring the subsidence control plan to include the results of the pre-subsidence survey and description of proposed monitoring measure were deleted in the 1982 proposed and 1983 final rule without adequate notice. Because this regulation related to Section 817.121(c)(2) concerning the protection of surface structures, the court ordered the Secretary to request additional public comments on this deletion in conjunction with the comments of 817.121(c)(2). No other alternative to the repromulgation of this rule is being considered because of the court order. Depending upon the number and types of comments received, this 1983 rule may or may not be changed. Consequently, the action's potential costs and benefits cannot be assessed.

Abstract: Following Permanent Surface Mining Regulation Litigation II, the court remanded portions of the subsidence control rule relating to the protection of surface structures and facilities to Office of Surface Mining to repromulgate the rule for notice and comment, holding that the final 1983 rule represents a radical change from the 1982 proposed rule. No other alternative to the repromulgation of the 1983 rule is being considered because of the court order. Abstract: The rulemaking is in response to a challenge of this issue in District Court where the Office agreed to suspend 30 CFR 817.41(b)(2), concerning requirement to restore groundwater recharge capacity, and repromulgate the rule to develop the administrative records. OSM will propose two options: (1) removing 817.41(b)(2) and (2) retaining this paragraph while asking for comments concerning its legality, technological validity, and environmental impacts. Significance: Regulatory Program

Legal Authority: 30 USC 1201 et seq

Abstract: These regulations are being revised as ordered by the District Court for the District of Columbia. They will amend OSM's permanent program performance standards with respect to prime farmlands by allowing last cut lakes to remain after mining is complete only where they are beneficial or necessary to agricultural activity and allowing for a support facility exemption only for underground mines. Abstract: To address concerns raised by Inspector General and states in regulations implementing Lien Provisions of Surface Mining Control Act. Provisions for documenting lien waivers and defining unclear terms will be proposed. State and Federal reclamation programs will expend more time and resources documenting their decisions to waive liens but possibility for windfall profits to private landowners from expenditure of federal funds will be decreased. Satisfaction of liens will result in recovery of federal funds.

1286. STATE RECLAMATION PLAN AMENDMENTS

Legal Authority: 30 USC 1235

CFR Citation: 30 CFR 884; 30 CFR 886

Abstract: The revised rule provides that the Director may request that a State initiate procedures to amend its reclamation plan and that the Director may establish, after consultation with the State, a timetable which is consistent with established administrative and legislative procedures in the State for submitting an amendment to the reclamation plan. Failure to amend the reclamation plan within the specified time could result in either the suspension of the AMLR Plan, reduction, suspension or termination of existing grants or the withdrawal from consideration of all future grant applications. States may have minor administrative costs in amending their approved reclamation plans. Benefits would include more efficient and cost effective reclamation procedures.

1287. SUBSIDENCE INSURANCE PROGRAM GRANTS

Significance: Regulatory Program

Legal Authority: HR RES 648; PL 98-473; 30 USC 1231

CFR Citation: 30 CFR 887, (New)

Abstract: Proposed regulations implementing Congressional amendment to Surface Mining Control Act that authorizes up to $3 million to States for the establishment of state administered self-sustaining subsidence insurance programs. If all eligible states avail themselves of the opportunity, the costs to the AML Reclamation Fund will be $69 million. Benefits are, if land is insured, approximately $100 million in savings to the AML reclamation program. If land is not insured, then the AML Trust Fund will lose up to a maximum of $69 million. The subsidence insurance program will result in considerable savings to home owners and commercial and industrial entities who will be able to insure their property from damage caused by subsidence in abandoned underground coal mines.

1289. ● PERMANENT REGULATORY PROGRAM DEFINITIONS

Significance: Agency Priority

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 701.5

Abstract: The proposed rulemaking is in response to a court order of the District Court for the District of Columbia which remanded the portion of OSM's definition of "affected area" relating to the description and inclusion of roads in "affected areas." The proposed regulation will address alternative definitions and descriptions of roads as part of the definition of "affected areas" and clarify the relationship of these terms to various provisions of the Surface Mining Control and Reclamation Act of 1977. OSM is unable at this time to determine precisely what additional costs would be associated with the rule. It should be minimal, however, as this rule is intended only to identify the limitations on roads to be included in surface mining operations.

Significance: Agency Priority

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 800-40(a)(2)

Abstract: This proposed rule would require that an applicant for bond release include the name of the permittee in the application. This action is being taken as a result of a commitment made during litigation on bonding requirements before the District Court for the District of Columbia where it was found that an explicit requirement for providing the name of the applicant was necessary. There will be no increase or decrease in the cost/benefits of this rule.

Significance: Agency Priority

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 816.116(b)(3)(ii); 30 CFR 816.116(c)(4); 30 CFR 817.116(b)(3)(ii); 30 CFR 817.116(c)(4); 30 CFR 816.116(c)(2); 30 CFR 817.116(c)(2)

Abstract: This rule is being proposed in response to an order of the U.S. District Court remanding several aspects of OSM regulations concerning revegetation which has inadequate support in the administrative record. OSM will propose rules concerning replanting of trees as a normal husbandry practice, the period for

revegetation success, and rills and gullies control as a normal conservation practice. Costs and benefits of this action have not been determined since the final scope of the rule is not certain. This analysis will be based in large part on public comments received on the proposed rule.

Significance: Regulatory Program

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 816.49(a)(8); 30 CFR 817.49(a)(8)

Abstract: The regulation will address the issue addressed in a district court challenge to OSM regulations. The rule will address the problem of combination spillways and will specify a spillway configuration that must be installed to safely pass the designed precipitation event. In some cases, the rule may allow one spillway to serve as a combination principal and emergency spillway. The proposed action may reduce costs in those cases where one spillway will safely pass the design precipitation event with no corresponding decrease in environmental protection.

Legal Authority: 16 USC 1331 to 1340; 43 USC 1701 et seq

CFR Citation: 43 CFR 4700

Abstract: This part will be revised in order to reorganize the regulations into a logical, consistent format and to remove needless self-regulation more appropriate for the Bureau Manual. In addition, related rules will be consolidated (aircraft and motor vehicles - 4730 and 4740; removal of horses and burros - 4720, 4740 and 4750), and rules which have no foundation in the law will be eliminated (problem animals - (4740.3(c); fencing of private land - 4750.3)). Procedures for adoption and title transfer will be clarified, and burdensome requirements for veterinarian certifications will be eased by canceling the requirement or allowing certification from any qualified official (4740.4-2 and 4740.5). The costs to those who choose to participate in the adoption program should be lessened by these revisions.

1349. FEDERAL OIL SHALE MANAGEMENT

Legal Authority: 30 USC 181 et seq; 43 USC 1701 et seq

CFR Citation: 43 CFR 3900

Abstract: This major rule will establish procedures for conducting a competitive leasing program, including procedures for issuing competitive oil shale leases, leasing multimineral deposits, issuing exploration licenses, and managing oil shale leases. Oil shale is a resource that has significant potential to increase the domestic energy supply and to reduce the Nation's dependence on foreign sources of energy. The rule is needed to establish procedures that will allow orderly development of this resource. Annual Federal costs of administering the oil shale leasing program described in the rule are estimated to be $3.5 million to $4.0 million. Total production from Federal leases is expected to range from 120,000 barrels per day to 400,000 barrels per day by the year 2000. The annual production costs associated with Federal oil shale leases are estimated to range from $1.2 billion to $3.1 billion. The shift in balance of payments resulting from the Federal program is estimated to be $5.5 billion to $7.0 billion in 1990. The rule, therefore, has been determined to be major because it is anticipated to have greater than a $100 million annual impact on the economy. Copies of the (cont)

Legal Authority: PL 98-242, Sec 105 to 106 Water Resources Research Act of 1984

CFR Citation: 30 CFR 402, (New)

Abstract: The purpose of the new proposed regulation is to establish procedures that will enable the Department of the Interior to meet its responsibilities in administering the Water Resources Research Act of 1984. The objective of this Act is to assist the Nation and the States in augmenting their water resources science and technology. The proposed regulation addresses the location of the administrative responsibility within the Department of the Interior; cost-sharing requirements and evaluation processes required by the Water Resources Research Act of 1984; and, application and reporting procedures to be utilized by interested parties.

Abstract: The purpose of this action is to establish procedures that will enable the Secretary of the Interior to meet his responsibilities in administering the program of state water research institutes reauthorized by the Water Resources Research Act of 1984. The rules and regulations presently governing the grant program were promulgated in 1964 and are not responsive to the new legislation. The new rules and regulations will primarily address matters of: administrative

responsibility within the Department; state designation of the universities hosting the institutes; cost-sharing requirements and the evaluation process called for by the Act; and application and reporting procedures. The action will provide clear and consistent administrative direction to both the granting agency and the grantees. The revised rule will be redesignated as 30 CFR 401.

Abstract: The contemplated regulation change would revise the procedure by which attorneys and representatives may be disbarred or suspended. It provides for a hearing and decision by an immigration judge, with appeal rights to the Board of Immigration Appeals and some limited review by the Attorney General. The change is desirable since it eliminates procedural entanglements between the Service and the immigration judges which exist in the current procedure.

Abstract: The contemplated regulation revisions would set out a group of uniform rules of procedure in immigration proceedings to provide guidance to parties appearing before immigration judges in deportation, exclusion, bond, and rescission matters. These rules are designed to assist in the expeditious, fair, and proper resolution of matters coming before immigration judges. These rules encompass such matters as jurisdiction, venue, motions, conduct of hearing, decisions, and appeals.

CFR Citation: 8 CFR 3; 8 CFR 212

Abstract: The proposed regulation revisions would streamline the appeal procedure for this application by eliminating an appeal to the Board of Immigration Appeals following a denial of the waiver by an INS district director. The appeal to the Board of Immigration Appeals is retained in reviewing proceedings before immigration judges. The revision is designed to encourage speedy adjudication of Immigration and Nationality Act section 212(c) applications and economy of resources.

1363. ● MOTIONS TO REOPEN DEPORTATION PROCEEDINGS

Significance: Agency Priority

Legal Authority: 8 USC 1103; 8 USC 1252

CFR Citation: 8 CFR 242

Abstract: The contemplated revision would delete the language allowing an application for adjustment of status under section 245 of the Immigration and Nationality Act, filed by itself, to be considered as a motion to reopen in deportation proceedings. The practice of allowing such applications to be treated as motions to reopen has resulted in confusion and administrative delay. This revision would treat motions to reopen for adjustment of status as any other motion to reopen. It is designed to eliminate the administrative difficulties involved with the filing of a bare adjustment of status application with no indication of whether or not it is a motion to reopen.

Legal Authority: 8 USC 1154

CFR Citation: 8 CFR 204.1(d)(2)

Abstract: This proposed rule would require filing of third and sixth preference petitions within 30 days of issuance of a labor certification in order to preserve the date of submission to a state employment service office as the alien's priority date. Otherwise the

priority date would be the date the petition is filed with the Service.

1378. CRIME VICTIM ASSISTANCE GRANTS

Legal Authority: PL 98-473, Sec 1407 Victims of Crime Act of 1984

CFR Citation: 00 CFR None

Abstract: The regulation will assist in implementing a grant program providing Federal financial aid to States for support of crime victim assistance programs. The Victims of Crime Act of 1984 authorizes the Attorney General to make annual grants to the States from the Crime Victims Fund in the Treasury which can receive up to $100 million annually from new penalty assessments, forfeited appearance bonds, bail bonds, collateral security from criminal defendants, and certain literary profits of convicted defendants. Priority is given to programs providing assistance to victims of sexual assault, spousal and child abuse. Specific requirements are set forth concerning program eligibility, allocation of funds, and application procedures.

Semiannual Agenda of Regulations

AGENCY: Office of the Secretary, Labor.

ACTION: Semiannual agenda of regulations selected for review or development.

SUMMARY: This document sets forth the Department's Semiannual Agenda of Regulations which have been selected for review or development during the coming one year period. The agenda complies with the requirements of both Executive Order 12291 and the Regulatory Flexibility Act.

DATES: The agenda includes all regulations which are expected to be under review or development between October 1985 and October 1986.

FOR FURTHER INFORMATION CONTACT: Roland G. Droitsch, Acting Deputy Assistant Secretary for Policy, Office of the Assistant Secretary for Policy, Department of Labor, 200 Constitution Avenue, N.W., Room S-2233, Washington, D.C. 20210, (202) 523-9058.

SUPPLEMENTARY INFORMATION: Executive Order 12291 and the Regulatory Flexibility Act require the semiannual publication in the **Federal Register** of an agenda of regulations.

Executive Order 12291 became effective February 17, 1981, and in substance requires the Department of Labor to publish an agenda, listing all the regulations it expects to have under active consideration for promulgation, proposal or review during the coming one year period. It also requires the Department to conduct a Regulatory Impact Analysis for all "major" regulations being developed.

The Regulatory Flexibility Act became effective on January 1, 1981. It applies only to regulations for which a notice of proposed rulemaking was issued on or after January 1, 1981, and requires the Department of Labor to publish an agenda, listing all the regulations it expects to propose or promulgate that are likely to have a "significant economic impact on a substantial number of small entities" (5 U.S.C. 602). For any regulation that will have this impact, the Department must conduct a Regulatory Flexibility Analysis to gauge the economic consequences of the rule, and to analyze the availability of more flexible approaches for lightening the rule's regulatory burden on "small entities."

If a proposed regulation will not have a "significant economic impact on a substantial number of small entities," the Department of Labor must publish a certification to that effect at the time of the general notice of proposed rulemaking or at the time of the publication of the final rule. That certification must be accompanied by a succinct statement explaining the reasons for the agency's determinations.

As permitted by law, the Department of Labor is combining in this publication its agendas under the Regulatory Flexibility Act and Executive Order 12291.

The regulatory reform process, of which the unified agenda is a part, continues to be an extremely valuable aid in the development of better regulations by the Department. We believe that our regulatory reform program has resulted in improved regulatory management, more clearly written regulations and significantly less burdensome regulations.

Further improvement is certainly needed, and we are constantly seeking new and innovative approaches in pursuit of this goal. All interested members of the public are invited and encouraged to let Departmental Officials know how our regulatory reform process can be further improved and, of course, to participate in and comment on the review or development of the regulations listed on the agenda.

William E. Brock,

Secretary of Labor.

1387. DEBT COLLECTION ACT REGULATIONS: SALARY OFFSET

Legal Authority: 5 USC 5514

CFR Citation: 29 CFR 20

Abstract: These regulations will implement the Debt Collection Act of 1982 (P.L. 97-365). The Debt Collection Act gives Federal agencies new tools to collect on debts owed to the United States. These include the authority of Federal agencies to offset the current pay account of an employee ("Salary Offset") when the employee owes money to the United States. These regulations will establish the policies and procedures the Department of Labor will use to implement a salary offset, in conformance with the Office of Personnel Management Regulations on this matter (49 FR 27470).

1388. RIGHT TO FINANCIAL PRIVACY ACT

Legal Authority: 12 USC 3401 et seq Right to Financial Privacy Act of 1978

CFR Citation: 29 CFR 19, (New)

Abstract: These proposed regulations would authorize Department of Labor units to request financial records from a financial institution pursuant to the formal written request procedure established by the Right to Financial Privacy Act of 1978, 12 U.S.C. 3401 et seq., and would set forth the conditions under which such requests may be made. Section 1108(2) of the Right to Financial Privacy Act of 1978 requires that the formal written request be authorized by regulations promulgated by the head of the agency or department. These proposed regulations would thus, once implemented, enable Department of Labor units to utilize the formal written request procedure to obtain financial records.

Significance: Regulatory Program

Legal Authority: EO 11246, as amended; 38 USC 2012; 29 USC 793; 29 USC 1781

CFR Citation: 41 CFR 60-1; 41 CFR 60-2; 41 CFR 60-4; 41 CFR 60-20; 41 CFR 60-30; 41 CFR 60-50; 41 CFR 60-60; 41 CFR 60-250; 41 CFR 60-741

Abstract: These provisions contain OFCCP's rules covering nondiscrimination and affirmative action obligations of covered contractors under EO 11246, the Vietnam Era Veterans Readjustment Assistance Act of 1974, and the Rehabilitation Act of 1973. The rule would be revised to make them more cost effective, reduce paperwork burdens and assure that contractors may always hire the best qualified person regardless of race, color, religion, sex, or national origin. Proposed changes to the regulations were published in the Federal Register on 12/28/79 and 02/22/80, and a final rule on these issues was published on 12/30/80 (45 FR 86215). The rule was stayed and reviewed in accordance with the President's Executive Order 12291 of 02/17/81. An ANPRM was published on 07/14/81 (46 FR 36213) and supplemented on 08/21/81 (46 FR 42490) to elicit comments on several issues pertaining to the regulation. A notice of proposed rulemaking was published on 08/25/81 (46 FR 42968) with comments due by 10/26/81. The proposal suspended the effective date of the 12/30/80 regulation, and proposed revision of that regulation. A final rule will be forwarded to OMB for review and (cont)

Legal Authority: 29 USC 793; 38 USC 2012

CFR Citation: 41 CFR 60-1; 41 CFR 60-250; 41 CFR 60-741

Abstract: This proposal would make the definition section of these regulations consistent with 1978 amendments to the Rehabilitation Act of 1973 and the Vietnam Era Veterans' Readjustment Assistance Act, and

conform these rules to changes in DOL's regulations implementing Sec 504 of the Rehabilitation Act. These provisions reflecting statutory changes have been incorporated into the 08/25/81 "main" OFCCP proposal (46 FR 42968).

Abstract: The intent of this proposal is to make explicit the Department's policy that a lessor of a coal mine, who has never actually operated such a mine, will not be held liable for the payment of benefits for black lung contracted in the course of employment in that mine and, therefore, need not insure against that possibility.

1392. LABOR STANDARDS PROVISIONS, DAVIS-BACON AND RELATED ACTS (ESA/WH)

Significance: Regulatory Program

Legal Authority: 40 USC 276a to 276a7; 40 USC 276c; 40 USC 327 to 332; 5 USC Appendix Reorganization Plan No. 14 of 1950; 29 USC 259

CFR Citation: 29 CFR 1; 29 CFR 5

Abstract: These regulations govern labor standards applicable to federally funded or assisted construction contracts subject to the Davis- Bacon and Related Acts (as well as contracts subject to the Contract Work Hours and Safety Standards Act). The Department plans to implement provisions in these regulations that would permit contractors to expand their use of semi-skilled "helpers" on Davis-Bacon covered projects at wage lower than those paid to skilled journeymen. Revised final rules were originally published 05/28/82 (47 FR 23658), but were deferred on 07/26/82 (47 FR 32070) due to an injunction issued by the U.S. District Court. Although the U.S. Court of Appeals for the D.C. Circuit has since upheld most of the key helper provisions published in 1982, the district court injunction remains in effect against certain provisions dealing with helpers. The Department intends to implement the helper provisions in accordance with the decisions of the district and appeals courts.

1393. LONGSHOREMAN'S ACT: REGIONAL OFFICES (ESA/OWCP)

Legal Authority: 33 USC 939(b)

CFR Citation: 20 CFR 702.101

Abstract: The low volume of cases received under the Longshore Act and its extensions did not justify maintaining separate longshore district offices for the disposition of cases in the Denver and Kansas City regions. Therefore, these offices were closed and their workloads transferred to the Seattle and Chicago district offices, respectively. This rule would formalize these changes by making a technical amendment to 20 CFR 702.101 redefining the jurisdictions of the four affected district offices.

Significance: Regulatory Program

Legal Authority: 5 USC 8101 et seq

CFR Citation: 20 CFR 10.400 et seq

Abstract: 5 USC 8103(a) of the Federal Employees' Compensation Act provides that the United States shall furnish a broad range of medical services and supplies to employees of the United States injured in the performance of duty. ESA proposes to exercise its statutory authority to define the "reasonableness" of medical service costs and thereby monitor, and possibly reduce, these costs by imposing a schedule of allowable fees to be paid for services under this law. On 06/07/84 (49 FR 23658), a notice of proposed rulemaking was published with comments due by 08/06/84. The comment period was extended from 08/06/84 to 10/05/84 in response to a request by the American Medical Association (49 FR 33695), and reopened from 01/31/85 to 03/04/85 (50 FR 4525).

1395. DEFINING AND DELIMITING THE TERMS "ANY EMPLOYEE EMPLOYED IN A BONA FIDE EXECUTIVE, ADMINISTRATIVE, OR PROFESSIONAL CAPACITY. . ." (ESA/W-H)

Significance: Regulatory Program

Legal Authority: 29 USC 213(a)(1)

CFR Citation: 29 CFR 541

Abstract: These regulations set forth the criteria used in the determination of the application of the Fair Labor Standards Act exemption for "executive," "administrative," "professional" and "outside sales employees" from the minimum wage and overtime requirements of the Act. The existing regulation was targeted for review by the President's Task Force on Regulatory Relief. A final rule increasing the salary test criteria was published on 01/13/81 (46 FR 12206) and was scheduled to become effective on 02/13/81. On 02/12/81 (41 FR 11912) an indefinite stay of the final rule was published. On 03/27/81 (46 FR 18998) a proposal to suspend the final rule indefinitely was published with comments due by 04/28/81. As a result of numerous comments and petitions received from industry groups regarding the duties and responsibilities tests as set forth in the regulations, as well as recent case law developments, the Department has concluded that a more comprehensive review of these regulations is needed and has decided to reopen the comment period and broaden the scope of the review to include all aspects of the regulations. An ANPRM is expected to be published during September 1985.

Significance: Regulatory Program

Legal Authority: 5 USC 8101 et seq

CFR Citation: 20 CFR 10.1 et seq

Abstract: This proposal would revise the Federal Employees' Compensation Act regulations to (1) increase the ability of employing agencies to monitor the Act's continuance of pay (COP) provisions; (2) reduce the period for using up the remainder of the 45-day COP eligibility when there is a recurrence of a disability subsequent to a first return to work from six months to 90 days from the date of return to work; (3) require partially disabled employees to report on their efforts to find work; (4) reduce the number of

internal body organs that are included in the list of schedule awards payable to employees who suffer a loss or loss of use of such organs; (5) make other modifications designed to provide consistent rationale for the payment of benefits; and (6) incorporate procedures for giving full due process in overpayment cases before recoupment.

CFR Citation: 20 CFR 701; 20 CFR 702; 20 CFR 703

Abstract: The Longshore and Harbor Workers' Compensation Act Amendments of 1984 were passed and signed into law on September 28, 1984 (P.L. 98-426). These amendments made many substantive changes to the Longshore Act (33 USC 901 et seq.), which were effective on the date of enactment, or 90 days thereafter. These regulations implement the changes made by the amendments, and make technical corrections in the unchanged sections of the regulations. The changes include an exemption from the Act's coverage for specified classes of workers, a certification procedure for exemption from coverage of certain small-vessel facilities, provisions allowing the Secretary to debar medical care providers and representatives for certain reasons, and revisions in the assessment formula for the program's Special Fund (for second injury coverage). Because of the statutory deadlines imposed, these regulations were published as interim final rules on January 3, 1985 with a comment period which will close March 22, 1985. They will automatically expire October 1, 1985, thus necessitating republication before then.

1400. GENERAL REGULATIONS UNDER THE WALSH-HEALEY PUBLIC CONTRACTS ACT

Legal Authority: 41 USC 38

CFR Citation: 41 CFR 50-201.101(b)(6); 41 CFR 50-201.1201

Abstract: The proposed rule would revise the role of the Small Business Administration (SBA) in determining a small business concern's eligibility as a "manufacturer" or "regular dealer" under the Walsh-Healey Public Contracts Act (PCA). Current procedures for small businesses require SBA review of all contracting agency findings of ineligibility, as well as all protests which challenge an agency's findings of eligibility. SBA did not have an opportunity to comment when the current rules were first adopted following enactment of the 1977 Amendments to the Small Business Act (P.L. 95-89, 91 Stat. 561 (15 USC 637(b)(7)(B)). SBA believes its review authority under the Act is restricted to only executive branch agency findings of noneligibility under PCA, and has requested revisions to the regulations which would eliminate SBA review in protest cases which challenge an agency's findings that a small business is eligible for award. Additional revisions requested by SBA would streamline the processing of cases between SBA and Wage Hour. (cont)

Additional Information: ABSTRACT CONT: b. An additional procedural change would discontinue the reporting requirement for federal contracting agencies to submit Standard Form (SF) 99, Notice of Award of Contract, to the Wage and Hour Division for contracts subject to the Walsh-Healey Public Contracts Act (PCA) if the agencies report such information directly to the Federal Procurement Data System (FPDS) or to Wage-Hour by alternative means, e.g., automated data process reports. A similar rule change was promulgated under the Service Contract Act (SCA) regulations (29 CFR 4.8) published October 27, 1983 (48 FR 49770). The reduced administrative burden for the affected procurement agencies resulting from the rule change under both SCA and PCA is expected to produce estimated annual cost savings governmentwide of nearly $410,000, the majority of which is attributable to PCA contract awards.

1401. WAGE PAYMENTS UNDER THE FAIR LABOR STANDARDS ACT OF 1938

Significance: Regulatory Program

Legal Authority: 29 USC 203(m); 29 USC 203(t)

CFR Citation: 29 CFR 531

Abstract: These regulations contain the basic standards governing the application of Section 3(m) of the FLSA, which provides that, under certain conditions, the reasonable cost or fair value of furnishing employees with board, lodging, or other facilities may be applied towards meeting the Act's minimum wage and overtime requirements. Section 3(m) also provides that tips received by certain employees may be credited towards the payments of the statutory minimum wage (up to a maximum of 40 percent). The changes under consideration would conform the regulations to legislative amendments, court decisions interpreting Section 3(m), and administrative experience related to enforcement of these provisions.

1402. EMPLOYMENT OF HANDICAPPED CLIENTS IN SHELTERED WORKSHOPS

Significance: Regulatory Program

Legal Authority: 29 USC 214; 29 USC 211

CFR Citation: 29 CFR 525

Abstract: These regulations establish the terms and conditions under which handicapped clients in sheltered workshops performing work subject to the provisions of the Fair Labor Standards Act (FLSA), the Walsh-Healey Public Contracts Act, and the Service Contact Act may be employed, under certificate, at wage rates less than those otherwise required by these acts. The FLSA Amendments of 1966 substantially revised the provision of section 14(c) of the Act which authorizes such employment. The regulations have not been comprehensively revised since 1967 when they were revised to reflect the amendments. The Department has concluded, that it would be appropriate to review the regulations to determine whether changes are necessary to address the concerns of interested parties.

Significance: Regulatory Program

Legal Authority: 20 USC 954 (i) and (j); 20 USC 956 (g)

CFR Citation: 29 CFR 505

Abstract: The National Foundation on the Arts and Humanities Act of 1965, as amended in 1976, requires the Secretary to determine the prevailing minimum compensation for professional performers and related or supporting personnel employed on projects or productions assisted by grants from the National Endowment for the Arts and the National Endowment for the Humanities. As originally enacted, these labor standards only applied to the Arts; the existing regulations do not reflect the amendments which applied the same labor standards to the Humanities. A review is planned to determine (1) whether the existing provisions for determining prevailing minimum wages with respect to grants from the National Endowment for the Arts should be continued, and (2) whether the same or some different approach to such determinations should be applied to grants from the National Endowment for the Humanities.

CFR Citation: 20 CFR 703.102

Abstract: The Longshore and Harbor Workers' Compensation Act (LHWCA) requires employers to provide coverage for their compensation liability either through becoming an authorized self-insurer or by procuring an insurance policy under the Act. In order to determine whether a carrier should be authorized by the Secretary, it is necessary to review certain administrative and financial information (such as State charter

status, insurance policy including LHWCA endorsement, annual reports, audit ratios, etc.) which will provide a rational basis for the decision. The existing regulations do not specify the full range of information which practice over the years has proved to be necessary. In addition, because the program lacks the expertise and staff to properly analyze the financial status of the insurance company, it has relied on Best's Insurance Reports and industry standard rating service. Up to now, companies which have Best's rating of B or better have been considered for authorization, although this standard was not part of the regulations. Market changes have undermined the stability of the insurance industry in general and several authorized (cont)

Additional Information: ABSTRACT CONT: carriers have become insolvent. In order to ensure the coverage of compensation liability under the Act, the Department will require newly authorized carriers to have an A or better Best's rating and the revision of the rule will reflect this policy. It will apply only to carriers applying for the authorization and not to carriers already authorized and writing insurance, to the extent of coverage already underwritten. A review of various methods of evaluating carriers' qualifications indicate that satisfactory alternatives may be developed without regulatory revisions.

1405. AIRLINE DEREGULATION: EMPLOYEE BENEFIT PROGRAM

Significance: Agency Priority

Legal Authority: 49 USC 1552; PL 95-504

CFR Citation: 20 CFR 638

Abstract: These regulations are being developed to implement the benefit provisions contained in Section 43 of the Airline Deregulation Act. The Act requires the Secretary of Labor to specify the percentage of prior salary which an "eligible protected employee" would receive as a benefit payment under the Act. An eligible protected employee is a person who has had at least 4 years of employment with a certificated air carrier as of October 24, 1978 and who loses his or her job during the ten years following such date in a bankruptcy or major employment contraction if and only if the Civil Aeronautics Board determines that the principal causes of such job loss was deregulation. On May 17, 1984 the U.S. District Court for the District of Columbia held that Section 43 of the Airline Deregulation Act was unconstitutional. On July 16, 1985, the U.S. Court of Appeals decided that the employee protection provisions of Section 43 were severable from the legislative veto provisions. However, further judicial action on other issues is likely before the Department can implement these regulations.

Significance: Regulatory Program

Legal Authority: PL 97-35, Sec 2406; PL 97-35, Sec 2407; PL 97-35, Sec 2408

CFR Citation: 20 CFR 608

Abstract: The Omnibus Budget Reconciliation Act of 1981 amended the tax credit provisions of FUTA to authorize the placing of a "cap" on reductions in tax credits on a State-by-State basis in certain prescribed circumstances. The amendment requires these determinations to be made in accordance with regulations prescribed by the Secretary of Labor. The same Act also amended Title XII of the Social Security Act to assess interest on advances to States, the payment of which is prohibited from State unemployment funds. The proposal would implement these statutory changes.

Significance: Regulatory Program

Legal Authority: 19 USC 2320

CFR Citation: 20 CFR 617

Abstract: These regulations would implement the 1981 and 1983 amendments to the Trade Act of 1974. The Trade Adjustment Assistance program provides adjustment assistance in the form of reemployment services, training, job search, relocation allowances, and cash benefits (adjustment assistance) to workers whose unemployment is linked to increased imports of foreign-made products. The amendments represent a fundamental shift in program emphasis from income maintenance to placement and employment services and benefits such as training, job search and relocation. The 1981 amendments are designed to assure that adjustment assistance and reemployment services are more appropriately targeted to trade impacted workers with emphasis placed on their return to work. The 1983 amendments extended the program to September 30, 1985. The 1984 amendments to the program are not included in these regulations but will be issued separately.

Abstract: The Employment and Training Administration (ETA) is designing a quality control (QC) program for the State Employment Security Agency (SESA) Unemployment Insurance (UI) system. The Department's Fiscal Year (FY) 1985 Budget includes provision for a UI QC program. The establishment of a UI QC program is a major initiative to reduce administrative errors and claimant abuse in the UI system. Significance: Regulatory Program

Legal Authority: Deficit Reduction Act of 1984 Section 2671

CFR Citation: 20 CFR 635

Abstract: This regulation would implement provisions of the Deficit Reduction Act of 1984 amending the Trade Act of 1974. The legislation amends Section 233(a)(3), to enable workers to collect the extra 26 weeks of Trade Adjustment Assistance (TRA) beginning with the first week the worker enters training if the training has not been approved until after the last week of entitlement to basic TRA. It also amends Sections 237 and 238 of the Trade Act to increase the maximum job search allowance to $800 (from $600) and the maximum lump-sum relocation allowance to $800 (from $600).(Since the proposed rule is supplemental to proposed rule at 20 CFR Part 635, the actual date of issuance of this rule as a final rule is dependent upon publication as a final rule of the amendments to The Trade Act of 1974 in Title XXV of the Omnibus Budget Reconciliation Act of 1981 (Public Law 97-35).

Significance: Regulatory Program

Legal Authority: PL 98-369, Subtitle C

CFR Citation: 20 CFR 603

Abstract: P.L. 98-369 (The Deficit Reduction Act) contains provisions which establish an income and eligibility system for exchange of information among state agencies administering programs for AFDC, Medicaid, Food Stamps, SSI, UI and other Grants to states program under Titles I, X and XIV of the Social Security Act. The provisions relate to the use of social security numbers, utilization and exchange of information, reimbursement of costs, accounting systems and protection of data. The provisions for the income and eligibility system take effect for all agencies April 1, 1985, unless the state agency submits a plan of good faith effort requesting waiver of the requirement until September 30, 1986. An interdepartmental task force has been established to develop and publish regulations implementing the Deficit Reduction Act. Representatives from the Departments of Health and Human Services, Agriculture, Labor as well as OMB are serving on the Task Force. 1415. LABOR CERTIFICATION PROCESS FOR THE PERMANENT EMPLOYMENT OF ALIENS IN THE UNITED STATES

Significance: Regulatory Program

Legal Authority: 8 USC 1182(a)(14)

CFR Citation: 20 CFR 656

Abstract: Physicians are currently on the Department's Schedule A precertification list if they are to be employed in a designated Health Manpower Shortage Area (HMSA) or an area which has an insufficient number of physicians as designated by the Public Health Service (PHS). The PHS has recommended removal of physicians from Schedule A, or in the alternative leave only those physicians on Schedule A that are to be employed

in the HMSA's. According to the PHS: (1) neither Congress nor the Department of Health and Human Services recognizes the existence of a national shortage of physicians; (2) alien physicians after they are certified do not go to the HMSA's or the area with an insufficient number of physicians, or if they do go to these areas they leave shortly after starting work. Thus, the labor certification program has not had a significant effect in alleviating the shortage of physicians in the HMSA's or in the areas with an insufficient number of physicians. Consequently, ETA proposes to remove all physicians from Schedule A.

Abstract: Current regulations state that when employers provide meals they may charge the worker no more than $4.00 per day. There are exceptions in cases where employers document costs exceeding $4.00 in support of higher meal charges. In such instances, a ceiling of $5.00 per day may be charged if approved by the RA. These charges were established in 1980, and do not reflect the higher costs for food that currently exist. ETA proposes to increase the amount employers can charge workers for three meals per day.

Abstract: The regulation will provide Work Incentive Program grantees and contractors administrative appeal rights before the Office of Administrative Law Judges for the following: (1) an adjustment in payment; (2) termination of the contract or grant; (3) a final determination disapproving outstanding claims arising from terminations, disapproving unreimbursed costs, or rejecting the termination settlement proposal; (4) a final determination disallowing costs as a result of an audit; and (5) a final determination disallowing costs resulting from the closing out of the grant/contract. Currently, no such rights exist and a grantee/contractor's only appeal forum is Federal Court. Provision of these hearing rights should reduce the

workload of the Federal Court system and allow the Department of Labor to adjudicate the issues in a more informal setting with Administrative Law Judges, who are more accustomed to dealing with the particular issues involved. The regulations will also correct a perceived inequity since most Employment and Training Administration programs have administrative appeal rights.

Significance: Agency Priority

Legal Authority: 42 USC 1302

CFR Citation: 20 CFR 601.9 (Revision)

Abstract: The regulation will provide States with administrative appeal/hearing rights before the Office of Administrative Law Judges for final determinations disallowing costs as a result of unemployment insurance economy and efficiency audits and audits of the Federal share of unemployment insurance benefits. Currently, no such hearing rights exist and if a State seeks review of the above action, the only appeal forum is the Federal Court. Provision of these hearing rights before the Office of Administrative Law Judge should reduce the workload of the Federal Court system and allow the Department of Labor to adjudicate the issues in a more informal setting with the Administrative Law Judges, who are more accustomed to dealing with the particular issues involved. The regulation will also correct what is perceived as an inequity, since most Employment and Training Administration programs have administrative appeal rights and there is no rationale for excepting unemployment insurance programs.

Additional Information: A Department of Labor Inter-Agency Task Force established to implement the Single Audit Act has decided that all Department of Labor programs shall have some type of appeal rights within the Department of Labor. The Office of the Assistant Secretary for Employment and Training Administration decided that appeal rights for all Employment and Training Administration programs shall be provided by the Office of Administrative Law Judges. Review by the Office of Administrative Law Judges provides for the adjudication of broader issues, such as fairness and equity, that are inappropriate for consideration by the Grant Officer.

Abstract: ERISA and the regulations issued thereunder, require the administrator of an employee benefit plan, unless otherwise exempt, to file annual reports relating to the financial status and activities of the plan. Among other things, the annual report is required to include statements and schedules concerning the assets of the plan and transactions involving those assets. This regulation will provide an alternative method of compliance with the annual reporting requirements for certain employee benefit plans which invest in entities, the underlying assets of which constitute plan assets under the Department's "Plan Assets" regulation.

1438. PATTERN OF VIOLATIONS

Significance: Regulatory Program

Legal Authority: 30 USC 814(e); 30 USC 957

CFR Citation: 30 CFR 104

Abstract: The Mine Act provides for issuance of withdrawal orders to mines having a pattern of serious violations until the mine is completely free of such violations. A 1980 proposed rule would have set criteria for determining if a "pattern of violations" exists. Commenters generally opposed the proposal stating that it was complex, too statistically oriented, and vague. In addition, since the proposal was published, the statutory concept of "significant and substantial violations" (S&S) has been redefined by the Federal Mine Safety and Health Review Commission. S&S violations are a critical element in the statutory provisions. For these reasons, MSHA has withdrawn the 1980 proposal and issued an ANPRM for public comment which outlines new procedures for implementing the statutory provision for pattern of violations.

1454. MINE PLAN APPROVALS

Significance: Regulatory Program

Legal Authority: 30 USC 957

CFR Citation: 30 CFR Chapter I

Abstract: Members of the mining community have recommended a proposal which they believe would encourage more cooperative efforts in developing mine plans and provide for an equal appeal procedure for disputed matters. Specifically, the proposal would (1) establish time frames for MSHA and mine operator actions on mine plans, (2) specify that the agreed upon provisions would take effect immediately, (3) provide that citations be issued regarding plan provisions upon which the operator and District Manager cannot agree, (4) establish guidelines for the abatement of such citations and (5) provide for the review of these citations before the Federal Mine Safety and Health Review Commission. As an alternative to this proposal, MSHA could establish an intra-agency appeal panel to hear disputes. This panel would include MSHA personnel with expertise in the subject matter addressed by the plan provision in dispute. At this time MSHA has made no decisions concerning the merits of the AMC/BCOA proposal. However, the Agency recognizes that there might be some problems associated with the plan approval process. However, MSHA believes that comments from (cont)

Significance: Regulatory Program

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 56.5-37 to 5-47; 30 CFR 57.5-37 to 5.47

Abstract: MSHA is reviewing its existing metal and nonmetal radiation (radon daughters) standards. The Agency has identified specific issues with respect to possible regulatory action. An ANPRM was published in the Federal Register (01/29/85, 50 FR 4144) inviting public comments. The purpose of this review is to evaluate the adequacy of the existing standards in providing appropriate protection for miners exposed to radiation hazards in surface and underground operations.

1456. UPDATING FEES ASSOCIATED WITH EQUIPMENT APPROVALS

Significance: Regulatory Program

Legal Authority: 30 USC 957

CFR Citation: 30 CFR 11 to 36

Abstract: The rulemaking would revise MSHA's existing system of charging fees for the testing, evaluation, and approval of products manufactured for use in mines. Most of the existing fees have not changed since 1965 and no longer reflect the cost to the government for providing the services involved. The rulemaking would establish a procedure for updating fees periodically to reflect the current cost of providing these services and would establish fees for services for which applicants currently are not charged.

1457. APPROVAL CRITERIA FOR DIESEL-POWERED EQUIPMENT FOR UNDERGROUND COAL MINES

Significance: Regulatory Program

Legal Authority: Section 508 of the Federal Mine Safety and Health Act of 1977; 30 USC 957

CFR Citation: 30 CFR 36

Abstract: The atmosphere of underground coal mines contains methane gas which can quickly accumulate in explosive concentrations. To protect against gas ignitions and mine explosions, the Federal Mine Safety and Health Act of 1977 requires that mining equipment be built in accordance with certain performance standards. To administer these requirements, MSHA has established a mining equipment approval system, including evaluation criteria. At present, approximately 88 underground coal mines are using about 1100 pieces of diesel equipment. Existing MSHA approval criteria do not, however, apply to this equipment. Existing MSHA regulations (30 CFR 36) apply only to diesel equipment for noncoal mines and tunnels. MSHA has encouraged coal mine operators to voluntarily use

diesel-powered equipment approved for noncoal mines. This effort has not been completely successful. Cost estimates have not been calculated. However, costs could arise from the purchase and maintenance of approved diesel equipment and for environmental controls. The major benefit would be increased productivity resulting from elimination of electric trailing cables, and increased (cont)

1458. ● APPROVAL CRITERIA FOR RESPIRATORY PROTECTIVE DEVICES

Significance: Regulatory Program

Legal Authority: 30 USC 957

CFR Citation: 30 CFR 11

Abstract: Under the 1977 Mine Act, MSHA and the National Institute for Occupational Safety and Health (NIOSH) jointly approve respirators for use in hazardous atmospheres. Recent problems in field use of respirators suggest that the present laboratory tests for respirators may not accurately predict their effectiveness during actual use. In addition, new technology has been developed which cannot be accommodated by the existing regulations. In determining alternatives, MSHA will first reexamine its role in the joint approval process. Under the existing procedures, most of the respirators approved are for non-mining applications. Therefore, MSHA will reassess the extent of its role in the approval process. Another alternative would be to replace federal testing with private sector testing according to federal specifications. Benefits could include improved respirators for field use and a faster approval process. However, the private sector testing alternative could be expected to raise costs for manufacturers because of market prices for testing products.

1460. ENFORCEMENT OF NONDISCRIMINATION ON THE BASIS OF HANDICAP IN DEPARTMENT OF LABOR PROGRAMS

Significance: Regulatory Program

Legal Authority: 29 USC 794

CFR Citation: 29 CFR 33

Abstract: Before the 1978 Amendments to Section 504 of the Rehabilitation Act of 1973, Congress had not held Federal Agencies to the same standard of accessibility to which recipients of Federal assistance were held. This proposed regulation would not require

DOL to take any action when it can demonstrate that taking such action would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. This regulation would require, however, that persons with handicaps, who are eligible for and who can achieve the purpose of a federally-conducted program or activity, be allowed access to that program or activity. Effective communication would also be required with applicants, participants, personnel, and members of the public that have impaired vision or hearing.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.1450

Abstract: Existing OSHA standards are designed to protect employees who are engaged in work involving exposure to only a few toxic chemicals during relatively standardized, continuous or repetitive processes. In contrast, laboratory workers are exposed to a multitude of toxic substances under frequently changing or unpredictable conditions. OSHA will examine whether prudent work practices and protective equipment, chosen for the specific facility and task, are more effective, feasible and economical for laboratory work than adhering to OSHA's current substance-specific exposure standards.

1465. CARCINOGEN POLICY

Significance: Regulatory Program

Legal Authority: 29 USC 653; 29 USC 655; 29 USC 657

CFR Citation: 29 CFR 1990

Abstract: The Carcinogen Policy describes the criteria and procedures OSHA will use to identify, classify, and then regulate carcinogens. The Policy also establishes a process for screening chemicals and for setting priorities for potential rulemaking activities. The validity of the scientific criteria set forth in the policy and the cost-effectiveness of the rule are being reexamined. The original standard was issued in 1980 before the Supreme Court "benzene" decision on significant risk. Thereafter, a final rule deleting provisions of the Carcinogen Policy that were inconsistent with the benzene decision was published on 01/19/81 (46 FR 4889). A proposal was published on 01/23/81 (46 FR 7402) to permit alternatives to the risk analysis section of the carcinogen policy to be addressed. The proposal was withdrawn on 03/27/81 (46 FR 19000). An advance notice of proposed rulemaking was published on 01/05/82 (47 FR 187) with comments due by 04/05/82. That document also proposed to stay the publication of the candidate and priority lists. The final stay was published on 01/04/83 (48 FR 241). As part of its evaluation of the policy, OSHA is reviewing the public comments received in response (cont)

1466. COTTON DUST

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.1043

Abstract: This standard, issued in 1978, was challenged in the courts and has been stayed as it applies to certain industrial sectors. In addition, where the standard is in effect, there have been problems with the device that is used to measure cotton dust, control methods specified by the standard may not be cost-effective, and there is question about the demonstration of a significant risk of disease in some of the industry sectors covered by the standard. Data have been collected to determine how and to what extent the rule should be revised. Two ANPRMs have been published: 03/31/81 (46 FR 19501) and 02/09/82 (47 FR 5906). The second ANPRM modified and expanded the issues set forth in the first ANPRM. On 08/13/82 (47 FR 35255) OSHA proposed to stay enforcement of the current standard for knitting operations. A notice of final decision on the stay was published 02/04/83 (48 FR 5267). A proposal to revise the standard for cotton dust was published 06/10/83 (48 FR 26962). Public hearings were held during September/October 1983. On 02/23/84 (49 FR 6717) OSHA published an administrative stay on the effective date for implementation of the engineering and (cont)

Abstract: The present respiratory protection standards have been in place for more than 10 years and do not take into consideration the current state-of-the-art for respiratory protection. In addition, the general industry standard for respirators contains redundancies and includes several advisory provisions which should be eliminated or changed. OSHA is reviewing the current standards and intends to propose revisions following its analysis of the standard and other comments and information received in response to the ANPRM published 05/14/82.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.1048

Abstract: Recent scientific studies have reported that ethylene dibromide causes cancer when administered orally, by inhalation and by skin application in laboratory animals. In addition, other studies have shown the chemical to be a mutagen, teratogen and testicular toxin in experimental animals. On the basis of these reports, OSHA has determined that its current permissible exposure limit of 20 ppm does not provide exposed workers adequate protection against cancer and other adverse health effects. A proposed standard for ethylene dibromide was published 10/07/83 (43 FR 45956). Public hearings were held in February 1984. OSHA is currently in the process of decisionmaking on the provisions to be included in the final standard.

1469. ● HAZARD COMMUNICATION

Significance: Agency Priority

Legal Authority: 29 USC 655(b); 29 USC 657

CFR Citation: 29 CFR 1200

Abstract: On May 24, 1985, the U.S. Court of Appeals for the Third Circuit directed the Secretary of Labor to reconsider application of the Hazard Communication standard and to extend the application of the standard to employers in industries other than manufacturing unless he can state reasons why such application would not be feasible. Because the public rulemaking record for the Hazard Communication standard developed prior to OSHA's promulgation of the rule on November 23, 1983 does not contain sufficient information on industries other than those in the manufacturing sector, OSHA will begin rulemaking action to determine whether extension of the standard to cover other industry sectors is feasible.

1470. LEAD - RECONSIDERATION OF WHOLE STANDARD

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.1025

Abstract: The current standard for occupational exposure to lead was promulgated in 1978. It sets a PEL of 50 micrograms of lead per cubic meter of air (50 ug/m3), and requires the use of feasible engineering or workpractice controls. There are serious questions concerning significant risk, feasibility and cost-effectiveness of the standard in certain industries; therefore, OSHA has announced its intention to review and reconsider the regulation.

Abstract: Circumstances unique to the stevedoring industry may make the application of the OSHA Lead Standard, in its present form, inappropriate. Therefore, OSHA has proposed to exempt this industry or to administratively stay application of the entire standard to this industry while the Agency examines (1) whether the stevedoring industry should be subject to this, or any lead standard and (2) if the industry should be subject to a different lead standard, what form that standard should take. Significance: Regulatory Program

Legal Authority: 29 USC 655(b); 29 USC 657

CFR Citation: 29 CFR 1910.20

Abstract: The regulation, promulgated in May, 1980 (45 FR 35212), requires employers to preserve and maintain exposure and medical records pertinent to an employee's occupational exposure to toxic substances, and to assure access to these records by employees, designated employee representatives, and OSHA. OSHA has reviewed the regulation and has proposed certain modifications including revision of the definitions of "toxic substance" and "exposure records", changes in the scope and application of the regulation and additional trade secret protection provisions.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b); 40 USC 333

CFR Citation: 29 CFR 1910.1001

Abstract: OSHA has announced its intention to revise this standard because data indicate that the present OSHA permissible exposure limit (PEL) may not adequately protect workers from asbestos-related diseases. The revision will include a change in the PEL and other appropriate modifications. On November 4, 1983, OSHA published an Emergency Temporary Standard (48 FR 51086) which immediately reduced the PEL to 0.5 fibers/cc. The ETS was challenged in the U.S. Court of Appeals for the 5th Circuit, and was stayed pending judicial review on 11/23/83. The review

was completed on 3/7/84. At that time the Appeals Court held the ETS to be invalid and ordered enforcement of the ETS permanently stayed. OSHA has published a proposal to revise the current standard on 04/10/84 (49 FR 4116). Public hearings were held in June 1984. OSHA is in the process of analyzing all of the information contained in the rulemaking record prior to making a decision regarding the provisions to be included in the final standard.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.1000(e); 29 CFR 1910.134(a)(1)

Abstract: OSHA's policy concerning the use of engineering controls and respirators was targeted for review by the President's Task Force on Regulatory Relief in 1981. Current OSHA regulations require that employers implement feasible engineering controls to maintain air contaminant concentrations in the workplace at or below the prescribed permissible exposure limits. The use of respirators is permitted only in those cases where engineering controls are not feasible, not yet installed, or not adequate. This policy has been criticized as being inflexible, not cost-effective, and often unnecessary for employee health protection. OSHA believes that any changes to the policy for use of engineering controls must be based on changes that are made to the respiratory protection regulations (29 CFR 1910.134). Proposals regarding revision of the methods of compliance policy will be made after OSHA has made decisions regarding revision of the respiratory protection regulations. Thus, no further regulatory action on this item is expected during the next six months.

CFR Citation: 29 CFR 1910

Abstract: The present Subpart H, Hazardous Materials, standard is out of date and in some respects is oriented towards public safety and property protection. OSHA has been petitioned to cover many other hazardous materials operations where presently it has no standards. It is the purpose of this revision to consolidate the existing standards for flammable and compressed gases by providing general requirements and specific requirements for selected gases which warrant special attention due to their hazards and uses within the industrial environment. The overall intended effect of the revision is to update and simplify the existing requirements while enhancing employee safety and health.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b); 40 USC 333

CFR Citation: 29 CFR 1926.500 to 1926.502

Abstract: The existing standard is being proposed for revision because it is poorly formatted, ambiguous, omits coverage of several areas needing fall protection and is misnamed. The standard has resulted in industry and trade confusion as well as compliance officer misapplication because of its present format and language.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b); 40 USC 333

CFR Citation: 29 CFR 1926.800

Abstract: The existing standards may be revised to update the treatment of hazards of construction in underground locations such as tunnels, shafts, chambers, passageways and covered excavations. In some cases, the existing standard may be too restrictive. Additionally, some of the language is ambiguous.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b); 40 USC 333 Sec 107

CFR Citation: 29 CFR 1926

Abstract: The current OSHA standard incorporates the old (1971) National Electrical Code by reference and is in need of updating. The agency is examining the rule in light of repeated criticisms that many details in the present standard either conflict with or limit the implementation of current construction practices.

1486. SAFETY TESTING OR CERTIFICATION OF CERTAIN WORKPLACE EQUIPMENT AND MATERIALS (FORMERLY ENTITLED ACCREDITATION OF TESTING LABORATORIES)

Legal Authority: 29 USC 655; 29 USC 657

CFR Citation: 29 CFR 1936; 29 CFR 1907; 29 CFR 1910; 29 CFR 1935

Abstract: This proposal addresses various requirements in the General Industry standards (Part 1910) for either "safety testing" of certain workplace equipment and materials or the use of equipment/materials "certified for safety." It would include many self-regulatory and standards-developing efforts in the private sector and use already existing systems (in private sector or Government) for (1) the accreditation of testing laboratories and third-party certification programs, and (2) the certification for safety of workplace equipment. New Part 1936 would affect only applicants seeking system recognition by OSHA. New Part 1935 would contain those test methods/procedures already specified in OSHA standards or adopted through 6(b) rulemaking. Amended Part 1910 would (1) clarify employer responsibilities, (2) require valid test results or certifications, and (3) provide uniformity in OSHA terminology for several already-existing requirements and definitions. The remainder of Part 1907 would be revoked.

1487. CRANE OR DERRICK SUSPENDED PERSONNEL PLATFORMS (CONSTRUCTION)

Significance: Regulatory Program

Legal Authority: 29 USC 655

CFR Citation: 29 CFR 1926.550(g)

Abstract: The use of cranes and derricks to suspend personnel in platforms is a hazardous operation that is not currently covered by OSHA Construction Standards. OSHA has issued administrative instructions on this practice, but this alternative to rulemaking has not been successful. This NPRM has been developed to reduce the number of accidents, many of which involve multiple fatalities, that result from equipment inadequacies and failures or improper work practices. Data to determine the potential costs and benefits from this rulemaking are currently being collected by OSHA's Office of Regulatory Analysis.

1494. LOGGING

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.266, (Revision)

Abstract: Logging is a very hazardous industry. It has an incidence rate nearly twice that of manufacturing, and reflecting the seriousness of the injuries incurred, a lost workday rate nearly four times as high. The purpose of the standard will be to protect workers from the ever-present hazards of chain saw operation, falling objects (trees, branches), rolling or sliding logs, falls from trees, and materials handling accidents. At present there is no OSHA standard specifically applicable to logging in general. There is a standard, 29 CFR 1910.266, applicable only to pulpwood logging; however, pulpwood is logging estimated to account for less than half of the logging activity in the United States. Development of a national OSHA standard addressing all types of logging will provide coverage for those loggers not now protected. The new regulation will provide coverage where there is no approved state regulation and will set a minimum safety level for those states that chose to develop a state regulation.

1495. CONTROL OF HAZARDOUS ENERGY SOURCES (LOCKOUT/TAGOUT) (GENERAL INDUSTRY)

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910, (New)

Abstract: The proposed standard will fill a major gap in our current regulations which now depend for enforcement on the general duty clause, 5(a)(1). It will apply to those situations where the unexpected energization, start up or the release of stored energy would cause injury to employees. Providing comprehensive and uniform control procedures is also expected to reduce significantly the potential for injury and death of employees because the hazards targeted for control exist in virtually every workplace. Further, the proposed standard will respond to the concerns of organized labor who petitioned OSHA in 1979 and again in 1982 for regulatory action to protect employees and to the American National Standards Institute's petition for OSHA to adopt its consensus standard ANSI Z244.1-1982. Regulatory options involve developing a comprehensive standard covering all potentially hazardous energy sources or limiting the scope and application to those certain machines or industries that are causing most of the injuries. The potential cost and benefits cannot be assessed until a regulatory impact analysis is conducted.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

Abstract: This regulatory action will remove an existing provision which prohibits Presence Sensing Device Initiation of Mechanical power presses, and will add provisions which will enable the Presence Sensing Device Initiation to be done safely. Presence Sensing Device Initiation has been identified as presenting potential increases in safety and productivity with an ergonomic advantage of less worker fatigue. Significance: Regulatory Program

Legal Authority: 29 USC 655 (Occupational Safety and Health Act of 1970); 33 USC 941 (Longshoremen's and Harborworkers Compensation Act)

CFR Citation: 29 CFR 1915, (Recodification)

Abstract: The purpose of this action would be to place unrevised in Part 1915, all OSHA Part 1910 General Industry Standards that are not now located in Part 1915, but that relate to the work undertaken in shipyard employment, thereby creating a vertical standard.

The Action is essentially only bookkeeping, i.e., moving standards, unchanged from one location in the CFR to another -- from Part 1910 to Part 1915. It can therefore be done without a proposed rule, and will be published as a final rule. It will end the long standing confusion over the application of OSHA standards to this industry among employers, employees, and OSHA compliance staff.

As these are existing standards, there are no potential costs. This inclusion project will be coordinated with the project designed to revise Part 1915.

Significance: Regulatory Program

Legal Authority: 29 USC 655 (Occupational Safety and Health Act of 1970); 33 USC 941 (Longshoremen's and Harborworkers Compensation Act)

CFR Citation: 29 CFR 1910.16; 29 CFR 1918, (Revision)

Abstract: The purpose of this regulatory action would be to update and revise a standard first issued in 1960. The current language in many instances addresses the hazards to cargo handling involving methods long since abandoned, and fails to address the serious hazards of newer methods. Because so much of the current standard is out of date, compliance is minimal. These revised guidelines will provide both employers and employees with a blueprint for effective and safe workpractices in the cargo handling industry.

No other alternative other than revision is contemplated. The current standard is too outdated to serve as a basis for increased consultation, training or education. The annual cost of the revision is expected to be minimal -- less than five million dollars.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b); 40 USC 333

CFR Citation: 29 CFR 1926.1050 to 1926.1051

Abstract: The use of stairways and ladders during construction can be extremely hazardous for employees. OSHA presently has regulations covering the construction, use, and maintenance of stairways and ladders, used on construction worksites. However, this NPRM has been developed to streamline those requirements and to reduce the number of accidents that result from insufficient fall protection provisions. 1500. 4,4'-METHYLENEDIANILINE

Significance: Regulatory Program

Legal Authority: 29 USC 655(b); 29 USC 657

CFR Citation: Not yet determined

Abstract: 4,4'-Methylenedianiline (MDA) is a chemical used primarily to manufacture methylenediphenyl diisocyanate, which is the used to make polyurethane foams and elastomers. Recent scientific data indicate that MDA is a carcinogen in animals and a potential carcinogen in humans. In 1983, OSHA and the Environmental Protection Agency participated in a joint effort to publish an advance notice of proposed rulemaking to solicit information on MDA production and use, estimates of environmental and occupational exposure, and studies of its toxic and carcinogenic effects. EPA has evaluated the data received in

response to the advance notice and has concluded that the chemical presents an unreasonable risk of injury to the health of exposed workers. Under the provisions of section 9(a) of the Toxic Substances Control Act, EPA has referred MDA to OSHA for regulatory action. OSHA has 180 days to respond to EPA. OSHA plans to appoint a negotiated rulemaking advisory committee to consider development of a proposed standard for MDA. There is no current OSHA standard governing MDA exposure.

Abstract: A major area of coverage not addressed in the current OSHA electrical standards for general industry (29 CFR 1910) involves the maintenance and operation practices associated with electrical transmission and distribution lines, substations and generating stations. Significance: Regulatory Program

Legal Authority: 29 USC 655; 33 USC 941

CFR Citation: 29 CFR 1915.71 to .90, (Revision)

Abstract: This regulatory action will revise the existing shipyard standards covering access and egress and will consolidate all related and applicable 29 CFR 1910 provisions into 29 CFR 1915. The revision will develop, in part, performance-oriented standards, address current gaps in coverage, address new technology, and eliminate outmoded and redundant provisions.

1507. PERSONAL PROTECTIVE EQUIPMENT (FACE, HEAD, AND EYE PROTECTION) (GENERAL INDUSTRY)

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910

Abstract: Existing standards for eye, face, and head protection reference outdated national consensus standards which have been updated and improved. Consequently, criteria for personal protective equipment for eye, face, and head would be revised to reflect improved developments in these equipment. This would allow the use of better personal protective equipment and would result in improved employee protection from eye, face, and head hazards.

1508. WELDING, CUTTING AND BRAZING (GENERAL INDUSTRY)

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910

Abstract: OSHA proposes to revise and update its existing Subpart Q covering welding, cutting and brazing operations, and to develop performance-oriented standards designed to reduce the number of deaths and injuries due to unsafe equipment and unsafe operations. There has been no substantial revision to Subpart Q since its adoption in 1971. A complete and comprehensive revision of the present is needed at this time to bring the standard into line with the current state-of-the-art and updated consensus standards.

Significance: Regulatory Program

Legal Authority: 29 USC 655; 33 USC 941

CFR Citation: 29 CFR 1915.51 to .54, (Revision)

Abstract: This regulatory action will revise the existing shipyard standard covering welding, cutting, and heating. The revision will develop, in part, a performance-oriented standard, address current gaps in coverage, recognize new technology, and eliminate outmoded or redundant provisions. In addition, it will consolidate 29 CFR 1915 standards and applicable 29 CFR 1910 standards into one set of provisions.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b); 40 USC 333

CFR Citation: 29 CFR 1926.803

Abstract: The purpose of this action is to investigate the claims that the current decompression tables for tunneling are inadequate. If these claims are valid, OSHA would proceed to develop and implement a set of decompression tables which would be safer than the current tables in that the revised tables would be reasonably expected to produce a reduction in the incidence and severity of decompression sickness, especially dysbaric osteonecrosis.

1514. ● FORMALDEHYDE

Significance: Regulatory Program

Legal Authority: 29 USC 655(b); 29 USC 657

CFR Citation: 00 CFR "Not yet determined"

Abstract: Information that has become available since 1971 indicates adverse health effects in humans and animals exposed to airborne formaldehyde at concentrations permitted by OSHA's present standard. In humans, formaldehyde causes reversible sensory irritation of the eyes, nose, and throat of some persons at concentrations of about 1 ppm. As concentration increases, the prevalence and severity of effects increase. A chronic study in animals suggests that formaldehyde may also pose a carcinogenic risk since a statistically significant excess risk of cancer occurred at 5.6 and 14.3 ppm,

and benign tumors and cytotoxic changes occurred at 2 ppm. This information indicates that the present OSHA standard for formaldehyde may need revision. In an April 17, 1985, Federal Register notice, OSHA announced its intention to initiate rulemaking on formaldehyde.

Significance: Regulatory Program

Legal Authority: 29 USC 655 Occupational Safety and Health Act of 1970; 33 USC 941 Longshoremen's and Harborworkers Compensation Act

CFR Citation: 29 CFR 1915.97, (Revision)

Abstract: When OSHA promulgated the Hazard Communication Standard (29 CFR 1910.1200), it placed a requirement upon the shipbuilding and ship repairing industries (SIC 37) to make Material Safety Data Sheets (MSDS) available to employees. Current OSHA regulations at 29 CFR 1915.97 already require similar but somewhat conflicting MSDS from these industries. This action would eliminate regulation duplication by deleting from 29 CFR 1915.97 the requirement for MSDS for shipbuilding and ship repairing leaving the Hazard Communication Standard requirement to stand alone. As this is deregulation, there are no potential costs. There will be a small savings.

Significance: Agency Priority

Legal Authority: 29 USC 655(b); 29 USC 657

CFR Citation: 29 CFR 1200

Abstract: On May 24, 1985, the U.S. Court of Appeals for the Third Circuit directed the Secretary of Labor to reconsider the definition of "trade secret" in the Hazard Communication Standard, and to extend access to trade secrets to employees and collective bargaining agents. The purpose of this action is to respond to the Court's direction, and make appropriate modifications to the final rule. Potential costs of these modifications are not known yet, but will be assessed as the rule is developed.

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1928

Abstract: OSHA is considering amending 29 CFR 1928 (Standards for Agriculture) to require employers to provide sanitation facilities for agricultural employees working in the field. OSHA is taking this action in compliance with an order of the District Court for the District of Columbia and a negotiated settlement with the Migrant Legal Action Program which requires the Agency to make a good faith effort to complete a field sanitation standard or to publish a determination that no such standard is needed. On April 16, 1985, OSHA published notice of its determination that a federal field sanitation standard was not needed.

1522. FOREIGN MISSIONS ACT REGULATIONS

Significance: Regulatory Program

Legal Authority: 22 USC 4301 et seq; 22 USC 254(e)

CFR Citation: Not yet determined

Abstract: The Foreign Missions Act creates certain authorities for the Secretary of State relating to the regulation of foreign missions, diplomatic, consular, and international organizations. Exercise of those authorities could involve restricting or controlling the access of such missions to American vendors of goods and services. Exercise of other authorities in the Foreign Missions Act could affect the location of premises of foreign missions. Exercise of authority in the Diplomatic Relations Act, 22 USC 254(a) et seq., as amended by Title VI of P.L. 98-164, will have an impact on the acquisition of liability insurance coverage for the operation of motor vehicles, vessels, and aircraft by personnel of foreign missions, and could in certain situations, subject foreign missions to surcharges or fees. The regulations under consideration would provide procedures for exercise of these authorities. These regulations are at the stage of preliminary consideration. No timetable has been established other than that established in Title VI of P.L. 98-164.

1523. ● GUIDELINES FOR EXTRAORDINARY PROTECTION OF FOREIGN MISSIONS

Significance: Regulatory Program

Legal Authority: 22 USC 4314; PL 99-93, Sec 126

CFR Citation: 22 CFR Not yet determined

Abstract: In some cases where the Secretary of State has requested extraordinary protective services, such as fixed guardposts at a building or residence, or dedicated bodyguard protection for a foreign official who has been specifically threatened, some local authorities have either declined or been unable to provide such protection.

Through the Foreign Missions Act and the Foreign Missions Act Amendments of 1985, Congress has authorized the Secretary of State to provide, among other benefits, protective services to foreign missions. Thus, the Secretary may arrange with State and local authorities for extraordinary protection for foreign officials where necessary, either by request of local authorities or on the Secretary's initiative.

For fiscal year 1986, $2.6 million has been requested in addition to amounts for reimbursement to New York, a program previously administered by the Treasury Department.

1524. ● IMPLEMENTATION OF 1980 HAGUE CONVENTION ON THE CIVIL ASPECTS OF INTERNATIONAL CHILD ABDUCTION

Significance: Regulatory Program

Legal Authority: None, until passage of treaty

CFR Citation: 22 CFR Not yet determined

Abstract: The 1980 Hague Convention provides for the prompt return of children habitually resident in one contracting State who have been wrongfully abducted to another, including wrongful retention by a non-custodial parent.

If the United States ratifies the Convention and Congress enacts the federal legislation, the Bureau of Consular Affairs will be tasked by executive order to serve as U.S. central authority (CA) under the Convention.

Thus it will receive applications for the return of children wrongfully abducted to or retained in the United States. In conjunction with cooperating authorities in the U.S. State where the child is believed to be located, the CA's task will include seeking to locate the child, facilitating the initiation of a court action to require the child's return, arranging for the provision of information about the child's circumstances in the country of its habitual residence, and arranging for the child's return transportation if return is ordered.

AGENCY: Department of Transportation.

ACTION: Department regulations agenda.

SUMMARY: The Regulations Agenda is a semiannual summary of all current and projected rulemakings, reviews of existing regulations and completed actions of the Department. These are matters on which action has begun or is projected during the succeeding twelve months or such longer period as may be anticipated, or for which action has been completed since the last Agenda. The Agenda provides the public with information about the Department of Transportation's regulatory activity. It is expected that this information will enable the public to be more aware of, and allow it to more effectively participate in, the Department's regulatory activity.

ADDRESSES: The mailing address for the initiating offices of the Department which appear in the Agenda are 400 Seventh Street, S.W., Washington, D.C. 20590, except for the Federal Aviation Administration which is located at 800 Independence Avenue, S.W., Washington, D.C. 20591; the U.S. Coast Guard, which is located at 2100 Second Street, S.W., Washington, D.C. 20593; and the Saint Lawrence Seaway Development Corporation, which is located at 400 Seventh Street, S.W., Box 44090, Washington, D.C. 20026-4090.

Background

Improvement of government regulations is a prime goal of the Reagan Administration. There should be no more regulations than necessary, and those that are issued should be simpler, more comprehensible, and less burdensome. Regulations should not be issued without appropriate involvement of the public; once issued, they should be periodically reviewed and revised, as needed, to assure that they continue to meet the needs for which they originally were designed.

To help the Department of Transportation ("Department") achieve these goals, and in accordance with Executive Order 12291 ("Federal Regulation"; 46 FR 13193; February 19, 1981) and the Department's Regulatory Policies and Procedures (44 FR 11034; February 26, 1979), the Department prepares a semiannual Regulations Agenda for publication in the **Federal Register**. The Agenda summarizes all current and projected rulemaking, reviews of existing regulations and completed actions of the Department. These are matters on which action has begun or is projected during the succeeding twelve months or such longer period as may be anticipated or for which action has been completed since the last Agenda.

The Agendas are based on reports submitted by the initiating offices in January and July each year. After these reports are consolidated for, and reviewed by, the Department Regulations Council, the Department's Regulations Agenda is prepared and published in the **Federal Register**. The Department's last Agenda was published in the **Federal Register** on April 29, 1985 (50 FR 17472). The next one is scheduled for publication in the **Federal Register** in April 1986.

Regulatory Flexibility Act

In 1980, Congress passed the Regulatory Flexibility Act (RFA), Pub. L. 96-354, which requires the designation of those regulations for which a Regulatory Flexibility Analysis will be prepared, i.e., those regulations that would have a significant economic impact on a substantial number of small entities. The heading "Small Entity" will indicate whether a Regulatory Flexibility Analysis is required by a "yes" or a "no." If a regulatory flexibility analysis will be prepared for a particular rulemaking, that fact also will be noted under the heading "Analysis."

The RFA also requires that each year the Department publish a list of those regulations that have a significant economic impact on a substantial number of small entities and are to be reviewed under the Act during the succeeding twelve months. The Agenda includes those regulations to be reviewed under the RFA or those for which review has been concluded since the last Agenda. A "yes" or "no" will be found under the heading "small entity," for each such regulation. It should be noted, however, that after a preliminary assessment of the regulations listed for RFA review, it may be found that the regulations, in fact, do not have a significant economic impact on a substantial number of small entities and a full RFA review will be unnecessary.

DOT

Definitions

The Agenda covers all rules and regulations of the Department, including those that establish conditions for financial assistance. The following definitions are provided for ease in understanding the information in this document.

(1) *Initiating office* means an operating administration or other organizational element within the Department, the head of which is authorized by law or delegation to issue regulations or to formulate regulations for issuance by the Secretary.

(2) *Significant regulation* means a regulation that is not an emergency regulation and that in the judgment of the head of the initiating office, or the Secretary, or the Deputy Secretary

(a) Is a major regulation;

(b) Concerns a matter on which there is substantial public interest or controversy;

(c) Has a major impact on another operating administration or other parts of the Department or other Federal Agency;

(d) Has a substantial effect on State and local governments;

(e) Has a substantial impact on a major transportation safety problem;

(f) Initiates a substantial regulatory program or change in policy;

(g) Is substantially different from international requirements or standards; or

(h) Otherwise involves important Department policy.

(3) *Major regulation* means a significant regulation for which a Regulatory Impact Analysis is required to be prepared.

(4) *Emergency regulation* means (a) a regulation that, in the judgment of the head of the initiating office, circumstances require to be issued without notice and opportunity for public comment or made effective in less than 30 days after publication in the Federal Register; or (b) is governed by short-term statutory or judicial deadlines.

(5) *Nonsignificant regulation* means a regulation that, in the judgment of the head of the initiating office, is neither a significant nor an emergency regulation.

A preliminary and final Regulatory Impact Analysis is required for each proposed and final regulation, respectively that

(1) Is likely to result in:

(a) An annual effect on the economy of $100 million or more;

(b) A major effect on the general economy in terms of costs, consumer prices, or production;

(c) A major increase in costs or prices for consumers; individual industries; Federal, State, or local government agencies; or geographic regions;

(d) Significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets; or

(2) The Secretary or head of the initiating office determines deserves such an analysis.

Explanation of Information on the Agenda

The format for this Agenda is required by Office of Management and Budget Bulletin No. 85-21 (July 15, 1985).

First, the Agenda is divided by initiating offices. Then, in accordance with the OMB Bulletin, for each initiating office the Agenda is divided into three categories: (1) current and projected rulemakings, (2) reviews of existing regulations, and (3) completed actions. These categories are further subdivided into significant and nonsignificant rulemakings (or regulations). For each entry, the Agenda provides the following information: (1) a short descriptive title; (2) the legal basis for the action being taken or the regulation being reviewed; (3) the related regulatory citation in the Code of Federal Regulations; (4) an abstract of the review or the proposed or final regulation; (5) a timetable, including the earliest expected date for a decision on whether to issue the proposed or final regulation, or complete the review and determine the corrective action to be taken. (The action taken can be revocation or revision of the regulation, or it can be a determination that no regulatory action is necessary because the regulation is found to be achieving its goals and the goals and objectives of Executive Order 12291 and the Department's Regulatory Policies and Procedures.); (6) a statement as to whether the Regulatory Flexibility Act applies because of the rulemaking's effect on small entities; (7) if there is information that does not fit in the other categories, it will be included under a separate heading, entitled "Additional Information"; (8) a listing of any analyses an initiating office will prepare or has prepared for the rulemaking document; e.g., a Regulatory Impact Analysis or Evaluation, an Environmental Impact Statement (EIS), a Regulatory Flexibility Analysis, or an Urban Impact Analysis. (It should be noted that, even though a Regulatory Impact Analysis is not required for some items on the Agenda, the Department requires an economic analysis for all of its regulations. This economic analysis is contained in the Regulatory Evaluation if a Regulatory Impact Analysis is not prepared); (9) an agency contact office or official who can provide further information, including advice on how how to obtain documents referenced in the Agenda; and (10) a "RIN" number assigned solely to identify an individual action in the Agenda.

For nonsignificant regulations issued routinely and frequently as a part of an established body of technical requirements (such as the Federal Aviation Administration's Airspace Rules) to keep those requirements operationally current, only the general category of the regulations, the identity of a contact office or official, and an indication of the expected number of regulations are included; individual regulations are not listed.

If a regulatory docket number has already been established, it may be provided under the "Additional Information" heading. If a member of the public desires further information regarding a particular proposal or regulation, reference should be made to this docket number.

In the "Timetable" column, abbreviations are used to indicate the particular documents being considered for issuance by that date. ANPRM stands for Advance Notice of Proposed Rulemaking, SNPRM for Supplemental Notice of Proposed Rulemaking, NPRM for Notice of Proposed Rulemaking, and FR for Final Rule. Listing a future date in this column is not an indication that a proposed or a final rule will be issued on that date; it is the earliest date on which a decision is expected to be made on whether to issue the document listed. Submittal of any proposed or final rule to the Office of Management and Budget

for review, under Executive Order 12291, must follow such a decision. For major rules, this review could take 60 days or more. If any document is issued, publication in the **Federal Register** would follow within a few days. In addition, these dates are based on current schedules. Information received subsequent to the issuance of this Agenda could result in a decision not to take regulatory action or in changes to proposed publication dates. For example, the need for further evaluation could result in a later publication date; evidence of a greater need for the regulation could result in an earlier publication date.

It should be noted that some of the items on the Agenda result from programs that were established to review existing regulations and revoke or revise those regulations that the initiating office determined were not achieving their intended purpose. Projects under regulatory development that resulted from a review of existing regulations to determine whether they should be revoked or revised are preceded by the word "Review" in the "Title" column. Because some reviews can be large-scale undertakings, and because there are already a number of these in the regulatory development process, the Department thought it would provide the public with valuable information if it indicated not only which regulatory reviews are under consideration but also which reviews have now reached the stage where proposed revisions are being, or have been, prepared. The number of regulatory projects that an initiating office can handle is limited by available resources. Therefore, the number of projects in the regulatory development stage may limit the number of reviews that can be added.

General

To allow for easier use of the Agenda and for quick comparison with earlier Agendas, the Department has instituted the following additional procedures in the Agenda: (1) Items listed on the Agenda retain the same order in each semiannual publication. If subheadings are used within an initiating office's listing, then the same order is retained within each subheading. (2) New items generally are added at the end of the appropriate portion of the Agenda. A dot (●) preceding an entry indicates that the entry appears in its present section of the Agenda for the first time.

Civil Aeronautics Board

The Civil Aeronautics Board (CAB) ceased operations on December 31, 1984. Under the Federal Aviation Act, as amended, most of the continuing functions transferred to the Department of Transportation. As explicitly noted in the "Civil Aeronautics Board Sunset Act of 1984" (Pub. L. 98-443, October 4, 1984), most of the CAB rules and pending rulemakings were carried over to DOT intact.

ER-, EDR-, SPR-, SPDR-, and similar designations appearing in parentheses were the internal designations for final rules and proposed rules used by the Civil Aeronautics Board. NPRMs and final rules issued by the Department relating to aviation economic matters are referenced with the DOT internal designation system. Docket numbers, however, remain the same as assigned by the CAB if the proceeding was initiated by that agency.

Mailing Lists for Regulatory Documents

To assist the public in obtaining regulatory documents issued within the Department of Transportation, an Appendix A has been included in this document. The appendix contains instructions on how to be placed on mailing lists for copies of regulatory documents, including the Department's Semiannual Regulations Agenda, issued by the operating administrations of the Department and the Office of the Secretary. There is no charge for this service; however, because of the costs involved, the number of copies of a document forwarded to an individual requestor may be limited. Persons already on mailing lists for particular documents within the Department will remain on those lists and should not reapply.

By following the instructions specified in the appendix, a person can be placed on a mailing list for future copies of the Department's Regulations Agenda, which will be updated and published in the **Federal Register** every year during April and October. By using the Agenda, individuals can determine which Notice or Advance Notice of Proposed Rulemaking, to be issued by elements of the Department, is of interest to them. Then, using the instructions in the appendix, such persons also can be placed on a mailing list to ensure that, after the document of interest is issued, a copy will be mailed to them for their review and comment. In this way, individuals will be relieved of the burden of having to review the **Federal Register**, perhaps on a daily basis. The Department expects that this process will ensure that those people placed on mailing lists will receive early notice so that their views on the document can be adequately prepared and presented within the established comment period.

General Rulemaking Contact Persons

To assist persons desiring to obtain general information concerning the rulemaking process within the Department's operating administrations, an Appendix B has been added to the Agenda. This appendix sets forth the addresses and the telephone numbers of the persons who can respond quickly to requests for general rulemaking information. Please note, however, that questions related to particular rulemaking actions should still be referred to the contact person listed with the particular rulemaking on the Agenda.

Public Rulemaking Dockets

To facilitate the inspection of docket files and the submission of comments by the public, an Appendix C sets forth the addresses and working hours for the Rules Docket for each operating administration.

Request for Comments

Agenda

Our Agenda is intended primarily for the use of the public. Since its inception, we have made modifications and refinements that we believe provide the public with more helpful information as well as make the Agenda easier to use. We would also like you, the public, to make suggestions or comments on how the Agenda could be further improved. For example, do you find the information presented in an easily understandable manner? Do you find it easy to follow a regulation's development from Agenda to Agenda? Do you find that the format for setting out the information enables you to use the Agenda easily? Do you find that the explanation of the information in the Agenda is clearly explained in the preamble to the Agenda? Your responses to these questions or any other comments or suggestions you may have should be sent to Neil R. Eisner, whose address appears above.

Reviews

In an effort to comply further with the spirit of Executive Order 12291 and the

Regulatory Flexibility Act, we are also seeking suggestions on existing regulations that should be included in our review of existing regulations list; that is, which existing regulations issued by an operating administration of the Department or the Office of the Secretary do you believe need to be reviewed to determine whether they should be revised or revoked? The Department is particularly interested in obtaining information on requirements that have a "significant economic impact on small entities" and therefore, must be reviewed under the Regulatory Flexibility Act. If you have any suggested regulations, please send them, along with your explanation of why they should be reviewed, to the concerned operating administration or the Office of the Secretary, at the appropriate address noted in the "Addresses" paragraph above.

In accordance with the Regulatory Flexibility Act, comments are specifically invited on regulations that are targeted for review under the RFA. Those comments should be addressed to the "contact" person of the operating administration involved, at the appropriate address noted in the "Addresses" paragraph above.

Purpose

The Department is publishing this Regulations Agenda in the Federal Register to share with interested members of the public the Department's preliminary expectations regarding its future regulatory actions. This should enable the public to be more aware of the Department's regulatory activity. Knowledge of the nature and scope of this activity, as well as the specific proposals and reviews being considered, should result in more effective public participation in the Department's regulatory activity. For example, awareness of the dates when notices may be issued seeking public comment should allow appropriate planning and more efficient use of the comment period. By providing the expected date for a decision on whether to issue a final rule, the Department expects that more appropriate planning by those concerned with the regulation will also be possible. This publication in the Federal Register does not impose any binding obligation on the Department, or any of the offices within the Department, with regard to any specific item on the Agenda or the Review List. Regulatory action in addition to the items listed is not precluded. If further information is desired on any of the items listed in the Agenda or the Review List, the public is encouraged to contact the individual listed for the particular item. Additional information concerning the Agenda, in general, or the Department's Regulatory Policies and Procedures may be obtained from Neil R. Eisner, whose address and telephone number appear above.

Issued in Washington, D.C. on September 16, 1985.

Elizabeth Hanford Dole,

Secretary of Transportation.

Appendix A - Instructions for Obtaining Copies of Regulatory Documents

United States Coast Guard (USCG)

Persons who desire to obtain a copy of any regulatory document to be issued by the USCG that is listed in this Agenda should communicate with the contact person listed with the regulation either by telephone or by letter to the contact person at the following address: (Name of contact person), United States Coast Guard, 2100 Second Street, S.W., Washington, D.C. 20593.

Federal Aviation Administration (FAA)

The FAA has a mailing list system for Notices and Advance Notices of Proposed Rulemaking (NPRMs and ANPRMs). Persons interested in obtaining future copies of all of those documents to be issued by the FAA or only of those concerning certain parts of the Federal Aviation Regulations should request a copy of Advisory Circular No. 11-2, which describes the application procedure, by calling 202-426-8058 or by writing to: Federal Aviation Administration, Office of Public Affairs. Attention: Public Information Center, APA-430, 800 Independence Avenue, S.W., Washington, D.C. 20591.

Federal Highway Administration (FHWA)

The FHWA maintains a consumer mailing list for individuals and agencies wishing to routinely receive Federal-aid highway related rulemaking actions. Persons may selectively choose to receive rulemaking materials in a number of separately identified program categories from the Code of Federal Regulations, Title 23. Those wishing to take advantage of the FHWA consumer mailing list may obtain additional information by writing to: Consumer Affairs Representative, Office of Public Affairs, Room 4208, Federal Highway Administration, 400 7th Street, S.W., Washington, D.C. 20590.

Persons who desire to obtain a copy of any regulatory document to be issued by the FHWA that is listed in this Agenda should communicate with the contact person listed with the regulation either by telephone or by letter to the contact person at the following address: (Name of contact person), Federal Highway Administration, 400 7th Street, S.W., Washington, D.C. 20590.

Federal Railroad Administration (FRA)

Persons who desire to obtain a copy of any regulatory document to be issued by the FRA that is listed in this Agenda should communicate with the contact person listed with the regulation either by telephone or by letter to the contact person at the following address: (Name of contact person), Federal Railroad Administration, 400 7th Street, S.W., Washington, D.C. 20590.

National Highway Traffic Safety Administration (NHTSA)

Persons who desire to obtain a copy of any other regulatory document to be issued by the NHTSA that is listed in this Agenda should communicate with the contact person listed with the regulation either by telephone or by letter to the contact person at the following address: (Name of contact person), National Highway Traffic Safety Administration, 400 7th Street, S.W., Washington, D.C. 20590.

Urban Mass Transportation Administration (UMTA)

Persons who desire to obtain a copy of any regulatory document to be issued by UMTA that is listed in this Agenda should communicate with the contact person listed with the regulation either by telephone or by letter to the contact person at the following address: (Name of contact person), Urban Mass Transit Administration, 400 7th Street, S.W., Washington, D.C. 20590.

Saint Lawrence Seaway Development Corporation (SLSDC)

Persons who desire to obtain a copy of any regulatory document to be issued by SLSDC that is listed in this Agenda should communicate with the contact person listed with the regulation either by telephone or by letter to the contact person at the address specified below: (Name of contact person), Saint

Lawrence Seaway Development Corporation, 400 7th Street, S.W., Room 5424, P.O. Box 44090, Washington, D.C. 20026-4090.

Research and Special Programs Administration (RSPA)

Persons wishing to be placed on mailing lists for regulatory documents to be issued by RSPA should contact: Mr. Roosevelt McKinley, Jr., Information Services Division, DMT-11, 400 7th Street, S.W., Washington, D.C. 20590.

Maritime Administration (MARAD)

Any one desiring a copy of a MARAD regulatory document referred to in the Agenda may request a copy of that document by contacting Mrs. Georgia Stamas, Secretary, Maritime Administration, 400 Seventh Street, S.W. (Room 7300), Washington, D.C. 20590, (202) 426-5746.

Office of the Secretary (OST)

Persons desiring to receive future copies of the Regulations Agenda should submit their request to: Assistant General Counsel for Regulation and Enforcement, C-50, Office of the General Counsel, Department of Transportation, Washington, D.C. 20590, (202) 426-4723.

Persons who have an interest in specific regulatory documents to be issued by the Office of the Secretary should forward requests for copies of those documents to the same address. These requests should fully identify the document desired. Persons requesting a rulemaking document on an aviation matter (of the kind formerly handled by the CAB) will be placed on a mailing list for all OST aviation related rulemakings.

Appendix B - General Rulemaking Contact Persons

The following is a list of persons who can be contacted within the Department for general information concerning the rulemaking process within the various operating administrations.

USCG - Capt. Chris Holland, Marine Safety Council, USCG Headquarters Building, Room 4402, 2100 Second Street, S.W., Washington, D.C. 20593. Telephone: 202/426-1477.

1525. ALLOCATION OF "SLOTS" AT WASHINGTON NATIONAL AIRPORT

Significance: Agency Priority

Legal Authority: 49 USC 1303; 49 USC 1347; 49 USC 1348(a); 49 USC 1354(a); Act for the Administration of Washington Natl Airport, Sec 2

CFR Citation: 14 CFR 93

Abstract: Proposed amendment to establish procedures for allocating the hourly number of instrument flight operations (takeoffs and landings) or "slots" that may be reserved at Washington National Airport (WNA) in accordance with the FAA's High Density Rule. This proposal is considered a significant rulemaking project due to substantial public interest and potential costs to airlines. The Department of Justice has expressed concerns about continuing the antitrust immunity under which the airline scheduling committees currently allocate slots at WNA. A new method of allocation may become necessary.

Additional Information: The CAB in conjunction with the FAA commissioned the Polinomics Research Laboratories, Inc., to research the allocation problem. A report of its findings has been prepared. Another report by Econ, Inc., analyzing a slot allocation auction procedure has been prepared under an FAA contract. The emergency regulation was published in the Federal Register on November 3, 1980 (45 FR 72637). The NPRM for a long term solution to the slot allocation problem was issued on October 27, 1980 (45 FR 71236). A public hearing was held on February 13, 1981, and the comment period was extended until

February 26, 1981 (46 FR 932, January 5, 1981). On June 1, 1984, the FAA issued NPRM 84-6, dealing with slot transfers among carriers, and NPRM 84-7 proposing a slot allocation method for use if a scheduling committee should fail to allocate slots. These NPRMs are discussed in the FAA portion of the agenda.The withdrawal of this NPRM might be accomplished in conjunction with final action on NPRMs 84-6 and 84-7.

1526. NONDISCRIMINATION ON THE BASIS OF HANDICAP (MASS TRANSIT PROGRAMS)

Significance: Regulatory Program

Legal Authority: 29 USC 794 Rehabilitation Act of 1973, as amended; 49 USC 1612(a) Urban Mass Trans. Act of 1964, as amended; 23 USC 142 Note Federal-aid Highway Act of 1973, as amended; 49 USC 1612(d) Urban Mass Trans. Act of 1964, as amended

CFR Citation: 49 CFR 27

Abstract: The Department's rule concerning mass transit service for handicapped persons is currently an interim final rule published July 20, 1981 (48 FR 37488). This rule was issued after a court decision said that section 504 did not authorize the Department's previous mass transit requirements. In 1983, Congress enacted section 317(c) of the Surface Transportation Assistance Act of 1982, which requires the Department to publish a new rule. The Department published an NPRM for this new rule on September 8, 1983 (48 FR 40684). The Department will review the comments and publish a final rule based on this NPRM.

1527. REVIEW: MINORITY BUSINESS ENTERPRISE PROGRAM (FINANCIAL ASSISTANCE PROGRAMS)

Significance: Agency Priority

Legal Authority: 42 USC 2000d Civil Rights Act of 1964, Title VI; 49 USC 1730; 45 USC 906; 49 USC 1615; PL 97-424, Sec 105(f)

CFR Citation: 49 CFR 23

Abstract: The Department is reviewing its regulation establishing a minority business enterprise (MBE) program in its financial assistance programs (49 CFR Part 23). This regulation has been controversial, is of interest to most DOT grant recipients and contractors, and affects the operations of all DOT financial assistance programs. As part of the Administration's program of reviewing regulations that are costly or controversial, the Department has decided that it is necessary to consider revisions of the existing rule. The aim of the revisions would be to reduce regulatory burdens associated with the present rule and clarify the administration of some provisions about which questions have been raised. On the basis of this review, the Department intends to publish from time to time, proposed rules to improve various aspects of the way the program is administered. This review is to improve the administration of the existing program, and it is not intended to affect the major policy provisions of the regulation.

1528. PUBLIC AVAILABILITY OF INFORMATION

Significance: Agency Priority

Legal Authority: 5 USC 552 Freedom of Information Act

CFR Citation: 49 CFR 7

Abstract: This involves a revision of DOT's Freedom of Information Act regulations. Specific areas to be addressed include fees to be charged for search and reproduction costs and the establishment of more precise criteria to enable the Department to determine when a waiver of fees is in the public interest. It would also address records relating to those functions of the Civil Aeronautics Board that were transferred to the Department. This rulemaking is significant because of substantial public interest. It is needed because the Freedom of Information Regulations need periodic revision to keep current with changes in case law, policy, and implementation costs.

Abstract: The Civil Aeronautics Board (CAB) has a regulation providing protection of the rights of handicapped air travellers. Based on recent Congressional action, DOT began enforcing this regulation on January 1, 1985. DOT has prepared and transmitted to the Department of Justice, for review under E.O. 12250, an NPRM that would extend to passengers on all airlines the provisions of subparts B and C of the rule, which now apply only to subsidized carriers. This NPRM would also respond to the decision of the U.S. Court of Appeals for the D.C. Circuit in Paralyzed Veterans of America v. Civil Aeronautics Board, which said that Section 504 applied to all air carriers, whether or not they receive a direct Federal subsidy. The Department of Justice is currently considering whether to seek Supreme Court review of this decision.

1530. COMMERCIAL SPACE TRANSPORTATION: GENERAL PROCEDURES LICENSING PROCEDURES, AND INFORMATION REQUIREMENTS

Significance: Regulatory Program

Legal Authority: PL 98-575

CFR Citation: 14 CFR 400 to 405; 14 CFR 411 to 422; 14 CFR 440 to 441

Abstract: The rulemaking addresses the general organization and procedures of the Office of Commercial Space Transportation and the review procedures and information requirements pertaining to launch license applications. The proposed regulations will identify the general factors the government will consider, in the absence of published technical standards, in the course of determining whether to grant a launch license request. The process identified in the proposed regulations will set out in greater detail the two-part process described in the Department's Notice of Policy published in the Federal Register on February 25, 1985. That process consists of a Mission Review, focusing on national security and foreign policy issues, and a launch Safety Review, focusing on public safety issues. The proposed regulations will reflect the Department's current thinking on the conduct of these reviews in light of comments received on the Notice of Policy. These regulations are significant because they involve issues of substantial interest to the public and important DOT policies.

1532. LICENSING OF COMMERCIAL LAUNCH SITE OPERATIONS

Significance: Regulatory Program

Legal Authority: PL 98-575

CFR Citation: Not applicable

Abstract: The rulemaking addresses the development of technical standards for commercial launch site operations and the appropriate regulatory framework for issuing licenses authorizing such operations. In its initial stages the rulemaking will focus on identifying the basic safety elements associated with site operations, determining the degree to which safety operations can effectively be conducted by private entities, identifying the appropriate factors to consider in reviewing site proposals, and developing the standards to be applied in determining whether to approve such proposals. This rule is significant because it is included in the Department's Regulatory Program.

Significance: Regulatory Program

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1377; 49 USC 1382

CFR Citation: 14 CFR 241

Abstract: OMB has mandated that the 10 percent sampling requirement contained in the Passenger Origin-Destination Survey be eliminated and that a requirement that the collection include a statistically valid sample be substituted. The NPRM will request comments on the size of the sample and invite the public to propose alternative methods of administering the statutory data collection requirements contained in the Civil Aeronautics Board Sunset Act of 1984. This change has the potential for reducing the burden on the industry. This rulemaking is significant because it may substantially change the reporting requirements for the aviation industry and significantly reduce the associated paperwork burdens.

Significance: Regulatory Program

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1377; 49 USC 1387

CFR Citation: 14 CFR 241

Abstract: OMB stated that the continuation of uniform, detailed financial and operating reporting of domestic air transportation appears to be contrary to airline deregulation. It has mandated that an NPRM be issued soliciting specific recommendations from the affected public. The NPRM will be broad enough in scope to accommodate a wide range of alternatives, including complete elimination of all requirements. The NPRM will specifically request comments on the need for, and frequency of, the collection in the light of the information collection requirements imposed on the airlines by other Federal agencies. Additionally, the NPRM will request specific comments from other agencies that presently use the Form 41 data. This rulemaking is significant because it may substantially change the reporting requirements for the aviation industry and significantly reduce the associated paperwork burdens.

CFR Citation: 14 CFR 207; 14 CFR 208; 14 CFR 212; 14 CFR 298; 14 CFR 380

Abstract: The CAB proposed new charter rules for direct and indirect air carriers. The proposed rules retain the financial protections of existing rules for direct air carriers while eliminating rules restricting the types of groups (such as "affinity" or "single-entity") to whom charters may be sold. The proposal would also retain a security instrument and depository system for indirect air carriers, along with contract rules for public protection. The proposal also highlights depository bank and travel agent responsibilities in handling passenger funds. The proposal replaces one made earlier. DOT is considering what action should be taken.

Significance: Regulatory Program

Abstract: This action will enable the Department to establish criteria upon which carriers will be selected to serve those markets where the number of U.S. flag carriers is restricted under current bilateral arrangements. The proposal will also examine whether certificate authority should be awarded for a limited duration or on a permanent basis. This rulemaking is significant because it could potentially establish new policy and legal precedent in the selection of carriers for limited designation markets and the duration of the authority which these carriers are awarded.

CFR Citation: 14 CFR 399

Abstract: Republic Airlines petitioned the CAB for emergency rulemaking and other relief concerning changes in carrier interline practices. It stated that a number of major carriers have withdrawn from the current multilateral interline traffic agreement and henceforth will maintain interline arrangements only pursuant to bilateral agreements that are terminable monthly without notice. It alleged that failure to notify passengers that interlining may cease abruptly and without notice could constitute an unfair or deceptive practice within the meaning of section 411 of the Federal Aviation Act of 1958. In addition, it argued that the right to terminate interline agreements without notice could be used for anticompetitive purposes. Republic asked the CAB to adopt interim rules requiring notice to passengers and to institute a rulemaking proceeding to determine whether these no-notice bilateral interline agreements are an unfair method of competition. The CAB denied the request for emergency rules. DOT is now considering the subject of interlining and whether to begin a rulemaking proceeding. Significance: Regulatory Program

Legal Authority: 49 USC 1302; 49 USC 1324; 49 USC 1381

Abstract: The CAB proposed adding a policy statement that it would regard it as an unfair and deceptive practice and an unfair method of competition if two or more carriers share a single carrier designator code without giving reasonable notice to consumers of the identity of carriers actually providing service under the shared code and the nature of the relationship between carriers involved. The Board considered a final rule but took no final action. DOT is now considering what action to take. This rulemaking is significant because consumers may be at a disadvantage without full disclosure of the identity of carriers providing services for all parts of the trip.

Abstract: Transamerica petitioned the CAB to investigate ways to protect consumers against service defaults by scheduled air carriers in domestic, overseas, and foreign air transportation. Transamerica suggested that the Board condition the award of operating authority to perform direct carrier scheduled service on air carriers developing a default protection plan. For foreign air travel, it suggested that the obligation be limited to outbound flights. The petitioner argued that prompt action is necessary in order to ensure continued public confidence in scheduled air service and to protect passengers from unnecessary financial hardship. 1546. ELECTRONIC FILING OF TARIFFS

Significance: Regulatory Program

Legal Authority: 49 USC 1373

CFR Citation: 14 CFR 221

Abstract: DOT will examine whether conversion from a paper document system to a computerized system of filing and monitoring air carrier tariffs can reduce paper flow, speed up processing, and allow the industry to utilize computer and telecommunications technology to communicate with DOT. The alternative is to maintain the current paper tariffs system. Potential savings to the industry may be greater than to the government, since airlines already utilize automated fare and rate systems. In addition, airlines may be able to implement changes faster, thus responding more quickly to market conditions, and may be less burdened with the cost of producing and transmitting paper documents. The Department may reduce paper flow, experience savings in processing time and staffing, and improve the accuracy and control of tariff data. Costs to the government include systems design and the hardware, software and telecommunications facilities to operate the system.

Abstract: In 1981, the Department proposed a consolidation and expansion of its existing Title VI regulation (49 CFR Part 21). Few comments were received on this NPRM, and a final regulation was never published. The Department reviewed the existing regulation to determine if changes were needed. Abstract: The proposed regulation would set forth requirements and procedures for all State Departments of Transportation (DOTs) equal employment opportunity compliance programs. It would also consolidate FHWA, FRA, and UMTA responsibilities in this area. This proposed regulation is significant because it would affect the equal opportunity employment programs of all State transportation agencies. It is needed because OST, FHWA, FRA, and UMTA each have responsibility for implementing the equal employment opportunity programs of State DOTs. This proposed rule would assure full coordination among these departmental elements, reduce the burden on the recipients, simplify reporting requirements, and eliminate duplication of effort.

1553. NONDISCRIMINATION ON THE BASIS OF HANDICAP (DIRECTLY CONDUCTED PROGRAMS)

Legal Authority: 29 USC 794

CFR Citation: 49 CFR 28

Abstract: This regulation would implement the 1978 amendments to section 504 of the Rehabilitation Act of 1973 which made its prohibition of discrimination on the ground of handicap applicable to the directly conducted programs of Federal agencies as well as to their financial assistance programs. The rule would apply to DOT facilities, personnel practices, and regulatory programs. It would be based on a model rule developed by the Department of Justice. The rule would also apply to DOT activities and functions transferred from the Civil Aeronautics Board after that agency's "sunset". A CAB NPRM that was being developed on this subject will be subsumed in this project.

Legal Authority: 49 USC 1324; 49 USC 1373; 49 USC 1482

CFR Citation: 14 CFR 221.171; 14 CFR 221.173

Abstract: This petition proposes to amend the requirement that air carriers post cargo tariffs at stations, offices, and locations other than their principal office. The petitioners proposed to allow carriers to maintain a memorandum tariff at each location and have a toll-free number for shippers to obtain access to complete tariff information. Petitioners alleged that such a change would substantially reduce the cost and time burden of maintaining and continually updating voluminous files of current and past tariffs at each location.

Legal Authority: 49 USC 1324; 49 USC 1371

CFR Citation: 14 CFR 207; 14 CFR 208

Abstract: This rule would make direct air carriers responsible for returning charter passengers stranded by strikes or other interruptions of their services by eliminating the force majeure clause from charter contracts. However, the Department is considering a comprehensive proposal (RIN 2105-AA41 in this agenda) to revise and simplify air charter rules. The Department's final action in this proceeding will be consistent with the comprehensive review of the charter rule.

Legal Authority: 49 USC 1302; 49 USC 1324; 49 USC 1376; 49 USC 1551(b)(1)(D)

CFR Citation: 14 CFR 233, (Proposed)

Abstract: This proposed rule would end the current practice of prescribing fixed rates for the transportation of mail by air, and in its place establish zones for each category of mail. Each zone would be defined by maximum and minimum rates prescribed by DOT, and airlines would be free to contract with the Postal Service for the carriage of mail at any price within the zone. The rule is now moot with regard to domestic mail rates except in Alaska.

1559. AIR TRAVELERS: AGE DISCRIMINATION

Legal Authority: 42 USC 6102

CFR Citation: 14 CFR 376, (Proposed)

Abstract: This rule will prohibit discrimination against air travelers on the basis of age and implement the Age Discrimination Act of 1975. A final rule was adopted by the CAB on April 10, 1980, and was forwarded to the Secretary of HHS for approval, as required by the Age Discrimination Act. The rule was approved by HHS on July 13, 1984, with changes. DOT is considering combining this rulemaking with a broader DOT age discrimination rule on which work is now under way.

1560. POLICY STATEMENT ON AIRLINE PREEMPTION

Legal Authority: 49 USC 1305

CFR Citation: 14 CFR 399

Abstract: This rule will set out Department policies for regulation of the rates, routes, and services of airlines that have interstate authority. The CAB concluded that under section 105 of the Federal Aviation Act of 1958 it, not the States, was responsible for economic regulation (or deregulation, as the case may be) of all the routes, rates, or services of any airline holding either (i) a certificate of public convenience and necessity to provide interstate air transportation, or (ii) an exemption under section 416 of the Act from the requirement for such a certificate.

Legal Authority: PL 95-504; 49 USC 1371; 49 USC 1374; 49 USC 1386

CFR Citation: 14 CFR 205; 14 CFR 298

Abstract: This rule would set the minimum per-person aircraft accident liability insurance limits for U.S. and Canadian on-demand air taxi operators at $150,000, instead of at $300,000 as it is for other air carriers. The NPRM further includes alternative proposals to set the per-person limit at $75,000 or $100,000 or to eliminate all minimum amounts, requiring a public notice instead. Other rules for insurance coverage for these carriers would be as in 14 CFR Part 205, including the prohibition on safety-related exclusions. This rulemaking is significant because of substantial public interest.

1562. REVISE DEFINITION OF AIRLINE REVENUE AND NONREVENUE PASSENGERS, AND FIRST CLASS AND COACH PASSENGERS

Legal Authority: 49 USC 1324; 49 USC 1373

CFR Citation: 14 CFR 241

Abstract: The present definition of revenue and nonrevenue passengers for aviation reporting purposes is stated in terms of the exemptions for free and reduced-rate transportation in sections 403(b) of the Federal Aviation Act of 1958. These definitions have become outmoded in the process of air fare deregulation. In addition, first class and coach passengers are defined in terms of the type of fare paid with premium or standard fares being the benchmark for first class. With deregulation and the proliferation of the marketplace with new air fares, these definitions may also be outmoded. The DOT is considering several options for revising these definitions.

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1377; 49 USC 1387

CFR Citation: 14 CFR 241

Abstract: This proposed rule would standardize service segment data reporting for aviation. Presently, larger carriers file very detailed service segment data in ADP format while smaller carriers file a condensed version on a hardcopy report. This rule would standardize domestic service segment data at the condensed level.

Legal Authority: 49 USC 1324; 49 USC 1372; 49 USC 1508

CFR Citation: 14 CFR 375

Abstract: The CAB proposed to simplify and clarify its rules governing the navigation of foreign aircraft that are not engaged in foreign air transportation. The proposed rule would delete outdated provisions and conform the language of the rule to FAA regulations. In addition, the rule would expand the definition of foreign and civil aircraft to include U.S. registered aircraft owned by non U.S. citizens and would revise the application procedures for foreign aircraft permits to expedite their processing. The Department is now considering what action to take.

Legal Authority: 42 USC 2000d-1

CFR Citation: 14 CFR 379

Abstract: The CAB reviewed its rules that implement Title VI of the Civil Rights Act of 1964, in response to suggestions from the Department of Justice. An NPRM was approved by the Board on June 15, 1982, and was forwarded to the Justice Department for review in accordance with Executive Order 12250. Abstract: The reference to tariffs in the rule governing Overseas Military Personnel Charters (OMPC) has become obsolete, at least with respect to domestic air transportation. The CAB was considering whether to eliminate the tariff requirement for all OMPC's and replace it with consumer protection requirements similar to those in its Public Charter rule in Part 380. CFR Citation: 14 CFR 377

Abstract: In the past, the CAB had held that a foreign air carrier's permit or exemption authority continues after the underlying bilateral Service Agreement expired, by virtue of section 558(c) of the Administrative Procedure Act. This rule would reverse that policy in order to ensure equal competitive opportunities for U.S. carriers. This rulemaking is significant because it involves substantial public interest. Abstract: The CAB proposed to amend its rules requiring notice of contract terms for domestic travel to require that actual notice be given passengers of terms absolving carriers from any responsibility to transport a passenger to the destination named on the ticket, or to reimburse the passenger for expenses in reaching the airport noted on the ticket when a flight is diverted to another airport in the same

metropolitan area. Alternatively, the Board proposed to declare it to be an unfair and deceptive practice to divert a passenger without arranging and paying for alternate transportation to the destination airport named on the passenger's ticket. Abstract: The Compact of Free Association between the U.S. and the governments of certain territories in the Trust Territory of the Pacific Islands is pending adoption before the U.S. Congress. The Compact of Free Association and related Article IX of the Federal Programs and Services Agreement would make provision for payment of subsidy, if necessary, to maintain essential air transportation to the Federated States of Micronesia and the Marshall Islands when they acquire their new status. The Compact and Agreement also permit the Department under certain conditions to pay subsidy to Freely Associated States air carriers and to authorize these carriers to carry local air traffic between Guam, the Commonwealth of the Northern Mariana Islands, and Honolulu, Hawaii. This rule would establish the requirements and procedures for implementing these provisions.

1578. CURRENCY-RELATED ADJUSTMENTS FOR INTERNATIONAL AIR CARGO RATES

Legal Authority: 49 USC 1324; 49 USC 1371 to 1379; 49 USC 1381; 49 USC 1384; 49 USC 1386; 49 USC 1461; 49 USC 1481; 49 USC 1482; 49 USC 1502; 49 USC 1504

CFR Citation: 14 CFR 399

Abstract: TWA petitioned the CAB to establish an expanded policy of international cargo rate flexibility by which carriers would file for expedited effectiveness certain increased cargo rates on inbound traffic to the United States. The rate changes involved would be currency-related adjustments that carriers file in response to foreign government orders. TWA stated that this change is needed so that airlines are not exposed to penalties for failing to comply with foreign government directives. In addition, it argued that protracted review of these filings has a severe impact on airline revenues because an airline cannot change its tariffs to reflect currency devaluations. DOT is considering what action to take in response to this petition.

Legal Authority: 49 USC 1301; 49 USC 1302; 49 USC 1324; 49 USC 1371 to 1374; 49 USC 1381; 49 USC 1386; 49 USC 1481; 49 USC 1482

CFR Citation: 14 CFR 221; 14 CFR 250; 14 CFR 256

Abstract: The American Association of Airport Executives, the Airport Operators Council International and the Air Transport Association of America petitioned the CAB to simplify its countersign requirements. Presently, airlines are required to display four different consumer protection notices on their ticket counters. The petitioners alleged that the current notices are hard to read and, therefore, do not provide much notice to passengers. They proposed replacing the four notices with one simplified countersign. The CAB adopted an NPRM that proposed a number of alternatives, such as a long and/or short notice, where the notices would be required to be posted and whether a smoking notice should be included. DOT is now considering what action to take in response to the notice and comments filed.

1582. CARGO RATE CHANGES ON 30 DAYS NOTICE

Legal Authority: 49 USC 1373

CFR Citation: 14 CFR 221.160

Abstract: This rule would amend regulations to allow cargo tariffs which are within the zones established under 14 CFR 399.41 to be filed on 30 days' notice. There are two alternatives: either maintain the status quo (60 days' notice) or change cargo tariff filing regulations to 30 days' notice to be consistent with passenger tariff filing requirements. Standardization of the regulatory tariff filing requirements for both cargo and passenger tariffs would benefit the industry.

Abstract: The Civil Aeronautics Board was an independent agency; its rules have now been transferred to DOT, a cabinet department. This review will identify any CAB rules which are not consistent with Department or Administration regulatory criteria, such as those that impose an unnecessarily high cost or those with paperwork burdens that can be reduced or which involve a level of benefits or costs which are either higher or lower than necessary. The review will examine all alternatives, from strengthening a given rule to eliminating it. Non-regulatory approaches, including the supplying of information by the government, or regulation by another level of government, will be also considered. The benefits and costs will be known only after these alternatives have been developed. This review is a priority because it involves important departmental policy.

1589. INDIRECT AIR CARRIERS-GROUP CONTRACTOR EXEMPTIONS

Legal Authority: 49 USC 1371; 49 USC 1386

CFR Citation: 00 CFR None

Abstract: This rule would codify the Department's treatment of group contractors. A group contractor, like a charter operator, is an indirect air carrier that purchases air transportation from a direct air carrier and sells it to passengers as a principal rather than as an agent. Unlike charter operators, however, a group contractor is backed up financially by the direct carrier so that a passenger may look to the direct carrier for transportation or refund if the group contractor defaults. Group contracts are currently governed by the CAB Order 81-7-109, July 31, 1981, as modified by Order 82-3-132, March 24, 1982. They are sometimes referred to as "contract bulk fare operators."

Legal Authority: 49 USC 1324; 49 USC 1377; 49 USC 1389

CFR Citation: 14 CFR 324

Abstract: DOT subsidizes certain air carriers to provide essential air service to some small communities in the U.S. If a subsidized carrier wants to reduce or suspend its air service to certain communities, DOT "holds-in" the subsidized air carrier until a replacement air carrier can be found to provide the essential level of air service. DOT is considering expanding Part 324 to include a description of the costing methodology used to determine the compensation for losses in such hold-in cases. It is also considering including a description of the types of situations where the various methodologies would be appropriate.

Legal Authority: 40 USC 486(c); 10 USC 2301; 48 CFR 1.301; 49 CFR 1.59

CFR Citation: 48 CFR 1201

Abstract: The Department of Transportation Acquisition Regulation (TAR) is established to implement and supplement the Federal Acquisition Regulations (FAR), (Far Title 48 CFR Chapter 1). The intended effect of the Department's acquisition regulation is to implement the FAR where required and to supplement the FAR in areas where there is no FAR coverage of policies unique to DOT. Lack of a particular subject area in the TAR means the Department accepts the FAR coverage without further implementation. The proposed TAR was published in the FEDERAL REGISTER on June 1, 1984, 49 FR 22922, as an interim final rule inviting public comments. The changes that were made were appropriate to incorporate the comments received as well as other administrative and editorial changes, and these changes will be made, as appropriate, to incorporate typographical corrections discovered by the Department.

Abstract: On January 1, 1985, the authority of the Civil Aeronautics Board (CAB) to approve and grant antitrust immunity to certain aviation-related agreements, mergers, consolidations, acquisitions of control and interlocking relationships transferred to DOT. In order to implement this authority, the Department is proposing regulations that 1) specify the information that must be submitted when Department approval is sought; 2) set out the procedures to be followed when an application for approval has been filed; and 3) exempt certain transactions and relationships from the requirement to obtain Department approval. The proposed regulations are, in most respects, very similar to existing regulations of the same subject matter, and were drafted in cooperation with the Antitrust Division, Department of Justice.

Abstract: Would redefine and establish qualifying criteria for certifying individuals engaged in the carriage and transfer of the various categories of dangerous cargoes in bulk. This is considered significant because of passage of the Port and Tanker Safety Act of 1978 and the fact that the International Convention on the Standards for Training, Certification and Watchkeeping for Seafarers of 1978 will enter into force on April 28, 1984. This rulemaking is necessary because most pollution incidents are the result of personnel error; consequently, the minimum qualifications of persons involved in handling polluting substances should be specified.

Significance: Regulatory Program

Legal Authority: 33 USC 1223; 33 USC 1224

CFR Citation: 33 CFR 166; 33 CFR 167

Abstract: Would implement the results of the Port Access Route Study mandated by the Ports and Waterways Safety Act. As a result of the study, the Coast Guard has preliminarily determined that potential conflicts between oil drilling and shipping require creation of a fairway system off the coast of California from the vicinity of San Francisco to Los Angeles/Long Beach and changes to the San Francisco and Santa Barbara channel traffic separation schemes. No structures would be permitted in the fairway.

Abstract: Various Coast Guard regulations specify the intervals for drydocking and tailshaft examinations on inspected vessels. The Coast Guard is considering changing these intervals.

DOT—USCG

Current and Projected Rulemakings
Significant

Extending the interval between drydockings, if it could be accomplished without diminishing overall vessel safety, could result in significant savings to vessel operators. The ANPRM sought information from industry on developing technology. This regulation is significant because it involves important departmental safety policy.

1604. USER FEES FOR COAST GUARD SERVICES (84-026)

Significance: Regulatory Program

Legal Authority: 31 USC 9701; 46 USC 3306; 46 USC 3703; 49 USC 108

CFR Citation: 33 CFR 27; 33 CFR 66; 33 CFR 74; 33 CFR 100; 46 CFR 159

Abstract: This proposal would impose fees for certain Coast Guard services in keeping with the Administration's policy of recovering costs of services provided by the Federal Government to identifiable beneficiaries to the extent practicable. This rulemaking is significant because it will set precedent for a whole range of anticipated Coast Guard initiatives and is likely to create an adverse public reaction. It may also involve substantial cost.

1628. ● LICENSING OF OFFICERS AND OPERATORS FOR MOBILE OFFSHORE DRILLING UNITS (81-596)

Legal Authority: 46 USC 3306; 46 USC 7101; 46 USC 7102; 46 USC 7103; 46 USC 7104; 46 USC 7105; 46 USC 7106; 46 USC 7107; 46 USC 7108; 46 USC 7009; 46 USC 7110; 46 USC 7111; 46 USC 7112; 46 USC 7113; 46 USC 7114; ...

CFR Citation: 46 CFR 10; 46 CFR 15

Abstract: This project resulted from comments received on Coast Guard proposed rulemaking 81-59, Licensing of Officers and Motorboat Operators and Registration of Staff Officers which is contained in this agenda under another listing. The comment suggested that licensing of officers on Mobile Offshore Drilling Units be discussed in a separate rulemaking. This project is the result of those suggestions. The project would establish licensing requirements for officers on Mobile Drilling Units.

1657. SHIPS' STORES AND SUPPLIES OF HAZARDOUS MATERIALS (84-044)

Legal Authority: 46 USC 3306

CFR Citation: 46 CFR 147

Abstract: Would apply rules for hazardous materials used as ships' stores to offshore structures as well as vessels. Also would reduce the burden on shippers and manufacturers by deleting the requirement for separate Coast Guard classification of Ships' Stores and adopting the classification and identification provisions of the Research and Special Programs Administration found in 49 CFR Subchapter C which are already required for the transportation of hazardous materials.

Legal Authority: 33 USC 180; 33 USC 258; 33 USC 322

CFR Citation: 33 CFR 81

Abstract: Annex I of the International Regulations for Preventing Collisions at Sea, 1972. (COLREGS), contains technical requirements for navigation lights on vessels which proceed beyond the COLREGS demarcation lines. Lights on unmanned barges may not be able to meet the vertical sector requirements due to lack of electricity producing equipment on board these vessels. The Coast Guard is considering the need to exempt unmanned barges from the requirements.

1673. SEGREGATED BALLAST, DEDICATED CLEAN BALLAST, AND CRUDE OIL WASHING ON EXISTING TANK VESSELS OF 20,000 TO 40,000 DEADWEIGHT TONS (82-028)

Significance: Agency Priority

Legal Authority: 46 USC 3705(c); 46 USC 3706(d); 46 USC 2104; 46 USC 3306

CFR Citation: 33 CFR 157

Abstract: This project would amend 33 CFR pt. 157 for the purpose of implementing the tanker construction and equipment standards in 46 USC 3705(c) and 46 USC 3706(d). These statutes require tank vessels of 20,000 to 40,000 DWT that are 15 years old or older to have segregated ballast tanks, dedicated clean ballast tanks or a crude oil washing system by January 1, 1986 or the date they reach 15 years of age; whichever occurs later. This rulemaking is considered significant because of the economic impact of the statute on industry, and Congressional and Administration interest. It is needed because implementing standards mandated by the Port and Tanker Safety Act, will reduce operational pollution from ballasting, tank cleaning and sludge removal on existing tank vessels that are 15 years old or older.

1687. ANNUAL INSPECTIONS, PASSENGER VESSELS

Legal Authority: 46 USC 2104; 46 USC 3306

CFR Citation: 46 CFR 71.25

Abstract: Regulations contain specific annual inspection requirements and methods of carrying out those inspections. This regulation is being reviewed to see if there may be some way to reduce inspection costs while maintaining or improving levels of safety.

Timetable:

Action	Date	FR Cite
Begin Review	04/01/84	
End Review	03/22/85	

Small Entity: No

Additional Information: Review completed. The review concluded that any reduction in existing inspection procedures could result in an unacceptable reduction in safety. As a result, no modifications will be made to the regulations at this time.

1690. PARTS MANUFACTURER APPROVALS

Significance: Regulatory Program

Legal Authority: 49 USC 1354(a) Federal Aviation Act of 1958, Sec. 313(a); 49 USC 1421 Federal Aviation Act of 1958, Sec. 601; 49 USC 1423 Federal Aviation Act of 1958, Sec. 603

CFR Citation: 14 CFR 21; 14 CFR 45

Abstract: Since its inception, the PMA program has been controversial, and that controversy was underscored by several attempts by FAA to change the regulations. Public comment to previous NPRM's suggested FAA disparity in applying PMA rules and confusion among aviation industry members and other Federal agencies concerning both the PMA process as it existed and FAA's proposed changes. The agency withdrew its proposals and assembled a team to study all aspects of the controversy and suggest alternatives for future rulemaking. The report titled "Parts Manufacturer Approval Program Evaluation, Phase I Report" proposes (1) standardizing PMA procedures with or without rulemaking, (2) formalizing the data comparison approval method, (3) pursuing property right legislation for certain data, (4) deregulating aircraft replacement parts, or (5) delegating certain approval aspects back to industry. Regulatory Flexibility Act and Executive Order 12291 analyses are being done as part of Phase II of the study.

Third NPRM	11/00/85	

Small Entity: Yes

Additional Information: Docket No. 17147. This project was initiated December 23, 1975. NPRM No. 77-19 was published in the Federal Register (42 FR 43985). Comment period later reopened until January 4, 1978 (NPRM No. 77-19A, 42 FR 61048) and again reopened until May 15, 1978 (NPRM No. 77-19B, 43 FR 15432). Portions of NPRM 77-19 dealing with other subjects were handled separately. Supplemental Notice of Proposed Rulemaking (SNPRM) was published January 15, 1981 (46 FR 3775). Initial comment period closed April 15, 1981; reply comment period closed May 15, 1981. NPRM 77-19D reopening the comment period until August 24, 1981, and the reply comment period until September 21, 1981, was published July 23, 1981 (46 FR 38062). NPRM's 77-19 through 77-19D withdrawn October 12, 1984 (49 FR 40154). Phase I Report available to the public January 15, 1985 (50 FR 6303). Phase II of the study initiated May 1985 to prepare Regulatory Flexibility Act and other analyses required to pursue future NPRM.

1691. LOW-ALTITUDE WIND SHEAR EQUIPMENT REQUIREMENTS FOR TAKEOFF AND LANDING OPERATIONS OF TRANSPORT CATEGORY AIRPLANES

Significance: Regulatory Program

Legal Authority: 49 USC 1354(a) Federal Aviation Act of 1958, Sec. 313(a); 49 USC 1421 Federal Aviation Act of 1958, Sec. 601; 49 USC 1424 Federal Aviation Act of 1958, Sec. 604

CFR Citation: 14 CFR 121

Abstract: Would revise existing regulation to require all large passenger-carrying aircraft be equipped with a device that will display wind shear information to the pilots. This action is considered a significant project because it will generate substantial public interest and will be controversial. As a result of several accidents involving wind shear, it is necessary to identify equipment that will enable pilots to identify low level wind shear conditions.

Next Action Undetermined

Small Entity: No

Additional Information: Docket No. 19110. In 1975, the FAA began a two year effort to develop a wind shear program. As part of the program, FAA began work to develop a wind shear warning and pilot aiding device which has achieved encouraging results. Following the initial announcement of this proposal it was determined that a regulatory analysis would not be required; however, an evaluation will be made and docketed. ANPRM No. 79-11 was published on May 3, 1979 (44 FR 25807) and comment period closed August 3, 1979. (14 CFR Parts 91, 121 & 135.)

1692. REVIEW: UPDATE OF PART 139

Significance: Regulatory Program

Legal Authority: 49 USC 1354 Federal Aviation Act of 1958, Sec. 313; 49 USC 1429 Federal Aviation Act of 1958, Sec. 609; 49 USC 1430 Federal Aviation Act of 1958, Sec. 610; 49 USC 1432 Federal Aviation Act of 1958, Sec. 612

CFR Citation: 14 CFR 139

Abstract: Revision of 14 CFR Part 139 to update and clarify the part including fire-fighting, rescue, and airport fueling operation requirements. This rulemaking is significant because of substantial public interest.

Additional Information: This project was initiated on June 25, 1975, in response to a GAO evaluation of the FAA's Airport Certification Program and the result it has on improving the safety of airports. Recent delays have occurred due to industry concerns over aviation fueling responsibilities. FAA has reviewed proposals presented by a group of aviation organizations and changes have been made to the NPRM. The NPRM is currently being reviewed by the Office of the Secretary and will subsequently be reviewed by OMB. It is anticipated that the NPRM will be published in the Federal Register late in the summer of 1985.

CFR Citation: 14 CFR 61; 14 CFR 91; 14 CFR 65; 14 CFR 63

Abstract: Proposed rule which will subject Certificated Flight Crewmembers suspected of being under the influence of alcohol to blood-alcohol tests and establish a specific blood-alcohol content level at which a pilot is considered to be intoxicated. This rulemaking is significant because it may involve important departmental policy. Supplemental notice proposes to require crewmembers to submit to tests for alcohol given by law enforcement officers under certain conditions.

Additional Information: Docket No. 22471. The rule was originally promulgated to reduce air traffic congestion and delay. With the advent of improved programs, procedures, and air traffic flow management, the rule is felt to be unnecessary. On March 6, 1984, the FAA issued an interim final rule that amended the High Density Rule (49 FR 8237; March 6, 1984). The agency will reexamine within the next 6-9 months (from the 3/1/84 issuance date) the capability of the air traffic control system to handle the unusual demands that a less constrained system may create, such as significant airborne holding and multiple requests by operators for release from gates. This will be examined in connection with airport capacity and the experience levels of air traffic control personnel.

CFR Citation: 14 CFR 93

Abstract: This rulemaking proposes to change the annual passenger ceiling at Washington National Airport from 16 million to 14.8 million or to a figure between 14.8 million and 16 million depending upon the highest annual passenger level forecasted within the next 2 years. It also proposes to allow commuter carriers utilizing smaller, quieter aircraft to conduct a limited number of "stolrunway" operations at National Airport in addition to the operations permitted by the current limitations. This amendment is proposed to guide the future operation and development of Washington National and Dulles International Airports and to improve the quality of the environment in the areas around National. This rulemaking is considered to be significant because of possible public interest.

National Environmental Policy Act, Title I; EO 11514

CFR Citation: 14 CFR 21; 14 CFR 36

Abstract: Would revise noise certification standards for aircraft to add provisions applicable to helicopters. These would apply to civil helicopters in the normal, transport, and restricted categories, and would provide noise level limits and test procedures for the issuance of new and amended type certificates. It would also prohibit changes in type design of helicopters that might increase their noise levels beyond certain limits. Although this notice contains several provisions similar to those in an earlier notice,

which was withdrawn in 1981, it differs from that notice in several important aspects. One is the absence of any limit on manufacture of older non-conforming types; another is the increased commonality between these proposed standards and those adopted by the International Civil Aviation Organization (ICAO).

Additional Information: Part 36 of the Federal Aviation Regulations (14 CFR Part 36) contains noise standards for aircraft type and airworthiness certification. As the part is currently organized, Subparts B and C and Appendices A, B, and C apply to transport category large airplane and subsonic turbojet powered airplanes regardless of category. Appendix F contains the provisions applicable to propeller driven light airplanes. This notice proposes to prescribe noise levels and test procedures for civil helicopters certificated in the normal, transport, and restricted categories. These proposals include rules governing the issuance of new and amended type certificates for helicopters for which application is made on and after the publication date of this notice. The proposed rule would prohibit certain growth or other design changes if those changes might result in noise levels beyond prescribed limits. The proposed rule also provides the test conditions and procedures for conducting helicopter noise tests to demonstrate compliance with the prescribed noise levels.

CFR Citation: 14 CFR 93

Abstract: This notice proposes a mechanism which would remove Government restrictions on the transfer of slots used by operators at high density airports. The proposal is, in part, in response to recommendations made by a number of air carriers in connection with the FAA's High Density Rulemaking. Abstract: The proposed establishment or modification of prohibited airspace over these sites is one segment of a Department of Energy (DOE) comprehensive effort to enhance the protection of vital nuclear weapons research, development, and production facilities. If established, helicopter operations at any altitude over the designated sites would be prohibited without prior DOE authorization. This rulemaking is significant because it may be controversial. CFR Citation: 14 CFR 93

Abstract: This proposed rule is designed to alleviate increased delays throughout the air traffic system. If implemented, the FAA would alter current airline scheduling through a lottery process to more evenly space arrivals and departures throughout the day. Alternatives include voluntary schedule changes by the airlines. The rule, or the alternatives, would benefit the airline industry and the public by limiting delays. CFR Citation: 14 CFR 23; 14 CFR 91

Abstract: This notice proposes to amend Parts 23 and 91 of the Federal Aviation Regulations (FAR) to require the installation of shoulder harnesses at all seats of normal, utility, and acrobatic category airplanes with a passenger seating configuration, excluding pilot seats, of nine or less, manufactured one year after the effective date of the proposed amendment, and to require the pilot-in-command to brief passengers on how to fasten and unfasten their shoulder harness for takeoff and landings if shoulder harnesses are installed. This proposal responds to the conclusions of an FAA Crashworthiness Study Report, a Petition for Rulemaking from the General Aviation Manufacturers Association (GAMA), and Safety Recommendations from the National Transportation Safety Board (NTSB). This proposal will enhance the crashworthiness of small airplanes manufactured one year after the effective date of the proposed amendment. 1712. PROPOSED REVISION TO NOISE CERTIFICATION STANDARDS FOR PROPELLER DRIVEN SMALL AIRPLANES

Significance: Agency Priority

Legal Authority: 49 USC 1354 Federal Aviation Act of 1958, Sec. 313; 49 USC 1421 Federal Aviation Act of 1958, Sec. 601; 49 USC 1423 Federal Aviation Act of 1958, Sec. 603; 49 USC 1431 Federal Aviation Act of 1958, Sec. 611

CFR Citation: 14 CFR 21; 14 CFR 36

Abstract: Would revise noise certification standards for propeller-driven small airplanes to substitute the use of actual takeoff tests for the level flyover tests currently specified. This proposal would revise test procedures applicable to noise certification tests conducted on or after January 1, 1987. It would also revise the noise level limit numbers to approximate the equivalent of the sound levels measured and corrected in accordance with the current standard. These proposals result from industry requests for certification to be more directly based

upon typical inservice noise measurements and from studies conducted in several nations over a three year period under the auspices of the International Civil Aviation Organization. In addition, the FAA proposes to exempt antique airplanes and changes involving the addition of floats or skis from the acoustical change measurement and documentation requirements of Part 21. This regulation is significant because of substantial public interest.

Significance: Agency Priority

Legal Authority: 49 USC 2401 to 2407; 49 USC 2421 to 2433

CFR Citation: 14 CFR 159.181 to 185

Abstract: Proposed revision to reflect changed costs of operating the airports. This rulemaking is significant because it may involve possible controversy resulting from increased landing fees. It is of special interest to the airline industry.

1714. PROPOSED LIMITS ON THE GROWTH OF NOISE FROM CERTAIN AIRPLANES AND AIRPLANE TYPES

Significance: Agency Priority

Legal Authority: 49 USC 1354(a) Federal Aviation Act of 1958, Sec. 313(a); 49 USC 1421(a) Federal Aviation Act of 1958, Sec. 601(a); 49 USC 1423 Federal Aviation Act of 1958, Sec. 603; 49 USC 1431(b) Federal Aviation Act of 1958, Sec. 611(b); 49 USC 1421 et seq National Environmental Policy Act, Title I; EO 11514; 49 USC 106(g)

CFR Citation: 14 CFR 36; 14 CFR 91

Abstract: Would revise both noise certification standards and operating noise rules to ensure that aircraft certificated within certain broad noise groups or "stages" remain within those stages. Those proposals would apply to transport category large aircraft and to turbojet powered aircraft regardless of category. The proposed rule would prohibit modification of both individual airplanes and whole airplane types where those modifications would result in the growth of noise beyond the limits of the airplane's current stage. While the proposal would not restrict airplane changes that result in lower noise, it would in some cases prohibit re-modification of those aircraft to return to their original noise levels. The FAA believes that these rules are necessary to correct a defect in the current regulations and to protect airports, aircraft operators and the public from the effects of that defect. This rulemaking is significant because of intense public interest.

CFR Citation: 14 CFR 1; 14 CFR 61; 14 CFR 91; 14 CFR 103

Abstract: This notice would propose to establish airman certification requirements for persons operating powered ultralight aircraft. These mandatory certification standards are being considered because the response by ultralight operators to voluntary training programs has not been adequate. These proposed certification requirements are intended to achieve an acceptable level of safety in the operation of these aircraft.

Significance: Agency Priority

Legal Authority: 49 USC 1354 Federal Aviation Act of 1958, Sec. 313; 49 USC 1421 Federal Aviation Act of 1958, Sec. 601; 49 USC 1423 Federal Aviation Act of 1958, Sec. 603; 49 USC 106(g)

CFR Citation: 14 CFR 25; 14 CFR 121

Abstract: This action would amend the regulations to require an independent power source for the public address (PA) system in certain transport category airplanes. The requirement would be applicable to future type certification of airplanes that are required to have PA systems for use in air carrier service and to such airplanes manufactured after a specified date,

regardless of the date of application for type certificate.

Aviation Act of 1958, Secs. 602 to 610; 49 USC 1502 Federal Aviation Act of 1958, Sec. 1102

CFR Citation: 14 CFR 91

Abstract: This review deals with the air traffic and general operating rules in Part 91 - the most fundamental aviation regulations. This action would reorganize and rearrange the rules without substantive change, to make them easier to use and understand. (Phase I). A later action will review and revise them to eliminate unnecessary burdens in keeping with E.O. 12291. (Phase II). AOPA withdrew its petition on November 20, 1980, so the FAA could proceed with this two-step review. ANPRM 79-2 published the original AOPA petition for comment on January 22, 1979 (44 FR 4571). NPRM 79-2A proposing reorganization of Part 91 was published on September 10, 1981 (46 FR 45256). NPRM 79-2B extended the comment period to April 9, 1982 (December 10, 1981; 46 FR 60461). Comments received on NPRM 79-2A will form a basis for proceeding with Phase II.

Abstract: This is the fifth of a series of notices to be issued as part of the FAA's comprehensive Rotorcraft Regulatory Review Program. This notice contains proposals which would amend and update the operations and maintenance requirements pertaining to rotorcraft and covered in Parts 43, 45, 61, 91, 121, 127, 133, and 135 of the Federal Aviation Regulations. Part 1 would also be amended to add a definition of a Class D rotorcraft-load combination.

1742. AIRPORT IMPROVEMENT PROGRAM

Legal Authority: PL 97-248 Airport and Airway Improvement Act of 1982

CFR Citation: 14 CFR 156, (Proposed)

Abstract: This action would prescribe requirements and procedures for applicants desiring to receive financial assistance under the Airport and Airway Improvement Act of 1982. The program provides grants for planning and developing public-use airports and the implementation of noise compatibility programs. Generally, to receive funds, the applicant must be a public agency; although, in some instances, private airport owners may receive funds. Contents of the regulation will be governed by the requirements of the Act and OMB Circular A-102.

1743. NOISE STANDARDS: AIRCRAFT TYPE AND AIRWORTHINESS CERTIFICATION

Legal Authority: 49 USC 1354 Federal Aviation Act of 1958, Sec. 313; 49 USC 1421 Federal Aviation Act of 1958, Sec. 601; 49 USC 1423 Federal Aviation Act of 1958, Sec. 603; 49 USC 1431 Federal Aviation Act of 1958, Sec. 611

CFR Citation: 14 CFR 36

Abstract: Part 36 prescribes noise type certification standards for turbo jet powered airplanes and propeller driven small airplanes regardless of category. This review will examine the need to reorganize and realign the noise standards to make them more understandable and easier to use. This review would reorganize existing material into several new subparts, and utilize an improved numbering system to provide for the easier inclusion of future changes. Other improvements would be made by deleting redundancies, obsolete compliance dates, and making other minor changes. Additionally, Part 36 will be reviewed in accordance with Executive Order 12291 to reduce regulatory burdens on the public, including the preparation of both a Regulatory Evaluation and a Regulatory Flexibility Analysis.

Small Entity: Yes

Additional Information: A new generation of turbo-powered, single-engine airplanes is being developed whose operating efficiency and performance will be greatly reduced if they are required to meet the current stall speed requirements. The object of this rulemaking activity is to permit design and certification of higher performance, single-engine airplanes that may achieve higher cruise speeds with better specific fuel consumption by increasing wing loading.

CFR Citation: 14 CFR 27; 14 CFR 29

Abstract: This project proposes to amend the rotorcraft airworthiness standards in Parts 27 and 29 of the FAR. These proposals would add two dynamic crash impact design requirement conditions for seat and occupant restraint systems, increase the static design load factors for seating devices and items of mass in the cabin or adjacent to the cabin as prescribed, prescribe a shoulder harness for each occupant, and add human impact injury criteria for the dynamic crash impact conditions. These proposals are intended to significantly improve occupant protection levels in a survivable emergency landing impact.

1785. AIRMEN MEDICAL STANDARDS

Significance: Agency Priority

Legal Authority: 49 USC 1354(a) Federal Aviation Act of 1958, Sec. 313(a); 49 USC 1355 Federal Aviation Act of 1958, Sec. 314; 49 USC 1421 Federal Aviation Act of 1958, Sec. 601; 49 USC 1427 Federal Aviation Act of 1958, Sec. 607

CFR Citation: 14 CFR 67

Abstract: These regulations specify the medical standards which must be met before a medical certificate is issued to an airman. For example, a medical certificate is required before a person can obtain a pilot license. During a recent rulemaking involving these regulations, a considerable number of commenters expressed the belief that the current standards should and could be revised to state, in generally applicable objective terms, all those circumstances in which the FAA will issue medical certificates. In the past, some certificates have been issued on a case-by-case basis, with appropriate limitations, under exemption and waiver provisions where strict compliance with the existing standards was not essential in the interest of safety. A comprehensive review of these regulations is necessary to determine if the commenters' arguments are correct. If they are and the requested regulatory changes are possible, it could greatly reduce

CFR Citation: 23 CFR 658

Abstract: An analysis of comments to the March 1, 1985 NPRM indicate insufficient rationale to establish semitrailer lengths in 11 States. Therefore, a supplemental request for information was made of FHWA field offices and the trucking industry (through the 60 NR committee) to try to reach a supportable length in the remaining States. That supplemental information was due September 1, 1985. Depending on its nature, FHWA could produce a final rule February 1, 1986. However, if the information received is still inadequate, FHWA would have to consider other options.te, we must consider other options.

CFR Citation: 23 CFR 658

Abstract: The FHWA is proposing revisions to certain provisions established by the final rule on truck size and weight published at 49 CFR 23302 on June 5, 1984. This action proposes: (1) a definition for an automobile-transporter; (2) a minimum 75-foot overall length for a stinger-steered automobile-transporter; (3) the allowance of triple saddlemount combinations with a minimum length of 65 feet; and, (4) no overall length limitations for conventional tractor-semitrailer automobile transporters when the semitrailer is 48 feet in length. The purpose of this rulemaking action is to clarify and further define certain issues contained in the June 5, 1984, final rule.

Significance: Regulatory Program

Legal Authority: 49 USC 3102; PL 98-554, Sec 110

CFR Citation: 49 CFR 393

Abstract: This rulemaking action responds to section 210 of the Motor Carrier Safety Act of 1984. Section 210 requires the Department to open Part 393 of the Federal Motor Carrier Safety Regulations (FMCSR), which concerns the parts and accessories necessary for the safe operation of commercial motor vehicles for public comment and review. In essence, Part 393 is the basis for the vehicle inspection currently performed on vehicles operated by motor carriers subject to the jurisdiction of the DOT. Public comment has been requested pursuant to an ANPRM 01/10/85; exist. An NPRM will be issued which will represent an analysis and review of comments received.

FEDERAL MOTOR CARRIER SAFETY REGULATIONS

1816. FEDERAL MOTOR CARRIER SAFETY REGULATIONS: GENERAL

Significance: Regulatory Program

Legal Authority: 49 USC 3102; PL 98-554, Sec 206

CFR Citation: 49 CFR 390

Abstract: This rulemaking action will address the general provisions regarding the Motor Carrier Safety Regulations (FMCSR) contained in Part 390 of 49 CFR. This rulemaking is being undertaken to implement section 206 of the Motor Carrier Safety Act (MCSA) of 1984 which mandated the reissuance of the FMCSR. Part 390 deals with motor carrier definitions and general provisions regarding motor carrier operations. This entry appeared in the last agenda (April 1985) entitled "Retail Fertilizer Distribution Exemption." Pursuant to section 206 of the MCSA, the ANPRM on retail fertilizer distribution exemption (2/10/82, 47 FR 5273) was withdrawn on 1/23/85 (50 FR 2998). This rulemaking action will incorporate the comments made to the 2/10/82 ANPRM since the provisions relating to exemptions for retail fertilizer equipment are contained in Part 390.

Significance: Regulatory Program

Legal Authority: 49 USC 3102; PL 98-554, Sec 206

CFR Citation: 49 CFR 394

Abstract: The revision deals primarily with revising the truck and bus accident report forms. Being considered are (1) the consolidation of both forms into one, (2) reducing the number of copies to be filed and (3) raising the reporting threshold from the present $2,000 to a higher figure. The NPRM issued on 1/16/84 (49 FR 1912) has been withdrawn pursuant to section 206 of the Motor Carrier Safety Act of 1984. Section 206 requires the reissuance of regulations concerning commercial motor vehicle safety by April 30, 1986. Significance: Regulatory Program

Legal Authority: 49 USC 3102; PL 98-554, Sec 206; 23 USC 315

CFR Citation: 49 CFR 391

Abstract: Revisions are being proposed in response to section 206 of the Motor Carrier Safety Act of 1984. The proposed revisions will require motor carriers to insure that drivers which operate (1) commercial motor vehicles transporting certain classes of hazardous materials (11/M) or (2) cargo tank commercial motor vehicles requiring placards meet additional or more stringent qualification requirements.

Significance: Regulatory Program

Legal Authority: 49 USC 2314; 49 USC 3102; Section 414 of STAA of 1982

CFR Citation: 49 CFR 393

Abstract: Section 414 of the Surface Transportation Assistance Act of 1982 (Pub. L. 97-424) states that Congress declares the visibility on wet roadways in the Interstate System should be improved by reducing splash and spray from truck tractors, semitrailers and trailers. Congress instructed the Secretary to establish, by regulation, minimum standards with respect to the performance and installation of splash and spray suppression devices on truck tractors, semitrailers and trailers. Further, Congress mandated that all vehicles in use 5 years from date of enactment be equipped with such devices. The revisions to 49 CFR 393 will implement this mandate. This rulemaking is considered significant because of its economic impact on the motor carrier industry.

Abstract: The FHWA is seeking public comment concerning the development of Federal commercial motor vehicle inspection standards which would be applicable to motor carriers engaged in interstate or foreign commerce. This action is required by section 210 of the Motor Carrier Safety Act of 1984. The proposed revisions will require motor carriers to comply with Federal inspection standards, a State inspection program or an authorized self-inspection program. 1821. FEDERAL MOTOR CARRIER SAFETY REGULATIONS

Significance: Regulatory Program

Legal Authority: 42 USC 3102; PL 98-554, Sec 206

CFR Citation: 49 CFR 390 to 399

Abstract: Section 206 of the Motor Carrier Act of 1984 (Pub. L 98-554) (the Act) directs the Secretary of Transportation to issue regulations pertaining to commercial motor vehicle safety. The Department has issued regulations, the Federal Motor Carrier Safety Regulations (FMCSR), on this subject under earlier authority (49 U.S.C. 3102). The purpose of this advance notice of proposed rulemaking (ANPRM) is to identify and solicit comment on specific changes which should be made to the FMCSR prior to reissuance in order to effectuate the purposes of the Act. The purposes of the Act are to ensure that: commercial motor vehicles are safely maintained, equipped, loaded and operated; the responsibilities of drivers do not impair their ability to drive safely; the physical condition of drivers is adequate to enable them to drive safely; and the operation of the vehicles does not have deleterious effects on drivers. This rulemaking will be a comprehensive effort, and thus the Agency will incorporate certain other regulatory actions which have been proposed but have not yet been completed. There is no alternative to the overall reissuance of the FMCSR. However,

Similarly, potential costs and benefits cannot now be identified, but rather must await the development of a notice of proposed rulemaking. This rulemaking is significant because of substantial public interest. CFR Citation: 49 CFR 395

Abstract: Section 206 of the Motor Carrier Safety Act of 1984 (Act) directs the DOT to reissue regulations pertaining to commercial motor vehicle safety. On November 23, 1984, the FHWA published a final rule at 49 FR 46145 regarding Hours of Service in order to comply with an opinion of the United States Court of Appeals for the District of Columbia Circuit. A docket was opened (MC-99-1) in order to request comments for further consideration of revisions to the requirement of the driver's record of duty status. Pursuant to section 206 of the Act, an ANPRM was issued (1/23/85; 50 FR 2998) and again requested comments regarding the requirement for recorded hours of service. This rulemaking action will incorporate all comments received to the above mentioned published rulemaking actions. This document will consider the possible elimination of certain items required on the driver's record of duty status and extending the 12-hour limitation in the 100 mile radius exemption to 15 hours or permitting a 50 mile radius rule as an option with the 15 hour rule. This rulemaking is considered significant because of the potential cost savings which may result from (con't)

1823. TRUCK SIZE AND WEIGHT; INTERPRETATION AND POLICY STATEMENT; PROPOSED RULEMAKING

Significance: Regulatory Program

Legal Authority: 23 USC 315; PL 97-424, Sec 133; PL 97-424, Sec 411; PL 97-424, Sec 412; PL 97-424, Sec 413; PL 97-424, Sec 416

CFR Citation: 23 CFR 658

Abstract: The FHWA is proposing to provide a statement of FHWA interpretation and policy addressing the size and weight provisions contained in the Tandem Truck Safety Act of 1984 (TTSA) which amended the Surface Transportation Assistance Act of 1982 (STAA). This action addresses (1) conditions under which segments of the National System of Interstate and Defense Highways may be deleted from the National Truck Network, (2) conditions affecting the designation of new routes on the Federal-Aid Primary System as part of the National Truck Network, and (3) new provisions for 102-inch wide 28 1/2-foot semi-trailers. The issue relative to the qualifications of highways previously designated with lane widths less than 12 feet is the subject of a separate rulemaking action. See "Nonsignificant Rulemakings" portion of agenda.

Additional Information: This action had previously been characterized as significant in the agenda. Upon further review, it has been determined that since this rulemaking proposes to technically amend the June 5, 1984, final rule on Truck Size and Weight and to finalize certain issues left unresolved, it is not considered significant. A Regulatory Impact Analysis has been prepared for the June 5 rulemaking and is available for inspection in the Headquarters office of FHWA, 400 Seventh Street, SW, Washington, D.C.

1824. ● TRUCK SIZE AND WEIGHT; LANE WIDTHS

Significance: Regulatory Program

Legal Authority: 23 USC 315; PL 97-424, Sec 416; PL 98-554, Sec 105; PL 97-424, Sec 411; PL 97-424, Sec 412; PL 97-424, Sec 413

CFR Citation: 23 CFR 658

Abstract: By this action, the FHWA is taking steps to implement the 12-foot wide lane provisions contained in the Surface Transportation Assistance Act of 1982 (STAA) as amended by the Tandem Truck Safety Act of 1984 (TTSA). An ANPRM published 4/1/85 at 50 FR 12825 identified for re-examination specific routes on the National Network containing sections with lanes less than 12 feet wide in those States which do not otherwise permit 102-inch wide vehicles on the National Network, pursuant to State law. These States are Alabama, Florida, Kentucky, Maryland, Missouri, New

Hampshire, New Jersey, New York, North Carolina, Puerto Rico, South Carolina, Tennessee, and Virginia. After a review, FHWA intends to propose the deletion of highways with lane widths less than 12 feet wide if such designation is found to be inconsistent with highway safety. The FHWA is soliciting information, data and comments concerning these routes that may assist in the review.

RIGHT-OF-WAY AND ENVIRONMENT

1825. REVIEW: OUTDOOR ADVERTISING CONTROL AND ACQUISITION

Significance: Agency Priority

Legal Authority: 23 USC 131; 23 USC 148; 23 USC 315

CFR Citation: 23 CFR 750, Subpart G

Abstract: This regulation would provide a definition of "effective control" of outdoor advertising as required by 23 U.S.C. 131. It would also set further requirements for signs exempt from control under the statute and establish the basic framework for State development of police power regulations and procedures. The regulation would also outline the requirements for Federal participation in the acquisition of compensable nonconforming outdoor advertising devices. This proposal is significant because it may involve substantial public interest, is controversial and involves important departmental policy. This regulation is necessary for the maintenance of national uniformity in the outdoor advertising control program. Since 23 U.S.C. 131 is regulatory in nature, it is necessary to establish and maintain minimum Federal program requirements. The proposal involves the consolidation of two existing regulations, 23 CFR pt. 750, subpts. D and G, and one interim regulation 23 CFR pt. 750, subpt. E. The regulations have been in effect since September 16, 1975 and July 29, 1974, respectively. The interim regulations have been in effect (cont)

ABSTRACT CONT: since October 18, 1976. The proposed consolidation will be issued as an NPRM. An ANPRM, published April 30, 1979, (44 CFR 25387) and a Notice, published May 17, 1979, (44 CFR 28946) announced public hearings as part of an overall review of the Highway Beautification Program. These currently proposed regulations may be modified as a result of this review. A Notice published June 15, 1979 (44 CFR 34516) announced a hearing site change and a change in hearing procedures. On June 25, 1979 (44 FR 37100), a Notice announced amendments to the Highway Beautification Act by the Surface Transportation Assistance Act of 1978. A Notice published on July 12, 1979 (44 FR 40781) announced the establishment of a National Advisory Committee on Outdoor Advertising and Motorist Information. The need for further action is being reviewed by the Department of Transportation.

Significance: Agency Priority

Legal Authority: 42 USC 4321 et seq; 23 USC 101 et seq; 49 USC 1601 et seq; 49 USC 303(c)

CFR Citation: 23 CFR 771; 49 CFR 622

Abstract: This regulation covers the preparation of environmental impact statements and related documents and compliance with other Federal environmental requirements under FHWA and UMTA grant programs. The changes are intended to streamline the project development process and provide increased decisionmaking authority to agency field offices. The amendments are significant because they involve important departmental policy. They are needed to reduce burdens associated with the environmental review process.

1827. AIR QUALITY PROCEDURES FOR USE IN FEDERAL-AID HIGHWAY AND FEDERALLY FUNDED TRANSIT PROGRAMS

Significance: Agency Priority

Legal Authority: 23 USC 109(h); 23 USC 109(j); 23 USC 315; 42 USC 4332; 42 USC 7401; 42 USC 7506

CFR Citation: 23 CFR 770

Abstract: This regulation proposes to consolidate and amend existing air quality requirements for transportation projects into a single amended air quality regulation. The amended regulation is intended to streamline and

simplify (1) the process of determining which highway projects are exempt from the Federal assistance limitations of section 176(a) of the Clean Air Act (CAA), and (2) the conformity and priority procedures contained in 23 CFR 770. The amendments are also intended to provide more authority and flexibility to State and local agencies and to meet the objectives of the CAA in the most cost-effective and expeditious manner. The amendments are significant because they involve important departmental policy.

Legal Authority: 23 USC 112(b); 23 USC 140(a); 23 USC 315

Legal Authority: 23 USC 103(e)(5)(6); PL 96-106, Sec 2(c)

CFR Citation: 23 CFR 480

Abstract: Federal Highway Administration regulations in 23 CFR Part 480 prescribe the circumstances under which states must repay the Federal Government for the Federal contribution to the purchase of property for Interstate highway projects that are later withdrawn. Congress, in Public Law 96-106, amended 23 U.S.C. 103(e) to change the circumstances under which repayment must be made. Additional Information: Additional Information: An interim policy statement was published 6/6/83 (48 FR 25181) to implement acceleration methods for selected projects within existing regulations. Initially, FHWA had considered issuing a new regulation as a vehicle for accelerating Federal-aid projects pursuant to Section 129 of the STAA of 1982. However, it has been determined that the objectives of Section 129 can be best implemented by revisions to existing regulations. Therefore, separate regulations will not be issued regarding the acceleration program. This approach received the concurrence of Deputy Administrator Lamm on April 11, 1984. Abstract: The existing regulation on pavement design would be modified to eliminate unnecessary requirements and duplicative provisions. Currently, the Federal Highway Administration (FHWA) uses the "American Association of State Highway and Transportation Officials (AASHTO) Interim Guide for Design of Pavement Structures, 1972," Chapter III Revised, 1981, to evaluate the adequacy of the proposed pavement designs for Federal-aid projects. AASHTO is in the process of updating this guide. AASHTO approval of the revised guide is expected in October 1985. Abstract: The FHWA is amending its regulation on recordkeeping and reporting requirements for on-the-job training on Federal-aid construction contracts. The revised regulation would no longer require contractors to submit the Federal-Aid Highway Construction Contractor's Semi-Annual Training Report (OMB No. 2125-0021) and would no longer require State Highway Agencies to complete and submit the Federal-Aid Highway Construction Semi-Annual Training Report (OMB No. 2125-0021). In addition, the specific recordkeeping requirement and documentation of contractor performance under the training special provision would be eliminated. The revisions are being proposed as a result of an effort to carry out an internal Cost Avoidance, Reduction, Efficiency, and Effectiveness (CARE) program.

Legal Authority: 23 USC 112; 23 USC 315

CFR Citation: 23 CFR 635

Abstract: The revisions would require all persons submitting bids on a

Federal-aid highway project to submit with the bid an affidavit on non-collusion. The submission of an affidavit of non-collusion will serve to notify bidders that collusion on bidding is a violation of law and will serve in a court or administrative hearing as evidence of intent when other evidence that demonstrates the act of collusion is presented.

1850. ● ROADSIDE DESIGN GUIDE

Legal Authority: 23 USC 109; 23 USC 315; 23 USC 402

CFR Citation: 23 CFR 625

Abstract: This regulation would amend the existing 1977 "Guide for Selecting, Locating, and Designing Traffic Barriers" (Barrier Guide) which is incorporated in 23 CFR Part 625 as a guide. The 1977 Barrier Guide will be replaced by a new guide to be titled

"Roadside Design Guide." As soon as a workable draft guide is prepared, the FHWA will publish as Advance Notice of Proposed Rulemaking (ANPRM) requesting public comment on the application of the "Roadside Design Guide" to Federal projects. The ANPRM will consist of: A complete explanation as to how the "Roadside Guide "has been updated and a detailed description of the procedures that will be taken to effectuate Federal adoption. The public comment period could extend as many as 180 days.

Timetable:

Additional Information: Depending on the status of the draft "Roadside Design Guide" relating to its content, a second ANPRM could be issued. After that "Roadside Design Guide" has been formally approved for use by the States, the FHWA will then issue a Notice of Proposed Rulemaking (NPRM) with another public comment period. Only when this process culminates in a thorough review and analysis of all public comments will a decision to issue Final Rule be made.

Legal Authority: 49 USC 3102; PL 98-554, Sec 206

CFR Citation: 49 CFR 391.35

Abstract: This rulemaking action will be issued in order to implement section 206 of the Motor Carrier Safety Act of 1984. Section 206 requires the reissuance by the FHWA of regulations pertaining to commercial motor carrier safety. Options available to the FHWA regarding the requirement for a written examination for commercial vehicle drivers include (1) rescission of the requirement; (2) retaining the requirement and updating the questions; and, (3) revising the requirement to a pass/fail situation.

1854. ● SAFETY FITNESS DETERMINATION

Legal Authority: PL 98-554, Sec 215; 49 USC 3102

CFR Citation: 49 CFR 385

Abstract: Section 215 of the Motor Carrier Safety Act of 1984 requires the FHWA, in cooperation with the Interstate Commerce Commission, to establish a procedure to determine the safety fitness of owners and operators of commercial motor vehicles including persons seeking new or additional operating authority as motor carriers. Comments are being requested regarding the proposed changes in the current safety rating procedures and a new proposed "provisional safety rating" for those carriers who have not previously been assigned a safety rating or who intend to be a new entrant into the motor carrier industry. It has been determined that this rulemaking action is a significant regulation under the regulatory policies and procedures of the Department of Transportation because of the total estimated indirect benefits that may result.

1858. REVIEW: HIGHWAY PLANNING PROGRAM ADMINISTRATION

Legal Authority: 23 USC 104; 23 USC 307; 23 USC 315

CFR Citation: 23 CFR 420, Subpart A; 23 CFR 450, Subpart C

Abstract: This revision to an existing regulation would reflect policy changes in management of the highway planning and research program, e.g., allowing separate projects for components of the program (urbanized area planning, statewide planning, research and development), and applying matching rates to time periods rather than a fiscal year fund, etc. NPRM was published January 11, 1979 (44 FR 2400). As a result of comments received to the Docket, as well as internal coordination, FHWA is considering combining this regulation with 23 CFR Part 450, Subpart C, Metropolitan Planning Funds, since both deal with program administration. A revised NPRM combining parts 420 and 450 and incorporating requirements mandated by the Surface Transportation Assistance Act of 1982 was published on 3/28/85 (50 FR 12328). Publication of the final rule is expected in November 1985.

Significance: Agency Priority

Legal Authority: 23 USC 109; 23 USC 315; 23 USC 402

CFR Citation: 23 CFR 625

Abstract: This regulation amends the existing geometric design standards for highways for the new construction and major reconstruction of Federal-aid highways by replacing several publications incorporated by reference in 23 CFR Part 625 with a single new publication. The publication entitled "A Policy on Geometric Design of Highways and Streets" has been adopted by the FHWA and constitutes the FHWA's policy on the geometric design of all federally-assisted construction and reconstruction projects with the exception of those standards that currently apply to Interstate highways. Comments to the adopted standards were received (FHWA Docket No. 80-2) until August 13, 1985 in order to assist the FHWA in planning additional design research activities.

1868. REVIEW: CIVIL RIGHTS REQUIREMENTS

Legal Authority: 23 USC 140; 23 USC 315; 23 USC 324

CFR Citation: 23 CFR 230

Abstract: These regulations contain the policies, procedures and guides for implementing equal employment opportunity requirements under the Federal and Federal-aid highway programs. The changes are intended to eliminate unnecessary requirements, streamline procedures and reduce recordkeeping and reporting requirements. After reviewing comments received to the notice containing the priority review of civil rights regulatory impacts pursuant to EO 12291, it has been determined that no further action is necessary. Therefore action regarding this rulemaking is terminated as of 06/28/85.

1871. PUBLIC LANDS HIGHWAYS

Legal Authority: 23 USC 202(c); 23 USC 204; 23 USC 315

CFR Citation: 23 CFR 667

Abstract: The revisions are intended to bring the existing regulation up to date considering recent legislative and administrative changes in the program. Public Lands Highways are Federal-aid highways which are bounded on both sides by unappropriated or unreserved public lands, nontaxable Indian lands or other Federal reservations. The regulation specifies procedures for allocation of funds and project administration and provides guidance on eligibility of work.

1873. CITIZEN BAND RADIOS ON BUSES

Legal Authority: 49 USC 3102; PL 97-261, Sec 25

CFR Citation: 49 CFR 393

Abstract: The FHWA requested comments on a recommendation by the National Research Council, Transportation Research Board, of the National Academy of Sciences (NAS) concerning the use of citizen band radios (CB's) on buses. This action is required by section 25 of the Bus Regulatory Reform Act of 1982. The NAS recommended that FHWA maintain the status quo and allow motor carriers of passengers to continue to decide whether their drivers should be permitted to use CB's in buses, subject to collective bargaining. This action was withdrawn on 4/17/85 (50 FR 15198) based on the lack of data or evidence to support further rulemaking.

Significance: Agency Priority

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 571

Abstract: In response to a petition for rulemaking, the agency is proposing a new regulation to add a requirement that 102-inch wide trailers be equipped with axle tracks having a minimum axle width of 77 inches. An advanced notice of proposed rulemaking seeking comments on the safety issue raised by the petition was published on May 22, 1984 (49 FR 21551). 1885. OCCUPANT CRASH PROTECTION - TEST PROCEDURES AND OTHER ISSUES

Significance: Regulatory Program

Legal Authority: 15 USC 1392 National Traffic and Motor Vehicle Safety Act ETC; 15 USC 1407 National Traffic and Motor Vehicle Safety Act ETC

CFR Citation: 49 CFR 571.208; 49 CFR 572

Abstract: This rulemaking addresses the test procedures used in compliance testing, the dummy used for such testing, and the oblique angle test requirement in the automatic occupant crash protection standard. It also addresses some related issues including the standard's applicability to convertibles, reporting requirements for manufacturers, and the exercise of "due care" by manufacturers, in complying with the standard. This rulemaking will consider whether the Hybrid III dummy or a variation may be substituted for the dummy currently specified in 49 CFR 572 at some future time with corresponding changes in, or additions to the injury criteria established by the existing Federal Motor Vehicle Safety Standard 208. The costs and benefits of these various proposed changes are not yet known. This regulation is significant because of its involvement with departmental policy.

FUEL ECONOMY STANDARDS

1889. POST-1985 PASSENGER CAR FUEL ECONOMY STANDARDS

Significance: Regulatory Program

Legal Authority: 15 USC 2002

CFR Citation: 49 CFR 531

Abstract: The agency has granted a petition from the Center for Auto Safety to examine the feasibility of raising the existing post-1986 passenger car average fuel economy standard of 27.5 mpg. The agency has published a grant notice of the petition (49 FR 46770) and a request for comments (49 FR 48064). The agency has also granted petitions from Ford and General Motors requesting the lowering of post-1985 standards. The agency has published a grant notice of the petitions which requested comments, 50 FR 12344. The agency plans to issue two notices of proposed rulemaking. The initial proposed rule was issued on July 22, 1985 and proposed to reduce the 1986 standard. The second one, which will be issued at approximately the same time as a final decision is announced for the 1986 standard, will address the standards for 1987 and thereafter.

1895. SPLASH AND SPRAY SUPPRESSION DEVICES

Significance: Regulatory Program

Legal Authority: 49 USC 2314

CFR Citation: 49 CFR 583

Abstract: In accordance with the mandate of section 414 of the Surface Transportation Assistance Act of 1982, would establish minimum standards with respect to the performance of splash and spray suppression devices on truck tractors, semitrailers and trailers. Would also establish minimum standards with respect to the installation of splash and spray suppression devices on new vehicles. This regulation is significant because it is potentially controversial.

Additional Information: NHTSA's rulemaking would only affect new vehicles and equipment. However, section 414 of the Surface Transportation Assistance Act also mandates that the Department of Transportation establish minimum standards with respect to the installation of splash and spray devices for vehicles already in service. The Federal Highway Administration will conduct the rulemaking to satisfy that mandate. The Federal Highway Administration has classified its rulemaking as major. The costs of that rulemaking are expected to be much greater than NHTSA's rulemaking since (1) the population of vehicles in service is many times the annual production of new trucks, (2) a truck manufacturer will pay less per unit for each splash and spray suppression device when ordered in large quantities, and (3) the labor time to install the devices is far less for a new truck manufacturer, since it can be done at the assembly plant. In 1984, the Surface Transportation Assistance Act was amended to change the implementation date from 1/1/85, for new vehicles and 1/1/88, for vehicles in service, to one year after publication of the Final Rule for new vehicles & 3 years later for vehicles in service.

Legal Authority: 15 USC 1392 National Traffic & Motor Vehicle Safety Act of 1966; 15 USC 1407 National Traffic & Motor Vehicle Safety Act of 1966

CFR Citation: 49 CFR 571.121; 49 CFR 571.105

Abstract: Would establish a new brake standard for all trucks, buses and trailers with a Gross Vehicle Weight Rating (GVWR) over 10,000 pounds. This standard would replace Standard No. 121, Air Brake Systems, and that portion of Standard No. 105, Hydraulic Brake Systems, that applies to vehicles with a GVWR over 10,000 pounds. It would also establish new requirements for heavy trailers having other than air-actuated brakes. In developing the standard, the agency will consider compatibility with international regulations. Research programs in support of this new standard and possible future upgradings of the standard will investigate such long-term advanced braking system concepts as automatic brake adjustors, load-sensing proportioning valves, air driers, and retarders for heavy trucks, buses and trailers. This rule is considered significant because of the level of public and Congressional interest. It is necessary to prevent and reduce the severity of accidents involving heavy vehicles by providing increased accident avoidance capability.

FEDERAL MOTOR VEHICLE SAFETY STANDARDS

1935. LAMPS, REFLECTIVE DEVICES, AND ASSOCIATED EQUIPMENT

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 571.108

Abstract: This standard, which is applicable to both motor vehicles and equipment, specifies requirements for original and replacement lamps, reflective devices, and associated equipment necessary for signaling and for the safe operation of motor vehicles during darkness and other conditions of reduced visibility. The standard is being reviewed because of its relatively high costs and to refine previous agency estimates of its effectiveness. At the present time, the review is limited to the standards requirements for side marker lamps. An evaluation report will be prepared and made available for public comment before completion of the review. At that time, the agency will consider whether changes should be made in the standard's requirements. A review has determined that this rule has minimal effects on small entities and therefore a Regulatory Flexibility Act Review (RFA Review) is not required. The rule will still be reviewed as a priority review item.

1941. FEDERAL MOTOR VEHICLE SAFETY STANDARD NO. 301 - FUEL SYSTEM INTEGRITY

Legal Authority: EO 12291

CFR Citation: 49 CFR 571.301

Abstract: This standard, which is applicable to passenger cars, light trucks, and school buses, specifies requirements for the integrity of motor vehicle fuel systems. The purpose of the standard is to reduce deaths and injuries caused by fires which result from fuel spillage or after motor vehicle crashes. This evaluation follows up and expands on a prior study on passenger cars which showed that while the regulation was effective in preventing deaths and injuries, the incidence of crash fires appeared to be increasing. This evaluation will also provide the initial assessment of the regulation as it applies to light trucks. A review has determined that this rule has minimal effects on small entities, and therefore a Regulatory Flexibility Act Review is not required. The rule will still be reviewed as a priority review item. Subsequent to completion of the study and provision for public comment, the Agency will consider whether changes should be made in the standard's requirements.

Abstract: In response to a petition for rulemaking, Safety Standard No. 108 (Lamps, Reflective Devices and Associated Equipment) would be amended to allow motor vehicles to be equipped with replaceable bulb headlamp systems consisting of either four lamps with single standardized replaceable light sources, or two lamps with two such light sources. Currently, Standard No. 108 only permits replaceable bulb systems comprised of two lamps with single standardized light sources. The proposed amendment would relieve the current design restriction that allows only two lamp single light source systems.

1950. HIGHWAY SAFETY PROGRAMS; ASSESSMENT AND STATUS

Legal Authority: 23 USC 402

CFR Citation: 23 CFR 1205

Abstract: This regulation identified five NHTSA areas for priority funding under the State and Community Highway Safety Grant Program. The review will assess the state of highway safety activity and determine the effect of the regulation nationwide, provide a trend analysis of changes in activity over several years and compare these trends with earlier periods of time. (A sixth area is covered by FHWA and will be reviewed by that agency.) Project cancelled for further consideration at this time.

1951. HEAD RESTRAINTS

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 571.202

Abstract: This regulation, which was promulgated in 1969, is designed to reduce the frequency and severity of neck injuries in passenger car accidents. It is estimated that the rule requires a recurring investment of $130 million (an additional cost of $19 per vehicle). This review is completed. An evaluation report was published in February 1982. 1967. SPECIAL SAFETY INQUIRY

Legal Authority: PL 96-354

CFR Citation: 00 CFR None

Abstract: FRA initiated a Railroad Safety Inquiry to obtain information from the public to assist in evaluating and improving its safety regulatory program as it applies to "small railroads." The inquiry also assisted in meeting the goals of the Regulatory Flexibility Act by obtaining data that will assist in defining the economic impact of existing rules on small railroads. As a result of the Special Safety inquiry, FRA initiated two rulemakings designed to reduce the regulatory burden on small railroads. FRA envisions further rulemaking changes to decrease the burden on small railroads.

Significance: Agency Priority

Legal Authority: 49 USC 1615 UMT Act Sec. 19

CFR Citation: 49 CFR 626

Abstract: The proposed regulations would unify the civil rights regulations that recipients of funds under the Urban Mass Transportation Act must meet. This rulemaking is significant because substantial public interest is anticipated. Regulations are needed to implement a new statutory provision which consolidates UMTA's authority to assure effective and uniform compliance with civil rights and equal employment opportunity requirements in a manner comparable to other agencies within the Department of Transportation.

NPRM	10/00/85	

Small Entity: Yes

Additional Information: On October 22, 1984 UMTA issued a notice of policy (49 FR 41310-12) designed to encourage private participation in mass transportation planning and programming to the maximum extent feasible, consistent with the directives of UMT Act subsections 3(e), 8(e), and 9(f). UMTA now finds that rulemaking is necessary to ensure enforcement capability and to overcome practices that unfairly exclude private enterprise from opportunities to provide mass transportation services. The essential principles of policy that would be effected through this rulemaking are the same as those announced in the October 22, 1984 Federal Register notice.

CFR Citation: 49 CFR 615

Abstract: This regulation will set out the process applicants for grants under the UMT Act (49 USC 1601 et seq.) and the Federal-Aid Highway Act should follow in order to be eligible for Federal financial assistance for major capital investment projects. UMTA plans to issue an NPRM in 1986. This regulation is significant because it involves important departmental policy.

design bus specifications (The "White Book") mandatory for its grantees, but continued to mandate certain safety requirements applicable to such buses. On October 16, 1984, UMTA issued an ANPRM on whether these safety requirements should be extended to other buses financed by UMTA. This rulemaking is significant because of substantial public interest and controversy and because of the potential impact on the bus industry.

Additional Information: ANPRM asked for comments on what benefits would be derived from mandating these requirements; what their financial impact on manufacturers and grantees would be; and whether competition in bus markets would significantly be affected by these.

1976. ● MAINTENANCE OF EQUIPMENT AND FACILITIES

Significance: Agency Priority

Legal Authority: 49 USC 1602; 49 USC 1607

CFR Citation: 49 CFR 636

Abstract: This regulation would require each transit agency that receives Federal financial assistance to have a maintenance program that states maintenance goals and objectives, provides for adequate maintenance for both fixed facilities and equipment, and provides for adequate personnel to meet the goals and objectives of the program. The proposed rule would also require that each transit agency retain or assemble information necessary for UMTA to review the transit agency's actual maintenance activities and make determinations on compliance as required by statute.This rule is significant because it concerns a matter on which there is substantial controversy.

Timetable:

Action	Date	FR Cite
NPRM	11/00/85	

Small Entity: No

Additional Information: The Surface Transportation Assistance Act of 1982 (1982 STAA) included maintenance provisions in both sections 3 and 9 of the UMT Act. In the new section 9 block grant program, Congress provided that all recipients must certify that they will maintain facilities and equipment. UMT Act section 9(e)(3)(B). Section 9(g)(1) authorizes UMTA to determine by review or audit whether the recipients have complied with the maintenance requirement. The 1982 STAA also amended the section 3 discretionary grant and loan program by adding a provision that requires applicants to have sufficient capability to maintain facilities and equipment obtained with Federal assistance. UMT Act 3(a)2(A)(iii). This proposed regulation would provide UMTA with the information necessary to implement these provisions.

1982. REVIEW: PERFORMANCE-ORIENTED PACKAGING STANDARDS

Significance: Regulatory Program

Legal Authority: 49 USC 1803; 49 USC 1804; 49 USC 1808

CFR Citation: 49 CFR 172; 49 CFR 173; 49 CFR 178

Abstract: To develop performance-oriented packaging standards for small packagings based on the Recommendation of the United Nations Committee of Experts on the Transport of Dangerous Goods. Also includes former non-significant rulemakings entitled "Consolidation of Specifications and Establishment of Performance Standards for Specification Bags" (Docket No. HM-153), "Specifications for and use of Specification 17 Steel Drums" (Docket No. HM-182), and "Organic Peroxide Requirements" (Project 186-72). The rulemaking is significant because a large number of specifications for packaging in the Hazardous Materials Regulations would be affected by this project. To a large extent the complexity and mass of the present Hazardous Materials Regulations are due to the detailed specification-type packaging standards contained in these regulations. To replace these with standards based on the U.N. system would both simplify the present regulations and facilitate international trade.

Significance: Agency Priority

Legal Authority: 49 USC 1803; 49 USC 1804; 49 USC 1809

Abstract: The current regulations require reports of hazardous material incidents. The objective of this review is to determine if the current data requirements can be modified to reduce the burden on industry but still result in the collection of the information needed for the hazardous materials safety program. Although safety programs, such as the one covered by these regulations, require data in order to function properly, it is possible that the data collection can be made less burdensome.

2009. MODIFICATIONS TO DOT SPECIFICATION 21PF-1 OVERPACKS

Legal Authority: 49 USC 178; 49 USC 1803; 49 USC 1804; 49 USC 1808

CFR Citation: 49 CFR 178

Abstract: This rulemaking responds to a Department of Energy request that we improve the water resistance of overpacks used in the transportation of uranium hexafluoride. The natural form of mined uranium has low radioactivity; it must be purified to produce a form suitable for certain commercial uses. The purification process produces a small amount of radioactive uranium hexafluoride and a large amount of waste uranium hexafluoride enriched in the fissionable U-235 isotope that is of low radioactivity. This rulemaking addresses the packaging for the more highly radioactive, enriched uranium hexafluoride. It does not address the low level radioactive waste uranium hexafluoride, which is transported in plain cylinders. In the recent capsize of a French vessel carrying uranium hexafluoride, there was a danger of radioactive contamination because the vessel was carrying a variety of uranium hexafluoride packages; some contained material that had been removed from spent reactor fuel and reprocessed for reuse. In the United States, this material is never reprocessed, furthermore, the enriched form of uranium hexafluoride is always carried (cont)

Abstract: The recodification of Sec. 173.34 will provide industry with regulations set up by the functions to be performed. Abstract: Final rule will replace references to three industry steel line pipe specifications with the latest edition, a consolidation of the three specifications into one, the 1984 edition of the American Petroleum Institute (API) Specifications 5L. Based on petitions by the American Society of Mechanical Engineers, the Bethlehem Steel Corporation, and representation by the API Tubular Goods Standardization Committee, existing references to API 5L, 5LX and 5LS are out-of-date. Minimal costs and benefits will result because there will be no substantive changes to existing standards.

Significance: Regulatory Program

Legal Authority: 49 USC 1803 to 1806

Abstract: This proposal examines the difference between the DOT Hazardous Materials Regulations (HMR) and the new Transportation of Dangerous Goods Regs. (TDG) of Canada. MTB is proposing to add a new section (171.12a) to allow, with certain exemptions and limitations, hazardous materials to be transported into the U.S. from Canada in conformance with TDG regs. The proposal only addresses rail and highway. Section 173.8 would be removed, but the applicable provisions would be retained under Sec. 171.12a. The alternatives are - Do nothing; Provide complete recognition of the TDG regs; Provide limited recognition of TDG. MTB is proposing to provide limited recognition of the Canadian Regs. This alternative is considered to provide the greatest benefit and cost savings that is still consistent with transport safety.

2030. TRITIUM AND CARBON-14; LOW SPECIFIC ACTIVITY RADIOACTIVE MATERIALS TRANSPORTED FOR DISPOSAL

Legal Authority: 49 USC 1803; 49 USC 1804; 49 USC 1808

CFR Citation: 49 CFR 173.425(d)

Abstract: Currently, the transportation of tritium and carbon-14 is more strictly regulated than their disposal. In order to correct this disparity, MTB proposes to regulate their transportation to a degree more appropriate to the limited risk which they present. The proposal would permit shippers to disregard the radioactive hazard if the specific activity of the material does not exceed 0.05 microcuries per gram. This will permit disposal of these materials at other than radioactive material disposal sites. As this is a relaxation of the current rules there would be a cost savings to shippers. In addition, the scarce disposal sites for radioactive materials could be more efficiently used for the containment of more highly radioactive wastes.

Legal Authority: 49 USC 1804

CFR Citation: 49 CFR 107.401; 49 CFR 107.402; 49 CFR 107.404

Abstract: Most European countries are expected to require, beginning May 1, 1985, the certification by the national competent authority of packagings marked as conforming to performance standards specified in the United Nations Recommendations for the Transport of Dangerous Goods. That rule effectively eliminates use of packagings produced in the U.S. To assure acceptance of U.S.-produced packagings in Europe, DOT proposes a voluntary system of third-party packaging certification. Other alternatives considered were to do nothing and to issue certifications directly by DOT. Benefits and cost have not been quantified. However, as the proposed rule is strictly voluntary, it may be stated that there are no imposed costs. Benefits accrue when the affected parties avoid costs associated with having their packagings certified by a foreign Competent Authority. To receive such a certification the packaging must be sent to Europe for testing, or an agent of the foreign Competent Authority must be reimbursed for costs incurred in traveling to the U.S. to conduct an examination and testing. Both of those processes are costly to the party seeking the (cont)

Abstract: Miscellaneous changes to the regulations to correct spelling and editorial errors, erroneous references, inadvertent omissions of information and similar minor regulatory changes which do not impose any new requirements on persons subjects to the HMR. A single publication, an FR, is scheduled each year; timed to immediately precede the printing date established for revision of 49 CFR, Parts 100 to 199. Significance: Regulatory Program

Legal Authority: 46 USC 1241(b); 46 USC 1114(b)

CFR Citation: 46 CFR 382, (New)

Abstract: This regulation would require provision of rate and cost data to MARAD so it can determine fair and reasonable rates for carriage of preference cargo in bulk vessels at the request of concerned Federal agencies. MARAD would calculate guideline fair and reasonable rates using a methodology which would average operating costs to determine allowable costs for each vessel. It would establish requirements for the submission of data on which the methodology would be based. 2041. NOTICE OF INTENT TO REDESIGNATE ESSENTIAL TRADE ROUTES

Significance: Regulatory Program

Legal Authority: 46 USC 1121

CFR Citation: Not applicable

Abstract: The Maritime Administration intends to redesignate U.S., foreign trade routes determined to be essential for the promotion, development, expansion and maintenance of the foreign commerce of the United States, under authority in the Merchant Marine Act, 1936. There have been no substantial changes in essential trade route designations since the Act's enactment, other than inclusion of the U.S. Great Lakes. This action recognizes that in recent years major changes in shipping technology and U.S. trade patterns have emerged. It would consolidate the present 29 essential trade routes and essential trade areas into fewer essential trade areas.

2042. GENERAL PROCEDURES FOR DETERMINING OPERATING-DIFFERENTIAL SUBSIDY (ODS) FOR LINER VESSELS

Significance: Agency Priority

Legal Authority: 46 USC 1173; 46 USC 1114(b)

CFR Citation: 46 CFR 282, (New)

Abstract: The procedure that MARAD now follows in determining ODS for liner vessels is set forth in a manual, rather than in a regulation. Under the existing procedure, final subsidy payments are delayed on the average of three years. The proposed rule prescribes a system of fixed and final ODS rates that would permit administration of the ODS program on a more current basis. A change in procedures for determining foreign competition more accurately could result in annual ODS savings of up to $4 million.

Significance: Agency Priority

Legal Authority: 46 USC 1171 to 1176; 46 USC 1178 to 1181

CFR Citation: 46 CFR 252

Abstract: Under the current system for determining subsidy for bulk vessels as set forth in 46 CFR 252, final payments are delayed an average of three years. The current system precludes the operators from timely receipt of monies due them, thereby hindering the companies' cash management capability and the government's ability to forecast accurate budget obligations. The amended rule would prescribe new procedures for determining subsidy. The new system would provide payment of ODS as a fixed and final daily amount so the operators and the government can firmly establish the amounts of subsidy receivable on a current basis.

Abstract: MARAD will implement recently enacted legislation reinstating its authority to provide war risk insurance through the issuance of interim binders of insurance for U.S. - flag vessels, or vessels owned or controlled by U.S. citizens, and certain other specified foreign-flag vessels, when such insurance is not otherwise available from commercial sources. The rule will establish the terms and conditions for reinstating or issuing interim binders.

2055. AWARD AND ADMINISTRATION OF OPERATING-DIFFERENTIAL SUBSIDY (ODS) FOR DRY BULK CARGO VESSELS

Significance: Agency Priority

Legal Authority: 46 USC 1114(b); 46 USC 1171 to 1176

CFR Citation: 46 CFR 254, (New)

Abstract: The NPRM has been withdrawn.

Additional Information: There are only 3 dry bulk carriers now under ODS agreements. Those vessels are carrying preference cargoes without subsidy. Since it is unlikely that there will be approval of new ODS applications, this regulation is no longer considered necessary.

Affected Sectors: 441 Deep Sea Foreign Transportation

Significance: Agency Priority

Legal Authority: 46 USC 1171 to 1176; 46 USC 1114(b)

CFR Citation: 46 CFR 280

Abstract: New provisions would establish subsidy rates for liner vessels under ODS agreements. This rulemaking is significant because it involves a program with substantial public interest. It would formalize, in a regulation, policy of the Maritime Subsidy Board concerning subsidy rates now published in manual form. This action has been merged in RIN 2133-AA46.

2058. OBLIGATION GUARANTEES

Significance: Agency Priority

Legal Authority: 46 USC 1114 (b); 46 USC 1279 (b); 49 CFR 1.66

CFR Citation: 46 CFR 298

Abstract: This NPRM asks for comments on the following issues: procedures for the calculation of the internal rate of return, used to assist in determining the economic soundness of a project proposed for an obligation guarantee; the anticipated economic impact of the proposed requirement; and proposed changes to confidential information disclosure and insurance reporting requirements pertaining to obligation guarantees applications. This NPRM proposes specific, clear procedures for complying with the internal rate of return analysis required in the final rule on obligation guarantees (see Additional Information). The proposed calculation

procedures would produce more accurate information to assist the Maritime Administration in selecting successful applicants. The cost of this NPRM would be an increase in the paperwork burden on applicants required to calculate the internal rate of return. Applicants would benefit from the institution of a more uniform, fair procedure. This rulemaking involves important Departmental policy and is, therefore, significant.

2066. REPORTING OF INTERNATIONAL CAPITAL AND FOREIGN CURRENCY TRANSACTIONS AND HOLDINGS, TRANSFERS OF CREDIT, AND EXPORT OF COIN AND CURRENCY

Legal Authority: 31 USC 5315

CFR Citation: 31 CFR 128

Abstract: Part 128 of Title 31, CFR, sets forth the requirements and describes the forms used for reporting international capital and foreign currency transactions and holdings. Large amounts of offshore loans to U.S. nonbank residents are not being properly reported on the TIC C-series forms prescribed in Subpart B of Part 128. Much of this underreporting results from confusion among nonbank borrowers over whether the source of their loans is domestic or foreign. This confusion is exacerbated by the failure of U.S. intermediaries to comply with existing obligations, specified in the Form BL-2 instructions, either to report certain foreign transactions on behalf of their U.S. customers or to inform those customers of foreign ownership of claims held against them. This final rule describes and authorizes the issuance of TIC Form BL-3, designed for use by a bank or other financial intermediary in the U.S. to notify a nonbanking customer that a foreign loan has been arranged and that the customer has an obligation to report on TIC Form CQ-1.

2069. WIND DOWN OF REVENUE SHARING PROGRAM

Legal Authority: 31 USC 6701 to 6724 The Revenue Sharing Act

CFR Citation: 31 CFR 51

Abstract: The administration is recommending termination of the Revenue Sharing Program one year in advance of the current authorization. The 1986 budget proposed by Congress, however, provides for full funding of its current authorization through fiscal year 1986. It is expected that at that time the Revenue Sharing Program will expire. A number of provisions of the regulations should be revised to permit the orderly wind down of the Revenue Sharing Program. No alternative to wind down is available. It is expected that termination of the program will effect substantial cost savings.

2071. ◎ AMENDMENT OF AUDIT REGULATIONS TO REFLECT SINGLE AUDIT ACT OF 1984

Legal Authority: 31 USC 6701 to 6724 The Revenue Sharing Act; 31 USC 7501 to 7507 The Single Audit Act of 1984

CFR Citation: 31 CFR 51, Subpart F

Abstract: The single Audit Act of 1984 was enacted on October 19, 1984. It calls for imposing uniform audit requirements for all state and local recipients of Federal financial assistance instead of a separate audit for each program under which funds are received. The Revenue Sharing regulations must be amended to reflect the requirements of the Single Audit Act. There is no alternative to this action. It is expected that it will result in a cost saving to local governments as the possibility of duplication of effort will be eliminated.

2072. REVISION OF TREASURY DEPARTMENT CIRCULAR (TDC) NO. 1075, REGULATIONS GOVERNING WITHDRAWAL OF CASH FROM THE TREASURY FOR ADVANCES UNDER FEDERAL GRANT AND OTHER PROGRAMS

Legal Authority: 5 USC 301; 31 USC 6503; 42 USC 4213

CFR Citation: 31 CFR 205

Abstract: Revision of TDC 1075 will implement a new funding option for Federal programs and require payment of interest during the time Federal funds reside in a bank account. This new "Checks Issued-Interest Remitted" technique is developed in response to statutes in some States that require that the funds reside in a bank account prior to the issuance of checks. This revision also provides for the remittance of interest by the Federal Government to the States for the time that a State's funds are advanced for Federal programs provided for in a Congressional appropriation.

Abstract: The amended regulations will revise United States Code references; revise titles of designated officials; reduce quarterly reporting requirements of insurance companies from an estimated 4,000 hours annually to approximately 2,000 hours; eliminate the admitted reinsurer requirement thereby eliminating the reporting requirements and fees of 150 companies and saving approximately 900 staff review hours. Other benefits will include the reduction in application and renewal fees currently $1,050 and $700 respectively (by 30 to 50 percent); reduction in staff hours required for annual reviews (cut from 3700 hours to 1850 hours); reduction in staff hours required for application reviews (cut from 1800 to 900) and quarterly reviews (cut from 200 to 100 hours). Purpose of the revisions is to substantially reduce the human and material resources needs of this operation.

Unified Agenda of Federal Regulations

AGENCY: Bureau of Alcohol, Tobacco and Firearms (ATF); Treasury.

ACTION: General notice; Unified Agenda of Federal Regulations of regulatory projects under development, consideration, and review.

SUMMARY: Pursuant to section 5 of Executive Order 12291, entitled "Federal Regulations," ATF is publishing an agenda of proposed regulations that are expected to be issued and of proposed regulations that have been issued and an agenda of existing regulations that are being reviewed under the terms of the Executive Order, within the next six months. The latter agenda also lists regulatory projects identified for review pursuant to the ATF Regulatory Reform Program. Pursuant to section 610 of the Regulatory Flexibility Act (Pub. L. 96-354; 5 U.S.C. 610), ATF is also indicating whether a regulatory project is likely to have a significant economic impact upon a substantial number of small entities.

This general notice is designed to give the public adequate notice of the regulatory activities being contemplated by ATF.

The agenda is based on information available at the present time. The next Unified Agenda of Federal Regulations will be published in the **Federal Register** of April 1986.

FOR FURTHER INFORMATION CONTACT: For information about any particular regulatory project, contact the person listed in the subheading "Agency Contact," for the regulatory project.

For general information about this general notice, contact Lori Weins, FAA, Wine and Beer Branch, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226; (202) 566-7626.

Significance: Agency Priority

Legal Authority: 26 USC 5555; 26 USC 5207

CFR Citation: 27 CFR 19.377

Abstract: Changes the reporting requirements for most Puerto Rican and Virgin Islands spirits bottled at domestic distilled spirits plants. The reporting requirement will remain as a line item on the proprietor's monthly reports. However, the time for recording tax determination of insular spirits will change from the time these spirits enter the processing account to the time of tax determination.

2083. CHANGE IN STANDARD OF IDENTITY FOR STRAIGHT WHISKIES OF THE SAME TYPE

Significance: Agency Priority

Legal Authority: 27 USC 205

CFR Citation: 27 CFR 5.22(b)(1)(iii); 27 CFR 19.346(b)

Abstract: Current regulations do not provide for distilled spirits plant proprietors to mingle and still designate as straight whiskies of the same type produced at different distilleries or produced by different distillers. This project will allow such whiskies to be labeled as straight as long as the whiskies are produced within the same state. Their only alternative is to leave the regulations as they are and to not allow such whiskies to be mingled and designated as straight. We do not anticipate any extra costs to result from this change in regulations. This change will result in greater flexibility for distilled spirits plant proprietors.

2085. REDUCED PROOF DISTILLED SPIRITS PRODUCTS

Significance: Agency Priority

Legal Authority: 27 USC 205

CFR Citation: 27 CFR 5.22

Abstract: ATF is proposing to amend the regulations to provide for reduced proof distilled spirits products similar to "light beer," "light wine" and similar "light products which have become

increasingly popular with consumers in recent years. Since 1968, the words "light whisky" have referred to whisky produced by two processes which are different from other American whiskies and the term "light" does not refer to lower alcohol content. However, ATF is considering abolishing "light whisky" as a standard of identity, so that the word "light" can refer only to reduced alcohol content. Unlike wine and beer, distilled spirits products are usually sold at more than one bottling proof (e.g. whisky is frequently sold at 80 degrees, 86 degrees, and 100 degrees proof) with the difference in proof being the only distinction between products which are otherwise identical. Therefore, ATF must carefully consider labeling to ensure there exists a clear cut difference in the minds of consumers between products at minimum bottling proof or above minimum bottling proof, and those which are reduced in proof.

Abstract: Under current law (26 USC 7652), the excise taxes collected on all merchandise manufactured in Puerto Rico and the Virgin Islands, and shipped to the U.S., are deposited into the Treasury of either Puerto Rico or the Virgin Islands.

The Caribbean Basin Economic Recovery Act was passed to promote the economic revitalization of the Caribbean Basin area by removing the duty on certain merchandise from certified Caribbean Basin countries. In order to minimize any adverse effects this would have on Puerto Rico and the Virgin Islands, a provision was added to require that the excise taxes collected on all rum that is imported into the U.S. be deposited in the Treasuries of Puerto Rico and the Virgin Islands. This would be in addition to the amounts already transferred under 26 U.S.C. 7652 (a) and (b).

Legal Authority: 27 USC 205(e); 26 USC 5412

CFR Citation: 27 CFR 7.25; 27 CFR 25.142; 27 CFR 25.143

Abstract: This proposed rule would allow a brewer who operates more than one brewery to use a principal place of business as the address shown on labels in lieu of listing the actual place of production or showing all of the breweries operated by the brewer. This rule would benefit the industry by eliminating the need to prepare redesigned labels every time a brewery was bought, sold, built, or otherwise disposed of. It would benefit industry and government by reducing the numbers of labels submitted for approval under the Federal Administration Act.

Legal Authority: 26 USC 7651 to 7652; PL 85-859; 26 USC 5314; 26 USC 7805

CFR Citation: 27 CFR 250

Abstract: As part of the recodification of Part 250, we plan to simplify, consolidate and or eliminate as many sections of regulations as possible placing particular emphasis on reducing the number of recordkeeping requirements, forms, and customs responsibilities. Wherever possible, we plan to utilize a proprietor's commercial records in lieu of requiring the proprietor to submit public use forms. These changes to Part 250 should considerably reduce the burden hours on industry.

Legal Authority: 22 USC 2778 Sec. 38, Arms Export Control Act of 1976; EO 11958 (42 FR 4311)

CFR Citation: 27 CFR 47

Abstract: On December 6, 1984, the Department of State published a final rule revising the International Traffic in Arms regulations. Subsequently, ATF is proposing to revise, simplify, and clarify regulations in 27 CFR Part 47 to conform to the revised ITAR and to improve the regulatory scheme established under the ARMS Export Control Act of 1976 to control the import of defense articles and defense services. The major changes consist of revision of the U.S. Munitions Import list articles, increase of the registration fees, procedures for filing the ATF Form 6A, revisions of the list of prescribed countries, and modification of the import provisions of articles coming from Canada.

Significance: Agency Priority

Legal Authority: 26 USC 7805

CFR Citation: 27 CFR 252; 27 CFR 251

Abstract: The Customs Bureau has withdrawn Customs Officers from Customs Bonded Warehouses, consequently, there are no Customs Officers present to certify ATF forms or to make gauges of distilled spirits. Because of possible jeopardy to the Federal Revenue, ATF has issued instructions to proprietors of customs bonded warehouses requesting them to certify ATF forms and make gauges of distilled spirits in the absence of customs officers. This change in regulations will formalize this procedure. The alternative to allowing customs bonded warehouse proprietors to sign forms and gauge spirits is to not require anyone to perform these functions. This would result in an unacceptable risk to the Federal Revenue. We do not anticipate any extra costs to result from this change in regulations. This change will ensure that there is no jeopardy to the Federal Revenue.

Abstract: The Deficit Reduction Act of 1984 (Pub. L. 98-369) eliminated the stamp requirement for containers of Distilled Spirits by repealing 26 U.S.C. 5205. Containers having a capacity of one wine gallon or less will be required to bear tamper-evident closures or other devices which are designed to require breaking to gain access to the contents of the container. The effective date of this provision is July 1, 1985. This saves the U.S. Government approximately $1.7 million dollars annually in printing costs that were incurred by supplying these stamps to the industry.

Semiannual Agenda of Regulatory Actions

AGENCY: Office of the Comptroller of the Currency, Treasury.

ACTION: Semiannual agenda of regulations.

SUMMARY: As required by the Regulatory Flexibility Act and Executive Order 12291, the Office of the Comptroller of the Currency (Office) has prepared this semiannual agenda of its rules and regulations currently under review and scheduled for review. Regulatory actions taken since the publication of the Office's previous semiannual agenda on April 29, 1985 (50 FR 17634) are also included. It is expected that this semiannual agenda will enable the public to be more aware of, and allow it to more effectively participate in, the Office's regulatory activity.

ADDRESS: The mailing address for all contacts: Office of the Comptroller of the Currency, 490 L'Enfant Plaza East, S.W., Washington, D.C. 20219.

FOR FURTHER INFORMATION CONTACT: For general information about this semiannual agenda contact Nancy Lowther, Financial Analyst, Legislative and Regulatory Analysis Division, (202) 447-1177.

For additional information about a particular item on this semiannual agenda contact the individual identified as the contact person.

SUPPLEMENTARY INFORMATION: The Office has determined that none of the rulemakings discussed in this semiannual agenda requires a regulatory flexibility analysis; all entries have been determined not to have a "significant impact on a substantial number of small entities," and therefore are not subject to the provisions of the Act. Additionally, none of the rules is a "major" rule as defined by Executive Order 12291. Executive Order 12291

defines a "major" rule as one likely to result in:

(1) An annual effect on the economy of $100 million or more;

(2) A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or

(3) Significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

DATED: August 16, 1985.

H. Joe Selby,

Acting Comptroller of the Currency.

2111. RULES, POLICIES, AND PROCEDURES FOR CORPORATE ACTIVITIES

Significance: Agency Priority

Legal Authority: 12 USC 1 et seq

CFR Citation: 12 CFR 5; 12 CFR 7.7517

Abstract: The Office is engaged in a continuing review of its rules, policies, and procedures governing corporate activities. On April 8, 1985, at 50 FR 13762, a final rule was published simplifying the process for a national bank seeking approval to change its equity capital accounts or to issue subordinated notes or debentures. On August 8, 1985, at 50 FR 32003, the Office issued a final rule removing the section which requires a newly organized national bank to obtain the approval of this Office prior to offering checking accounts without service charges. On November 14, 1984, at 49 FR 45007, the Office issued a proposed rule on the establishment of domestic branches, seasonal agencies and customer bank communication terminals (CBCTs). These proposals are expected to benefit national banks and the Office by removing burdensome and costly regulatory requirements, while maintaining the Office's ability to render an informed decision on the proposed activity. The effect on small entities is considered in the development of each rulemaking.

Legal Authority: Sec 1, 77 Stat 668; 12 USC 92a; 12 USC 481

CFR Citation: 12 CFR 9

Abstract: Comments in response to a prior rulemaking Final rule Docket No. 80-16 (46 FR 71571) published October 29, 1980 included recommendations that additional amendments should be made to 12 CFR Part 9. The Office believes that the issues raised by the commenters can best be addressed through a comprehensive review of its regulations concerning national bank fiduciary powers and collective investment funds. The Office requested comments from the public as to the desirability and feasibility of a comprehensive review of its trust regulations pertaining to collective investment funds, including specific matters which should be addressed. The effect on small entities will be considered in the development of this rulemaking.

2113. SECURITIES EXCHANGE ACT DISCLOSURE RULES

Legal Authority: 15 USC 78

CFR Citation: 12 CFR 11

Abstract: The rule addresses a series of amendments to the securities disclosure regulations of the Office. The amendments govern such matters as the form and content of financial statements of national banks, prescribed formats for financial statements and schedules, and requirements prohibiting the falsification of accounting records and misrepresentations by officers and directors of national banks. The rule also reformats the regulation into a more logical form through the development of centralized bodies of nonfinancial and financial disclosure items comparable to the Securities and Exchange Commission's Regulations S-K and S-X, to which the various disclosure forms for registration, periodic reporting and proxy solicitation make reference. The regulation will not have a significant economic impact on a substantial number of small banks or other entities.

2114. REQUIRED NOTIFICATION TO NOMINATE BANK DIRECTORS

Legal Authority: 12 USC 1 et seq

CFR Citation: 12 CFR 17

Abstract: This regulation states that national banks may adopt bylaws or articles of association that require any shareholder proposing to nominate a director, other than a management nominee, to file certain information in advance with the Office and the bank. A proposal to rescind this regulation was published in the Federal Register. The Office is once again publishing the proposal for comment. The Office is unsure of whether commenters on the previous proposal understood that even if the regulation were removed, a bank could still provide for prior bank notification in its articles of association or bylaws, or both. The effect on small entities will be considered in the development of this rulemaking.

Legal Authority: 12 USC 1 et seq; 12 USC 93a; 12 USC 1818; 12 USC 1881 to 1884

CFR Citation: 12 CFR 7.5225; 12 CFR 21.11

Abstract: The proposal establishes a regulation requiring national banks to submit a criminal referral form upon the occurrence or discovery of any known or suspected theft, embezzlement, check-kiting operation, misappropriation, or other defalcation involving bank personnel or bank funds, or any other suspected criminal violation involving the affairs of the bank. Mysterious disappearances or unexplained shortages of bank funds need not be reported if they are due to

errors which have been discovered and corrected within seven business days. This proposal would remove 12 CFR 7.5225. The effect on small entities will be considered in the development of this rulemaking.

CFR Citation: 12 CFR 27

Abstract: This regulation requires national banks to record and retain information on age, race, sex, and marital status of applicants for home loans. Its purpose is to gather data necessary to statistically analyze lending practices to detect possible illegal discrimination. The Office anticipates amending this regulation only if it should become inconsistent with Regulation B data collection and recordkeeping requirements promulgated by the Board of Governors of the Federal Reserve System. 2118. ANNUAL FINANCIAL DISCLOSURES TO SHAREHOLDERS

Significance: Regulatory Program

Legal Authority: 12 USC 93a; 12 USC 161; 12 USC 1818

CFR Citation: 12 CFR 18

Abstract: The proposed regulation revises certain disclosure requirements of this Office. It would require all national banks to prepare periodic reports about their operations, file them with the Office, notify shareholders and depositors of their availability and supply them to such persons upon request and at no cost. The required reports would be prepared annually, quarterly, and shortly after the occurrence of significant events. They would contain narrative information about the bank, its management, results of operations, financial condition, and the existence of enforcement actions. In addition, the reports would contain financial statements covering multiple reporting periods. The reports would also contain information concerning bank fees, service charges, and funds availability. Banks which currently are subject to 12 CFR 11 and those which are members of bank holding companies subject to periodic disclosure requirements of the Securities and Exchange Commission might be able to use reports filed pursuant to those requirements, supplemented with information about the bank. The effect on small entities will be considered in the development of this rulemaking.

2119. RULES, POLICIES, AND PROCEDURES FOR CORPORATE ACTIVITIES; CHANGE IN BANK CONTROL

Legal Authority: 12 USC 1817(j)(13)

CFR Citation: 12 CFR 5.50(i)

Abstract: The regulation revises the disclosure policy adopted under the Change in Bank Control Act to provide for the publication of notices of changes in control filed pursuant to the Act, except in certain tender offer situations, and to clarify the procedure under which additional information regarding the acquisition may be made available upon request. The regulation will not have a significant economic impact on a substantial number of small banks or other entities.

2120. FACILITATING SHAREHOLDER COMMUNICATIONS

Legal Authority: 12 USC 24; 12 USC 92a; 12 USC 93a

CFR Citation: 12 CFR 12

Abstract: The proposed rule will relate to a national bank's obligation to forward proxy material and related information to bank customers owning securities held by the bank in its name or that of a bank nominee. Delays, inconsistent practices, voting difficulties, and other problems will be addressed. The rulemaking is expected to benefit bank customers by ensuring that they receive in a timely fashion those materials needed to make informed decisions on shareholder matters. 2122. ● SECURITIES EXCHANGE ACT DISCLOSURE RULES

Legal Authority: 15 USC 78

CFR Citation: 12 CFR 11, (New Subsection)

Abstract: The proposed rule would require that more detailed and meaningful information be provided to shareholders and this Office concerning banks' loan portfolios, other sources of income and exposure to risks. This will assist shareholders in evaluating proposals for mergers, consolidations, acquisitions and similar matters and will assist the Office in administering and enforcing the Securities Exchange Act of 1934 as it applies to national banks. The Office considered not proposing the additional amendments or proposing them as a general guide rather than a rule. However, the Office determined it was appropriate to propose the additional requirements as amendments to Part 11 because the Office believes the proposed requirements will help to clarify the types of disclosures which the Office, shareholders and the public would consider material in analyzing various Exchange Act filings and statements. The effect on small entities will be considered in the development of this rulemaking.

Legal Authority: 12 USC 1 et seq; 12 USC 84; 12 USC 93a

CFR Citation: 12 CFR 32

Abstract: This regulation implements 12 USC 84 which prescribes the limitations upon the loans that national banks may make to individual borrowers. The Office is considering revisions which would primarily simplify and clarify certain sections of the regulation. In addition, the proposal may address specific problems which have arisen under the regulation since it was promulgated in 1983. 2124. ORGANIZATION OF A NATIONAL BANKERS' BANK

Legal Authority: 12 USC 1 et seq; 12 USC 24(7); 12 USC 27

CFR Citation: 12 CFR 5.27

Abstract: The Garn-St. Germain Depository Institutions Act of 1982, PL 97-320, empowered this Office to charter bankers' banks, i.e., limited purpose national associations which will be owned exclusively by--and provide services solely to--depository institutions. This final rule specifies the essential statutory and procedural requirements governing applications for bankers' banks. The rule will not have a significant economic impact on a substantial number of small entities.

2125. BANK SERVICE CORPORATIONS

Legal Authority: 12 USC 1861 et seq

CFR Citation: 12 CFR 5.35

Abstract: The Bank Service Corporation Act was significantly amended by Section 709 of the Garn-St. Germain Depository Institutions Act of 1982, PL 97-320. Under the amended Act, a national bank may now invest up to 10% of paid-in and unimpaired capital and surplus in a bank service corporation. Prior approval of the appropriate federal regulator is necessary for a national bank to invest in a bank service corporation under certain conditions. This final rule codifies Office policy governing national banks desiring to invest in bank service corporations and sets forth the procedures for obtaining the required approval of the Office.

The rule will not have a significant economic impact on a substantial number of small entities.

Abstract: These interpretive rulings permit national banks to establish and contribute to charitable foundations as well as limit the amount which a national bank may contribute to charity. The Office is rescinding these rulings and clarifying that a national bank may establish Clifford trusts without seeking prior approval. This final rule is intended to eliminate unnecessary limitations on a national bank's charitable contributions. This final rule is expected to be beneficial rather than adverse, and small entities are expected to share the benefits of this rulemaking with larger institutions.

Semiannual Agenda

AGENCY: U.S. Customs Service, Treasury.

ACTION: Semiannual agenda.

SUMMARY: In response to Pub. L. 96-354, the "Regulatory Flexibility Act," and Executive Order 12291, "Federal Regulations," Customs has prepared and is publishing for public information a list of regulations either under development or under review.

FOR FURTHER INFORMATION CONTACT: For additional information regarding the substance of any particular regulatory project described in the agenda, please communicate with the person identified as the "Agency Contact." All agency contact persons are located at U.S. Customs Service Headquarters, the address of which is noted below. Comments or inquiries of a general nature about the agenda itself should be directed to Gertrude A. Bresnahan, Regulations Control Branch, Office of Regulations and Rulings, Headquarters, U.S. Customs Service, Room 2426, 1301 Constitution Avenue, N.W., Washington, D.C. 20229 (202-566-8237).

SUPPLEMENTARY INFORMATION:

Background

Public Law 96-354, the "Regulatory Flexibility Act" (RFA) and Executive Order (E.O.) 12291 of February 17, 1981, "Federal Regulation," require semiannual publication, in April and October of each year, of an agenda of regulations which are "likely to have a significant economic impact on a substantial number of small entities" and "major" regulations, respectively. The RFA and E.O. 12291 also require agencies to include in their agendas currently effective rules which are under agency review. Customs agenda includes a brief abstract of each regulatory project ("project") being considered, an indication of whether the project will have an RFA impact, the section(s) of the Code of Federal Regulations affected, the legal authority for the action being taken, the name, title, and telephone number of an agency contact and, where applicable, an approximate timetable of completing action on any project for which Customs has published a notice of proposed rulemaking. In addition, the status of projects referred to in previously published agendas is shown.

The following is the tenth semiannual agenda to be published by Customs under the RFA and E.O. 12291. It has been determined that none of the projects listed as being under development meets the standards required of a "major" regulation provided in E.O. 12291.

General Statutory authority for the development or review of regulations relating to Customs matters is found in section 301, title 5, United States Code (5 U.S.C. 301), and in sections 66 and 1624, title 19, United States Code (19 U.S.C. 66, 1624). When appropriate, additional specific statutory authority is indicated as the legal authority for the project.

DATED: August 12, 1985.

Harvey B. Fox,

Acting Director, Office of Regulations and Rulings.

Improving Government Regulations; Semiannual Agenda of Regulations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Semiannual agenda of regulations.

SUMMARY: This semiannual agenda lists the regulations determined as of July 31, 1985, that the Internal Revenue Service will be developing from July 31, 1985 through October 1, 1986. The purpose of this semiannual agenda is to give the public adequate notice of regulatory activities of the Internal Revenue Service.

FOR FURTHER INFORMATION CONTACT: Robert A. Bley, Executive Assistant to the Director, Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: CC:LR (202-566-3331), not a toll-free call.

SUPPLEMENTARY INFORMATION:

General

Section 5 of Executive Order 12291 and section 602 of the Regulatory Flexibility Act and the Treasury Directive implementing that Act all require that a semiannual agenda of regulations under development and review be published in the **Federal Register**. The next semiannual agenda of the Internal Revenue Service will be published in the **Federal Register** in April of 1986.

Description

This Semiannual Agenda of Regulations lists all projects within the Internal Revenue Service (I.R.S.) as of July 31, 1985, for the development of regulations to appear in the Code of Federal Regulations. This agenda lists existing regulations under development by the Legislation and Regulations Division and the Employee Plans and Exempt Organizations Division of the Office of Chief Counsel, I.R.S. The following information is provided for each regulation project: The title; priority status; whether the regulation is currently under review; its effect, if any,

on small business; the part of the Code of Federal Regulations affected; the legal authority for issuing the regulation; a brief description of the problem to be addressed in the regulation; and a timetable of action taken and to be taken. Under additional information there is provided the control number of the project within the Chief Counsel's Office, and the name and telephone numbers of the drafting and reviewing attorneys.

By direction of the Secretary of the Treasury.

Roscoe L. Egger, Jr.,

Commissioner of Internal Revenue.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 103 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations would provide that advance refunding issues defined as those refunding issues issued more than 180 days before the redemption of the issue to be refunded may be exempt issues if issued to refund qualified public facilities. A definition of qualified public facilities is provided. Special rules for multipurpose issues are also provided.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 103 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The amendments to the regulations would provide additional rules to determine under what circumstances property is treated as functionally related and subordinate to an exempt facility, such as a dock or wharf, and, therefore financeable with tax-exempt industrial development bonds. Furthermore, the regulations would examine the public use requirement which generally restricts tax-exempt financing to exempt facilities used by the general public.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 103(b) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: This regulation would define the meaning of the term "principal user of a facility" for purposes of applying the limitation set by the Internal Revenue Code upon the permissible size of a small issue of tax-exempt industrial development bonds, as diminished by certain other capital expenditures. This regulation would help identify other facilities the capital expenditures from which must be taken into account in determining whether that issue exceeds the small issue limitation.

CFR Citation: 26 CFR 1

Abstract: The regulation would provide guidance regarding the effect of an urban development action grant with respect to a specific facility, upon the capital expenditures limitation with respect to a small issue of tax-exempt industrial bonds issued to finance such facility. The regulation may also provide guidance regarding the required size of such grant in relation to the cost of the facility to be financed by the bond issue, and the nexus between the grant and the financed facility.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 103(b)(6) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: This regulation would establish revised procedures whereby the issuer of a small issue of tax-exempt industrial development bonds can elect to have a $10 million limitation rather than a $1 million limitation apply in determining the maximum allowable size of such issue. This regulation would centralize the filing of documents relating to this election to make its requirements more administrable.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 103 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The proposal will clarify the information reporting requirements with respect to private activity bonds. Industrial development bonds must be publicly approved--failure to fulfill this requirement results in loss of tax exemption for the interest on these bonds. Issuers of student loan bonds, charitable use bonds and industrial development bonds are required to supply certain information to the Internal Revenue Service. Failure to comply with this requirement will result in the loss of tax exemption for the bond's interest.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 103(m) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The proposal would describe the application of new Code section 103 (m) to interest earned on obligations which are exempt from taxation under Federal laws outside the Internal Revenue Code. Section 103 (m) broadens the types of obligations described in section 103 (a) to include obligations on which the interest is tax-exempt under provisions of Federal law

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC (b) (15) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: These regulations would provide guidance regarding the provision enacted by the Tax Reform Act of 1984 which generally denies Federal income tax exemption for a small issue of development bonds if any of its beneficiaries receives the benefits of more than $40 million of prior outstanding industrial development bonds allocated to itself, including its allocated portion of the small issue in question. These regulations would also provide guidance regarding how the proceeds of an issue of industrial development bonds are to be allocated among its beneficiaries.

CFR Citation: 26 CFR 1

Abstract: To provide regulations under section 168 and accompanying provisions clarifying the operation of the new accelerated cost recovery scheme. This new cost recovery system generally applies to property placed in service after December 31, 1980. Generally, section 168 applies to "recovery property" which is defined as tangible property of a character subject to the allowance for depreciation which is used in a trade or business, or held for the production of income.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 168(e)(3) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The temporary regulations would provide guidance to public utilities relating to the transitional rules for the public utility normalization requirements of ACRS under section 168 (e) (3). Prior to ACRS some public utilities did not have to normalize in order to use accelerated depreciation. Under the transitional rule these utilities are given until January 1, 1983 to meet the normalization requirements of section 168 (e) (3).

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 274(b) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations would reflect the modification by the Economic Recovery Tax Act of 1981 of the third exception to the term "gift" (i.e., the exception within certain dollar limitations for awards of tangible personal property). The regulations would define the term "qualified plan award." The regulations would clarify the existing regulations under section 274 (b) of the Internal Revenue Code of 1954 by excluding from the term "tangible personal property" any award of cash, or of a gift certificate, or of a right to choose among 5 or more different items.

2295. AMENDMENT OF THE INCOME TAX REGULATIONS UNDER SECTION 367 OF THE CODE (TRANSFERS TO FOREIGN CORPORATIONS) TO REFLECT SECTION 131 OF THE TAX REFORM ACT OF 1984 (P.L. 98-369)

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 367 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1T

Abstract: The Income Tax Regulations under section 367 will be amended to reflect the changes made to that section by the Tax Reform Act of 1984. Section 367 now provides generally that a foreign corporation will not be considered to be a corporation, for purposes of certain nonrecognitions provisions of the Code, upon the transfer of property to such corporation by a U.S. person. The statute provides certain exceptions to that rule, exemptions to those exceptions, and special rules applicable to certain specified transfers. The regulations will provide guidance concerning the applicability of the general rule and its exceptions and special rules, including guidance concerning transfers of assets for use in the section conduct of a trade or business, stock transfers, transfers of intangible assets, and transfers of branch operations that have operated at a loss.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 404(d) Internal Revenue Code of 1954; 26 USC 404(b) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations provide rules for taking a deduction under section 404(d) of the Internal Revenue Code for deferred compensation paid to independent contractors. A deduction is permitted only when there is a corresponding income inclusion by the plan participant. In addition, the regulations provide guidance with regard to the amendment of section 404(b) of the Internal Revenue Code by section 133 of the Revenue Act of 1978, which clarified that a method of compensation or contributions having the effect of a plan deferring the receipt of compensation does not have to be similar to a stock bonus, pension, profit-sharing, or annuity plan to be subject to 404(a) of the Internal Revenue Code. The regulations describe methods of compensation or contributions subject to the section 404(a) rules. The regulations also reflect the amendment of section 404(b) of the Internal Revenue Code by the Tax Reform Act of 1984. That amendment provides that certain deferred benefits shall be treated as deferred compensation for purposes of section 404(a).

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 408 Internal Revenue Code of 1954; PL 98-369, Sec 147

CFR Citation: 26 CFR 1

Abstract: On June 28, 1983, the Internal Revenue Service issued news release IR-83-88 requiring new information reporting by trustees of individual retirement accounts and issuers of individual retirement annuities (including accounts and annuities that are simplified employee pensions). Form 5498, Individual Retirement Arrangement Information, was prescribed in the news release as the information return to be used for this purpose. This regulation project will amend the regulations under section 408 to conform them to the reporting requirements announced in the news release. In addition, section 147 of the Tax Reform Act of 1984 amended

section 408 (i) of the Code to require that contributions be identified as to the taxable year to which they apply. This amendment will be included in this regulation period.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 409 Internal Revenue Code of 1954; 26 USC 48 Internal Revenue Code of 1954; 26 USC 401 Internal Revenue Code of 1954; 26 USC 6699 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations provide rules for electing the employee plan credit under section 48 of the Internal Revenue Code, establishing a tax credit employee stock ownership plan under section 409 of the Internal Revenue Code and providing voting rights to participants of certain defined contribution plans under section 401(a)(22) of the Internal Revenue Code. Further, the regulations provide guidance for determining the applicability of and calculating the assessable penalties relating to tax credit employee stock ownership plans under section 6699 of the Internal Revenue Code. The regulations reorganize and modify the current regulations which are based on section 301(d), (e), and (f) of the Tax Reduction Act of 1975, and provide a single set of rules that would apply to tax credit employee stock ownership plans established under the provisions of the Tax Reduction Act of 1975 and the 1978 Revenue Act.

2332. JOINT AND SURVIVOR ANNUITIES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 417 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: These regulations will provide rules on how plans which intend to qualify under section 401 can comply with the qualified joint and survivor annuity rules added to the Code by the Retirement Equity Act of 1984. The regulations will deal with which plans must provide survivor annuities, in what forms the survivor annuities may be paid, the notice and election procedures for survivor annuities and restrictions on a plan's ability to cash out a participant and spouse.

2338. INCOME TAX--CREATION & TREATMENT OF INCENTIVE STOCK OPTIONS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 422A Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations would provide guidance for taxpayers who either grant or receive incentive stock options. The grant of an incentive stock option to an employee by an employer will not be a taxable event. At the time such option is exercised by the employee no amount of the spread between the fair market value of the stock at exercise and the option price will be included in the employee's gross income. When the stock acquired through the exercise of the option is sold, the entire gain will be treated as capital gain and not ordinary income if certain holding period and employment relationship requirements are met.

2361. INCOME TAX--LIMITATION ON DEDUCTIONS IN CASE OF FARMING SYNDICATES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 464 Internal Revenue Code of 1954; 26 USC 278(b) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations would provide that enterprises which qualify as farming syndicates must deduct expenses for feed, seed fertilizer, etcetera, only when used or consumed and to capitalize certain cost of poultry. Furthermore, farming syndicates are to capitalize certain expenses of groves, orchards and vineyards to the extent such expenses are incurred before the grove, orchard or vineyard becomes productive.

2362. INCOME TAX--DETERMINATION OF AMOUNTS AT RISK WITH RESPECT TO CERTAIN ACTIVITIES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 465 Internal Revenue Code of 1954; Section 204 Tax Reform Act of 1976

CFR Citation: 26 CFR 1

Abstract: The regulations would provide guidance to taxpayers for purposes of determining the amount the taxpayer is at risk in certain activities. This guidance is necessary because a taxpayer's deductions are limited to the amount the taxpayer is at risk in the activity. This at risk limit applies to most activities except the holding of real property and certain equipment leasing by closely-held corporations.

2363. EXTENSION OF THE AT-RISK RULES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 465 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations would provide guidance to taxpayers with respect to the extension of the at-risk rules to all activities other than the holding of real property. The regulations would also provide guidance with respect to the exception to the at-risk rules for closely-held corporations actively engaged in equipment leasing, and the recapture provision.

2364. ● AGGREGATION OF CERTAIN ACTIVITIES FOR PURPOSES OF THE AT-RISK RULES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 465 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The Regulation will provide rules for aggregating certain activities for purposes of applying the at-risk rules under section 465. In general, the at-risk rules limit the amount of loss deductible in a taxable year with respect to an activity to the amount the taxpayer is at risk in the activity. The aggregation rules will apply to taxable years beginning after December 31, 1984.

2365. INCOME TAX REGULATIONS-DEFERRED PAYMENTS FOR USE OF PROPERTY OR SERVICES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 467 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations will provide rules relating to the accrued of rent for the use of tangible property (and interest on rent that accrued but is not paid) under a section 467 rental agreement. A section 467 rental agreement will be deferred. Certain tax avoidance transactions will be deferred. Rules will be provided for the recapture of prior understated inclusions. Comparable rules for services will be provided.
